Organising Secretary: Braj Narayan Brajesh, M.P.

Secretary: Devendra Kamal.

Treasurer: Bhagirath Mohita.

Total membership of Party: 4,50,000.

Strength in the Lok Sabha: 8.

AIMS AND OBJECTS

The aim of the Hindu Mahasabha is the protection and promotion of all that contributes to the advancement, strength and glory of Hindu Rashtra, Hindu culture and Hindu polity, and as a means to that end, to achieve Hindu Raj and re-establish the integrity of the State of Bharat by constitutional means.

Besides the establishment of 'Akhand Hindustan' the aims and objects of the Hindu Mahasabha are defined as follows:

The creation of a new social order in which all nationals will enjoy equal rights and opportunities and share equal responsibilities;

The assurance to each national of the dignity of human values and full freedom of thought, expression, association and worship; Adoption of (Sanskrit-Nishta) Hindi as the national language and Devanagiri as the national script of India;

Removal of all forms of social inequalities and disabilities;

Reclamation of all those who have left the Hindu fold and welcoming of others into the community;

Ending of gross inequalities in the distribution of wealth, assurance of a decent standard of living to each national, and securing for workers and peasants their rightful share in the economy of the country;

Promotion of cow protection and abolition of cow slaughter;

The present Constitution of India is borrowed from the Constitutions of America; England, France and other Western countries and is not suited to the genius of the people. The Hindu Mahasabha would undertake the task of amending the Constitution so that it may be in consonance with the tradition and culture of the land and make Bharat a truly democratic Hindu State.

The Hindu Mahasabha wants to discourage all separatist tendencies and hence would amend the Constitution so that Bharat may be a well-knit homogeneous State with a strong centre and not a loose combination of autonomous States. Bharat itself would be a State and the units would be provinces and not States.

The Hindu Mahasabha will make military education compulsory for all young men between the ages of 18 and 25, who are physically fit and special attention will be paid to industries connected with war machines and materials of all types.

The Hindu Mahasabha will relax the rigours of the Arms Act and issue licences liberally to the inhabitants in border areas.

The Hindu Mahasabha recognises the sanctity of private property and guarantees its possession and inheritance to its owners.

All key industries such as electricity, railway, coal and steel mines and industries dealing with war materials and weapons will be owned and controlled by the State. The remaining industries will remain open for private enterprise. In running these industries the Mahasabha assures all investors full facilities to start new industries with State aid and partial exemption from taxation in the initial stages.

The Hindu Mahasabha is convinced that controls, without guaranteeing adequate supply of controlled commodities to the public, are only a nuisance and also often actually lead to blackmarketing and corruption.

The Hindu Mahasabha will give priority to rehabilitation of refugees and would even levy a special tax, if necessary, for the purpose. The Hindu Mahasabha guarantees compensation to all evacuees who have lost their property in Pakistan and will settle the problem of evacuees' properties at Government level speedily. The Hindu Mahasabha also declares that the refugees will become full-fledged citizens of Bharat. The Hindu Mahasabha will take effective steps to recover abducted women from Pakistan.

The Party lays special stress on the reconversion of those who had left Hinduism. It believes that the activities of non-Indian missionaries are harmful to the country. The Party, therefore, demands a ban on foreign missions and the nationalisation of Christian churches.

ALL JAMMU & KASHMIR NATIONAL CONFERENCE

(See under article on Jammu and Kashmir.)

BHARATIYA JAN SANGH

(Ajmere Gate, Delhi.)

AIMS AND OBJECTS

The party has put forward the following programme:

Opposition to copying U.S.A. or U.S.S.R. systems.

Promotion of private enterprise with adequate checks against concentration of power. The present trends will lead to State capitalism.

Top priority to food, defence, unemployment. Country should be self-sufficient in defence equipment and producer and consumer goods.

Right to work should be a fundamental right. Unemployment benefits.

Is opposed to the mechanization of agriculture. Economic power should be decentralized.

Spheres of small-scale and large-scale industry should be clearly demarcated. Will promote small-scale industry by reserving markets, encouraging co-operative industries, giving protection to handloom industry.

Nationalisation of basic industries and defence industries. Other industries subject to supervision and regulation. Is opposed to nationalisation of banking and road transport. The present trend in the nationalisation of industry will destroy democracy.

President, Principal Deva Prasad Ghosh. *General Secretary*, Deendayal Upadhyaya. *Secretaries*, Atalbehari Vajpayee, M.P.; Jagannathrao Joshi; Sunder Singh Bhandari. *Office Secretary*, J. P. Mathur.

Total membership of party in country, 600,000.

Strength in the Lok Sabha: 4.

Strength in Rajya Sabha: 1.

Total strength in State Legislatures: 68.

No. of votes polled in elections to Lok Sabha: Over 72 lakhs.

Has branches in all the States. The Praja Parishad of Kashmir is affiliated to it.

* Nominated by the President.

† The articles in this section are based on the material provided by the parties themselves.

Indianization of foreign-owned industries (e.g. tea, coffee and rubber plantations). In others, two-thirds of investment and staff should be Indian. A ceiling on the profit which can be remitted abroad.

Co-sharing and Co-partnership in industry. Adequate representation of labour on boards of management. Encouragement of labour unions and automatic recognition. A permanent Wage Board. Periodic revision of scales of pay. Rs. 100 as the minimum wage at present. Social security legislation. Special allowance for hazardous jobs. Abolition of the employees' contribution to the Employees' State Insurance scheme. Equal pay for equal work.

Rs. 2,000 as maximum expendable income for individual—to be brought about through taxation and compulsory loans and investment.

Restriction on import of consumer goods and luxury goods. Encouragement of swadeshi. Only swadeshi goods to be used in Government offices.

Generally opposed to indirect taxation. Abolition of Sales Tax and excise duty on the necessities of life such as cloth.

Parity in price between agricultural and industrial goods. Upholds abolition of zamindari and distribution of land to the landless. Rehabilitation grants. Co-operative banks and insurance of villagers and cattle.

Compulsory military training. Establishment of defence industries. Abolition of untouchability and fighting caste feeling to bring about unity in Hindu society. Nationalise non-Hindus by inculcating Bharatiya culture. Will implement recommendations of the Niyogi Committee.

Stands for unitary rather than federal conceptions.

Part of land revenue to Panchayats.

Will abolish Legislative Councils and repeal the Preventive Detention Act and the Public Safety Acts and amend Sections 107, 108, 109 and 144 of the Criminal Procedure Code and Sections 124A and 153 of the I.P.C. to protect civil liberty.

Rs. 500 a month as a Minister's salary. Will separate judiciary from executive, abolish honorary magistrates and preserve the system of benches of High Courts.

Strict reciprocity towards Pakistan.

Will press for decent treatment of minorities in Pakistan.

Will press for full compensation for property left by refugees in Pakistan, and no concession in the matter of loans or canal dues.

Kashmir an integral part of India.

No plebiscite in Kashmir; and no special position to Kashmir in the Indian Union: same status as other States.

Non-involvement in foreign affairs. Friendly relations with all. Opposition to colonialism and Communist expansion.

Co-operation with U.N.O. Amendment of the Charter to make U.N.O. truly representative of the people. Permanent seat for India in the Security Council. Full support for people in revolt against Western Colonialism or Russian imperialism.

All steps including police action to liberate Goa.

On the question of displaced persons, stands for (i) immediate payment of small claims, (ii) Revaluation of shops and houses, (iii) Crediting rents realised towards prices of the tenements, (iv) Realisation of values of properties in easy instalments spread over thirty years, (v) No recovery of amounts up to Rs. 2,000 given as help. Recommends demanding territory from Pakistan for resettling the refugees.

Is opposed to the extension in the fifteen-year limit laid down for the replacement of English by Hindi. Will have a five-year plan for the development of Hindi and other Bharatiya languages. Stands for the inclusion of Sindhi in the list of Bharatiya languages.

Stands for giving Hindi its rightful place in the State of Jammu and Kashmir.

Stands for (1) primary education through the mother tongue, (2) secondary and higher education through the regional language and Hindi as compulsory subject, (3) making learning of one regional language compulsory for Hindi-speaking students, (4) compulsory course of Sanskrit studies, (5) recognition of graduates of Hindland of other recognised Indian languages as on par with English, (6) autonomy of educational institutions and universities.

Free and compulsory education at the primary and secondary stages. Free education to poor but deserving students at the higher stages.

Co-operative Farming—The party is opposed to co-operative farming as it will not maximise agricultural production and employment. It will restrict the scope of the peasants' freedom as producer and ultimately his political right to a free vote. It would lead to bureaucratic domination and ultimately to collectives.

The Jan Sangh stands for peasant proprietorship and supports service co-operatives which should not be manned by officials or party cadres

It suggests the following procedure: Immediate ceiling on future acquisition; Tenants are to be given fixity of tenure and fair rents are to be fixed. A scheme is to be put in operation to assist landless peasants to buy the additional lands required for an economic holding and to acquire full rights over the land; Fair wages are to be fixed for agricultural labourers; Ceiling at thirty acres or equivalent thereof, yielding a minimum of Rs. 6,000 should be fixed. Owners of land are to be allowed a period of three years to sell their surplus land to peasants. The price is to be paid in instalments. There should be a comprehensive scheme for the consolidation of landholdings and the development of agriculture.

State Trading in Food Grains—The Jan Sangh feels that the decision has been taken to cover Government failure to maintain stability in prices, that it will inevitably lead to compulsory procurement and rationing which is undesirable. It suggests that the State may come in as purchaser when prices are falling and as seller when prices are rising. Sufficient buffer stocks should be built with responsibility on State Governments. There should be a permanent system of fair price shops in deficit areas. Long term agreements should be entered into with surplus countries like Burma, Indo-China and Thailand for the supply of the basic minimum quantity. The zonal system for foodgrains should be revised along lines of natural trade.

Third Plan—The party feels the need for a basic change in outlook. Planning should be viewed against the background of the country's cultural, social and political objectives. The party feels that a Socialist economy, invariably leads to concentration of power in the State and is not compatible with democratic ideals. The aim of planning should be mainly to create conditions for people to have more and more initiative and facilities for engaging themselves in gainful economic activities. The party proposes the Plan should aim at providing full employment. Top priority should be given to agricultural production. Stress should be laid on mechanised small-scale industries. The public sector should pay more attention to consolidation than expansion. Emphasis should be shifted from big projects to small schemes. Greater attention should be given to the education and training of personnel required for a growing economy.

U.S. Military Aid—The Jan Sangh thinks that the U.S. Military Aid to Pakistan is a great potential danger to India and also to peace in Asia. The increasingly truculent attitude of Pakistan is a direct result of the Aid. Continued help and agreement to aid Pakistan even after the abolition of democracy there, is looked upon in Bharat as an unfriendly act. The wording of the recent agreement between the U.S.A. and Pakistan seems to be deliberately ambiguous. The Jan Sangh feels that the U.S.A. is jeopardising in India—now practically the only bastion of democracy in the East—the very cause which she professes to have so much at heart. Accordingly the Jan Sangh considers the policy of the U.S.A. as extremely ill-advised.

Tibet—According to the Jan Sangh Tibet has stronger cultural, religious and political ties with India than with China. China's suzerainty over Tibet has never been more than a myth. It was a blunder to have accepted Chinese suzerainty over Tibet four years ago.

Tibet's autonomy must be fully honoured, and the Dalai Lama should be reinstated with full rights and honours as before. The Jan Sangh feels that a stronger and bolder stand on the Tibetan issue vis-a-vis China alone will lay the foundations of an honourable and lasting friendship between two equals. Chinese domination over Tibet will result in a permanent danger to India's security and world peace. The Jan Sangh recommends that the Dalai Lama should be afforded all facilities to guide and direct the liberation fight against Chinese imperialists.

COMMUNIST PARTY OF INDIA

(7/4, Asaf Ali Road, New Delhi.)

Members of the Secretariat are:

Ajoy Ghosh (General Secretary), S. A. Dange, M. Basavpunniah, B. T. Ranadive, P. C. Joshi, Dr. Z. A. Ahmad, Bhupesh Gupta and A. K. Gopalan.

Membership of the Party: 250,500 at end of Dec., 1958.

Members in the Lok Sabha: 30 (including one independent).

Members in the Rajya Sabha: 14.

Total Number in the State Assemblies: about 210. In addition, there are 9 Independents elected with the support of the Communist Party (5 of these in Kerala).

Number of votes secured in the general elections of 1957: Lok Sabha 12,746,056 (including the votes secured by Independents supported by the Party). Assemblies 10,433,032 (including the votes for party-supported Independents).

The Party emerged as the strongest after the Congress both in terms of seats won and the votes polled.

The number of seats that the Party and its allies held in the various State Assemblies was as follows: Andhra 39; Assam 4; Bihar 7; Bombay 21; Kerala 65; Madhya Pradesh 2; Madras 4; Mysore 2; Orissa 8; Punjab 6;

Rajasthan 2; U.P. 8; West Bengal 49; Tripura 15; Manipur 4.

In Kerala, the Communist Party which was the most numerous single party and also the majority party is now the Government.

The Policy:

INDUSTRY

(1) Priority to development of heavy and basic industries, which includes iron and steel, machine-making, including fabrication of steel plants, heavy chemicals, oil, coal, minerals and power, which should be in the State sector.

(2) Protection to national industries against foreign competition.

(3) Location of industries should be so arranged that while taking into account natural advantages, balanced development of various regions is provided for. In backward States where private capital cannot be mobilised even for large-scale light industries, these should be undertaken by the State.

(4) Development of armaments, aircraft and ship-building industries by the State with a view to strengthening national independence.

(5) Pending the development of heavy and basic industries, increased consumer demands should be met, as far as possible, by maximum utilisation of existing capacities in organised industries and by encouragement of small-scale and village industries.

RESOURCES

(6) In order to augment the resources for national reconstruction, certain industries and undertakings should be nationalised. To begin with, banking, general insurance, coal-mining as a whole, aluminium industry, manganese, copper, iron and gold-mining as well as British-controlled jute mills and plantations, should be immediately nationalised.

(7) Impose a ceiling on export of profits, and take over profits in excess of the ceiling as compulsory loan.

(8) Impose a ceiling on profits of all big industries and commercial undertakings, and take over profits in excess as compulsory loan.

(9) These, together with the reserves of large companies to form a National Development Pool, to be invested in the State and private sectors in accordance with national needs.

(10) State monopoly of foreign trade in the principal commodities. This would give the State the profits from such trade. It also enables it to diversify our foreign trade and develop it on the basis of mutual advantage.

Further promotion of State trading in the internal market.

(11) Heavier taxation on corporation profits, tax on personal wealth and tax on capital gains. Steeply graded income-tax, and fixation of ceilings on personal and family incomes.

(12) Postponement of payment of compensation to big landlords.

(13) Cancellation of Privy Purses to Princes.

(14) Requisition of the hoarded wealth of the Princes as compulsory loans.

(15) Reduction of the salaries and allowances of highly-paid officials.

PEASANTS

(16) Immediate carrying out of urgent agrarian reforms and substantial reduction of the burden of the rents and usurious interests.

(17) Immediate fixation of ceiling on landholdings and distribution, without any payment, of the land in excess to the agricultural labour and peasants.

(18) Setting up agricultural labour and peasant committees to implement land reforms.

(19) Planned free distribution of all Government cultivable waste-land to poor peasants and agricultural labourers within a period of three years and State aid for bringing these under cultivation.

(20) Substantial scaling down of debts owed by peasants to landlords and money-lenders by cancellation of unconscionable debts. Arrangements for the liquidation of remaining debts in easy instalments spread over a number of years. Setting up of Debt Conciliation Boards for this purpose.

(21) Wide extension of co-operatives for rural credit, marketing of produce as well as for supply of agricultural machinery and implements, fertilisers, etc. The existing co-operative law to be drastically amended in a democratic direction, by drastically curtailing the powers of the bureaucratic officials of the co-operative department.

(22) Fixation of minimum wage for agricultural labour, and its enforcement by encouraging the organisations of agricultural labourers.

Cancellation of debts owed by agricultural labourers to landlords and moneylenders.

(23) Guaranteeing of a fair price to the peasants for their produce.

Only criterion of irrigation works should be the degree of benefit conferred on the peasant not any economic return.

Cost of installation of tube-wells should be borne by Government.

Water-rates should be low enough so that they are within the capacity of the peasant to pay.

WORKING CLASS

(24) The present rationalisation drive in major industries like jute and cotton textiles, in the name of stepping up exports, should be stopped.

(25) The present policy of wage-freeze should be given up. A national minimum wage should be fixed, and workers should be assisted in securing fair wages which should be above the minimum.

(26) Pending such fixation, an immediate increase by 25 per cent to all workers' wages in view of the increased productivity of labour. The dearness allowance should be amalgamated with basic wages.

(27) Social insurance schemes to be rapidly extended to cover all industries and types of benefits and not merely confined to health. The benefit of the present health insurance scheme should be extended to the workers' family members.

(28) Provision for unemployment benefits and bonus.

EDUCATION

(29) Free and compulsory elementary education up to the age of 14 years.

(30) Adequate provision for technical and scientific education on a large scale should be made.

(31) Education at all levels including the University standards should be in the regional language or languages.

The study of Hindi should be encouraged as the language of the Union Government and for communications between Governments and people of different States.

Provision should be made to teach minorities where they are in considerable number in their mother tongue up to the end of secondary stage.

Adequate safeguards for the Urdu language and script and provision for imparting education in Urdu for Urdu-speaking population.

(32) Ensuring academic and democratic rights for students and teachers.

(33) Adequate salaries for all teachers.

(34) Adequate medical service and maternity homes both in the cities and the country-side.

(35) Arrangement for supply of drinking water to all localities.

DEMOCRACY

It is necessary to:

(36) Abolish Upper Houses in the Legislatures; introduce proportional representation in all elections, right of recall, secret ballot even for Panchayat elections; and officials at various levels to be under the control of elected local bodies.

Union territories, as long as they continue, must have a democratic set-up and not be administered by Commissioners with nominated Advisory Councils.

(37) Ensure the right to organise, hold meetings and demonstrations and for this purpose repeal all repressive laws and measures.

(38) Drastically revise the Police Code, curtailing the powers of the police to arrest, shoot, lathi-charge and ban meetings and processions.

(39) Repeal the Dramatic Performances Act of 1876, and police censorship of plays, restrictions on renting of halls, etc.

(40) Repeal of legislation which encourages regimentation; active encouragement to trade unions to unite and form one trade union in each industry or undertaking on the basis of internal trade union democracy.

No imposition of regimented trade unions on the workers.

(41) Assure trade union rights to all workers. The National Security and Safeguarding Rules under which workers in Government undertakings and departments are arbitrarily and summarily dismissed, must be repealed. Declaration of areas like Chittaranjan and Hirakud as prohibited areas must be rescinded.

(42) Give workers and employees an effective voice in the management and direction of industrial enterprises. Committees of elected representatives of workers and employees should be recognised on an equal footing with the administration.

(43) Entrust trade unions with the management and administration of Employees' State Insurance and other social amenity schemes.

(44) Associate, with an effective voice, in rural areas the kisan sabhas and organisations of agricultural labour, in the implementation of agrarian reforms, in the execution of local development schemes.

(45) Vest the local organs of the people like Village Panchayats, Local Boards and Municipalities with powers to discharge their responsibilities. The power of Government officials should be curtailed so that they function as the servants of the elected representatives of the people in the local boards.

(46) Entrust all local developmental work, such as Community Project Scheme, etc., to the Panchayats and reduce the present high administrative cost.

(47) Equal rights to women—in the matter of inheritance, right to own land, equal pay for equal work, maternity leave, benefits.

(48) Provide refugees with gainful employment.

(49) Separation of judiciary from the executive.

Land Reform: The Central Executive Committee of the Communist Party which concluded a five-day session in New Delhi in Feb. 1959, adopted important resolutions demanding expeditious implementation of land reforms and an extension and strengthening of the public sector.

Putting forward a seven-point programme for the speedy and faithful implementation of these reforms, the Committee demanded that ordinances should immediately be promulgated in all States banning *mala fide* and fictitious transfers and partition of land, eviction of tenants and reinstatement of those who were dispossessed of their lands after 1952.

The other proposals put forward by the Committee demanded full security for tenants, reduction of rents, fixation of ceilings, distribution of surplus land among poor peasants through popular committees, encouragement to form co-operative societies and completion of all legal formalities within a year.

The Committee was against granting exemption from ceiling to agricultural land that was not under tea, coffee, rubber or cinchona.

The Committee, which thought that the Nagpur resolution of the Congress on land reforms was a "rebuff" to landlords, was of the view that opponents of these reforms still occupied key positions in the Congress and were doing everything to sabotage them.

To illustrate its point, the Committee said that the legislation passed in some of the States had miserably failed to give adequate relief to the kisans and to develop agriculture appreciably. Tenants continued to be evicted en masse and high rents continued to prevail.

In many States, the Committee pointed out, laws for imposing ceilings on land holdings had not been passed and even in those states where such laws had been passed, surplus land disappeared and the Governments concerned failed to acquire such land.

Tibet—The Central Executive expressed its deep concern over the sharp deterioration in Sino-Indian relations over the question of Tibet.

The Union Government or its spokesmen should not do anything which might directly or indirectly lend support to the "rebels" against a friendly country.

The friendship between the two countries should not be allowed to weaken on account of a few Tibetans.

Tibet should be treated as an internal affair of China.

The presence of a large number of Tibetan refugees in India and their possible indulgence in activities against China would create still more complications.

DRAVIDA MUNNETRA KAZHAGAM

(Arivaham, Suryanarayana Chetty Street, Royapuram, Madras).

General Secretary, R. Neduncheslian.

Asst. General Secretary, N. V. Natarajan.

Executive Committee, C. N. Annadural, K. Karunanidhi, E. V. K. Sampath, K. A. Mathiyazhagan, Mrs. Sathiyavaniimuthu, A. V. P. A-salthambi.

Leader, Legislature Party, C. N. Annadural, *Dy. Leader*, K. Aulashagam,

AIMS AND OBJECTS

The attainment of a sovereign independent socialist republic of Dravidanad, comprising the four linguistic States of Tamilnad, Andhra, Karnatak and Kerala. The four linguistic units will have full internal autonomy in the federal structure and the right to secede.

This State will have an independent foreign and defence policy.

India is not a nation. It is a sub-continent consisting of many nations.

English should be retained as an official language for all-India purposes. Regional languages should be the State languages in the States.

Hindi is not a national language. It is only one of many regional languages. There should therefore be no compulsory teaching of Hindi in schools in South India.

The membership of the party is over 2,00,000 and the number of branches over 2,000, in Madras State. There are also branches in Kerala, Mysore and Andhra.

It polled more than 17 lakhs of votes in the second general elections and returned 15 members to the Madras Assembly and two members to the Lok Sabha.

GANATANTRA PARISHAD

(Cuttack 1, Orissa.)

President : Rajballabh Misra, M.L.A.

General Secretary : Pandit Raghunath Misra.

At the annual conference of the party in May 1958 it was decided to make the party an all-India party.

The aims and objects are :

Safeguarding the civil, political and cultural rights of minorities and backward areas and classes;

Abolition of land revenue and the introduction of graduated progressive taxation on agricultural income with a view to achieving a ceiling on income from agricultural resources at Rs. 4,800;

Secure minimum holding to the cultivating tenants and for the purpose exempt from taxation agricultural holding yielding income upto Rs. 1,600;

Increased production, adequate and proper wages to agricultural labour, soil preservation, reclamation of cultivable waste land, flood control, provision for rural credit, establishment of multipurpose co-operatives and improvement of fodder crops;

Nationalisation of the industries which have been established mostly through Government aid; nationalisation of mines to be worked in future; nationalisation of industries in which

competition between the State and individuals will not be conducive to public benefit; nationalisation of industries which can be run more efficiently and produce more cheaply under Government management;

Adoption of the principle of co-management and profit-sharing by capital and labour; encouraging trade unionism to ensure better wages; checking monopolistic tendencies in industry; extension of industrial aid to deserving enterprises;

Safeguarding the interests of the middle class; reduction of taxation; tax relief by tapping the natural resources of the State; social security services for the people; economic and social uplift of the scheduled castes and scheduled tribes; separation of the executive and the judiciary; free and compulsory primary education; abolition of the Kendu Leaf Control Order; abolition of monopolies in minor forest products and the supply of bamboo, coal and timber, etc. from the forests to the people in time of need;

Restoration of Seraikella and Kharswan to Orissa and the integration of the outlying Oriya tracts with Orissa; shifting cultivation; conversion of Bhogra land into roayati; adequate compensation to the people for land acquisition, etc.

The party lays special emphasis on :

The removal of regional disparity in the Five-Year Plans; uniform per capita income in the constituent States; the rural and agricultural sector of the economy; greater autonomy freedom to the constituent States; anti-corruption measures and character building on a mass scale.

Co-operative Farming :—The party is in favour of co-operative farming, but only, on a voluntary basis. There should be no compulsion on the landowners. It should be gradually introduced after the Government is convinced about its merits, and on the principle of co-ownership and profit sharing.

The party is also in favour of State trading in food grains. It is essential that the producers should get a fair price.

On the question of planning the party has on the whole supported the Plans though it was not altogether satisfied with the implementation.

On Tibet the policy of the party is the same as that of the Government of India: the security of India, friendly relations with China and sympathy for the Tibetan people.

On American aid to Pakistan also the policy is identical with that of the Government—that it makes friendly relations between India and Pakistan more difficult and that it is a threat to peace in this part of the world.

INDIAN NATIONAL CONGRESS

(7, Jantar Mantar Road, New Delhi.)

President : Mrs. Indira Gandhi.

General Secretaries : A. Satyanarayana Raju; Sadig Ali, Takhtmal Jain, Mrs. Sucheta Kripalani.

Working Committee : Mrs. Indira Gandhi, U. N. Dhebar, Pandit Govind Ballabh Pant, Dr. Bidhan Chandra Roy, Jagjivan Ram, Morarji Desai, Kamraj Nadar, Hafiz Md. Ibrahim, Y. B. Chavan, A. Satyanarayana Raju, Sardar Pratap Singh Kairon, Sadig Ali, B. P. Chaliha, S. Nijalingappa, Mrs. Sucheta Kripalani, Brijesh Chandra Sen, Takhtmal Jain, Abdul Qayum Ansari, Mrs. T. S. S. Ramachandran.

Presidents of Congress Committees :

P. Banga Reddy (Andhra), M. M. Chaudhury (Assam), Abdul Qayum Ansari (Bihar), Thakorebhai Desai (Bombay), Shiv Charan Gupta (Delhi), Maganbhai Shankarbhai Patel (Gujarat), S. N. Ramaul (Himachal Pradesh),

R. Manker (Kerala), M. Nalk Nimbalkar (Maharashtra), M. Lakshmi Narayan Das (Madhya Pradesh), H. K. Veeranna Gowda (Mysore), Gopikatal Kannamwar (Nagpur), Sardar Darbara Singh (Punjab), Hariail Singh (Rajasthan), Raja Ram Naidu (Tamilnad), Rajakrushna Bose (Utkal), Chaturbhuj Sharma (Uttar Pradesh), Dr. J. N. Korpe (Vidarbha), J. N. Panja (West Bengal), Baba Saheb Sawenakar (Marathwada), K. K. Shah (Bombay Regional).

Central Parliamentary Board : Mrs. Indira Gandhi, U. N. Dhebar, Govind Ballabh Pant, Jagjivan Ram, Hafiz Md. Ibrahim, K. Kamraj Nadar.

Central Disciplinary Action Committee : Morarji Desai, Lal Bahadur Shastri, Jagjivan Ram, Balwantray Mehta, Mrs. Sucheta Kripalani.

Leader Congress Party, Parliament, Jawaharlal Nehru, *Deputy Leader*, Pandit Govind Ballabh Pant.

Secretaries, Pandit Munishwar Dutt Upadhyay, H. C. Heda, Mrs. Sharda Bhargava.

Treasurer, Kamalnayan Rajaj.

Total membership of Party in country : 4,600,000 (active members : 68,000).

Strength in Lok Sabha : 374.

Strength in Rajya Sabha : 179 (estimate).

Total strength in State Legislatures : 2,056 (Oct. 1958) (Part A States).

Total number of votes polled in the General Election : Lok Sabha : 5,74,32,821; State Assemblies : 5,15,29,890.

The Indian National Congress includes the following bodies :

The All-India Congress Committee, the Working Committee, Pradesh Congress Committees, District Congress Committees, General Assembly of the Mandal Congress Committees, Mandal Congress Committees, Committees above or below the Mandal Committees and subordinate to the District Committee.

There are 15 Pradesh Congress Committees: Andhra, Assam, Bihar, Bombay, Delhi, Himachal, Kerala, Madhya Pradesh, Mysore, Punjab, Rajasthan, Tamilnad, Utkal, Uttar Pradesh, and West Bengal.

There are six Regional Committees all in Bombay:

Gujarat, Maharashtra, Nagpur, Vidarbha, Marathwad, Bombay.

The Mandal Congress Committee, on which the organization is finally based, covers an area having a population of round about 20,000, and is made up of members elected by primary members of the Congress—at the rate of one for about 2,000 members—and of co-opted members, the elected members always having a majority.

There are about 18,000 Mandal Committees.

The General Assembly of the Mandal consists of the primary members enrolled within the area covered by the Mandal.

The All-India Congress Committee at its session in Aug.-Sept. 1957 approved of certain changes in the constitution of the Congress party, which then came into immediate effect.

These changes concerned mainly three points: indirect election to the higher bodies, functional representation on them for trade unionists, kisan and youth workers, and thirdly the conception of a Mandal Committee as a means of keeping in close touch with the general mass of the people.

The District and Pradesh Committees, for example, are elected by the elected members of the Mandal Committees. Also there will be on them representatives of certain organizations or institutions working in the area in accordance with certain rules.

The A.I.C.C. will also have on it representatives of allied institutions and organizations.

There are two kinds of members—Primary and Active. The latter has greater rights and obligations. For example, it is obligatory on him to do social work. And he alone can become a member of any Congress Committee, above a Mandal Committee, and of Mandal Committees he alone can be an office-bearer or member of the executive.

AIMS AND OBJECTS

The ideology, outlook and policy may be described as follows:

The object of the Indian National Congress is the well-being and advancement of the people of India and the establishment in India by peaceful and legitimate means of a Socialist, Co-operative Commonwealth based on equality of opportunity and of political, economic and social rights, aiming at world peace and fellowship.

The provision of the basic needs of food, clothing and shelter, and of opportunity for cultural growth for all people.

With a view to achieving the above objects planning should take place with a view to the establishment of a socialistic pattern of society where the principal means of production are under social ownership or control and there is equitable distribution of national wealth.

Full employment should be achieved in ten years.

The State should initiate and operate large-scale schemes, providing services such as power, transport; have over-all control of resources, social purposes and trends; maintain strategic controls; prevent private trusts and cartels; maintain standards of labour and production; the public sector must progressively play a greater part particularly in the establishment of basic industries; the private sector should function in terms of the national plan.

Organisation of industry, commerce, agriculture on a co-operative basis.

Participation of workers in management of industry.

Perspective planning; flexible short-term plans in the context of a long-term plan.

Backward areas and regions should be specially helped to develop themselves.

The per capita income should be doubled in fifteen years.

Belief in a secular state; all citizens to have equal rights; removal of barriers which divide people on the basis of religion, caste, class or region.

Land Reform

Abolition of old and out-dated agrarian systems of tenure; security of tenure and fair rents for tenants and tillers of the soil.

Land reform should be effected quickly, agricultural prices stabilised at a reasonable level and facilities for rural credit greatly enlarged. The Government would play its part through the nationalization of the Imperial Bank.

There should be a ceiling on holdings.

Co-operative farming; the village as the unit of co-operative management.

Local administration through Panchayats.

Promotion of small-scale and cottage industries as supplier of consumer goods and source of employment; organization of cottage industries in industrial co-operatives.

State trading should be undertaken whenever the balance of advantages lies in favour of such a course.

Control of distribution is essential in times of scarcity.

Redirection of public expenditure, imposition of estate duties and of tax on wealth and spending for the removal of inequalities and the provision of resources for the Second Plan.

There should be a reasonable relationship of maximum and minimum incomes.

Better housing for workers.

Effective machinery to commend good work and condemn bad work in the public services.

Summary method to deal with corruption.

Education

Basic education would provide the future pattern of primary as well as secondary education. Primary Schools will be converted to the Basic type in a well-planned manner within ten years.

Multi-purpose schools will be established.

Manual work as part of curriculum of higher education; no degree or diploma without manual work.

The medium of instruction at the primary stage must be the mother tongue. Where the mother tongue of a child is not identical with the regional language instruction in the mother tongue should be made available, provided there is a reasonable number of persons demanding such instruction.

At the secondary stage instruction should ordinarily be in the regional language, though other languages could be used if there is a large enough demand.

At the university stage, the regional language should be the medium, though Hindi and even English could be used as this will facilitate inter-provincial cultural intercourse.

In the teaching of scientific and technical subjects the transition from English to Hindi or the regional language should be gradual.

Hindi should be a compulsory second language at the Secondary stage.

The study of English should be taken up at the secondary school stage and continued at the university.

Progressively, examinations for the all-India services should be held in English, Hindi and the regional languages. Candidates who have chosen Hindi or a regional language should pass separately in English.

Successful non-Hindi candidates should take a test in Hindi at an early stage.

Hindi Prachar Sabhas in the headquarters of every Taluka in the south.

It is necessary for people in Hindi-speaking areas to learn at least one regional language.

Proper representation to minorities in legislatures and other public bodies.

Social and legal disabilities hindering the progress of women should be removed and women should be placed on a footing of equality in the matter of marriage, property, inheritance and divorce through a series of Hindu law reform bills.

Provinces on a linguistic basis where there is a demand representing the agreed views of the people of the area: economic, administrative and financial considerations must be taken into account.

The Congress is committed to prohibition.

Unilingual States may exist where this is considered desirable. But unilingualism cannot be made a fetish.

It is also desirable to encourage where feasible the formation of bilingual States with regional councils for each linguistic area. In this sense any union of two States is specially welcome.

Formation of regions within a State may be necessary for the full development of a language or culture.

On the whole, it is best not to have relatively small units.

Foreign Policy

Independent line in foreign policy; friendly relations with all countries.

India's relations with foreign countries will be governed by the Pancha Shil. They should also be the basis of the relations between all nations.

Regional military pacts which happen to serve specific interests of the Great Powers will not promote the cause of peace.

India will not be aligned to any power bloc, and will not take part in other people's wars.

China must be admitted to the United Nations. Membership should, in fact, be universal.

Only peaceful methods will be used for the liberation of Goa.

In general, people under colonial rule should be free.

Racialism should end.

The Kashmir dispute must be settled in accordance with the wishes of the people of Kashmir.

1959 SESSION

The annual Congress Session held at Abhyankar Nagar, Nagpur on Jan. 9, 10 and 11, passed a number of resolutions on some of the immediate problems before the country.

On planning, it asserted that the Second Plan was not over-ambitious and that the Third Plan would have to be even more ambitious if the country was not to run into difficulties.

The main resolution however was on the agrarian question. Here the resolution emphasised the need for ceilings on agrarian holdings, the formation of service co-operatives to be followed by co-operative farming, the vesting of surplus land in panchayats managed by co-operatives consisting of landless persons. Land reform legislation should be completed by the end of 1959.

Parts of the main resolutions are reproduced below.

Planning

Eight years ago, India embarked on a planned development of her resources with a view to increasing the pace of economic development, raising the standards of living of the people, progressively reducing social inequalities, and establishing a socialist pattern of society.

More information and statistical data were available for the Second Five-Year Plan. This was on a larger scale than the First and, in fact, visualised a doubling of investment. It sought to lay emphasis on industrialisation, especially steel, coal, power and transport, and therefore, required foreign exchange resources of a much larger volume than the First Plan.

In the light of the country's requirements, the Second Five-Year Plan was certainly not over-ambitious in size or in pattern of investment, nor should it be beyond the capacity of the country to achieve it if an adequate effort is made to that end.

A rapid increase in agricultural production is essential in order to put an end to the necessity for importing foodgrains and to increase the resources of the country for industrial growth. While the agriculturist must be ensured a reasonable return for his labour, prices of foodgrains should not be allowed to rise.

It is essential from the point of view of planning that the prices of certain essential commodities, such as foodgrains, cloth and some others, should be kept within reasonable bounds.

The remaining years of the Second Five-Year Plan should be utilised for intensive campaigns to mobilise domestic savings and to fulfil the targets of the Plan.

An important factor to be constantly kept in mind is the rate of growth of population. Planning must take into account this population growth. Efforts should be made to reduce this rate of increase in population by suitable methods of birth control and family planning. A lasting solution of the problem of population is to be found in raising standards of living, education, particularly of women, and changes in attitudes and outlook.

Measures for mobilisation of resources and for economy should include the following:—

(i) Public enterprises and State trading should be conducted so as to yield additional resources for public purposes.

(ii) Imports should be strictly controlled and non-essential goods should not be imported. Import duties should be raised wherever possible. Imports and exports should be co-ordinated to prevent accumulation of commitments which lead to undue pressure on foreign exchange.

(iii) Expansion of life insurance and other institutions engaged in stimulating and collecting savings.

(iv) Patterns of production should be so adjusted as to supply the essential needs of the people.

(v) Wages and salaries should be increasingly dependent on work done and on production. Profits in the private sector should also be controlled.

(vi) The construction of large or expensive buildings, whether for public or private purposes, should be discouraged except for such public structures as are considered absolutely essential for the Plan. Equipment for these buildings should also avoid items of luxury. The specifications laid down for public buildings should be simpler.

(vii) While steps should be taken to see that prices do not rise any further, it is necessary that agricultural incomes do not fall with an increase in output.

Steps should be taken to utilise the vast man-power resources in the country, especially in the rural areas, for direct capital formation. Village and cottage industries, soil conservation and reclamation, digging of irrigation channels, tanks and wells, bunding, afforestation, housing and road construction offer fruitful opportunities for the utilisation of unused man-power.

Planning is a continuous process. It has to be dynamic and progressive, and there can be no standing still or slowing down in this process, as otherwise difficulties and problems will increase. Therefore, it is essential that the Third Five-Year Plan should be so conceived as to lead to more rapid growth.

The creation of a democratic and socialist society should be clearly and unambiguously placed before the nation as the objective of planning, and all the implications of socialism, in terms of individual and co-operative effort it requires, should be clearly explained to the people. The stress should be not only on individual and social demands and needs, but equally on duties and obligations and the work that is necessary for meeting these needs.

Agrarian Pattern

The organisation of the village should be based on village panchayats and village co-operatives, both of which should have adequate powers and resources to discharge the functions allotted to them. All permanent residents of the village, whether owning land or not, should be eligible for membership of the village co-operative which should promote the welfare of its members by introducing progressive farming

methods and improved techniques of cultivation, developing animal husbandry and fishery and encouraging cottage industries. In addition to providing credit and discharging other servicing functions, it will arrange for pooling and marketing the agricultural produce of the farmers and for storage and godown facilities for them.

The future agrarian pattern should be that of co-operative joint farming, in which the land will be pooled for joint cultivation, the farmers continuing to retain their property rights, and getting a share from the net produce in proportion to their land. Further, those who actually work on the land, whether they own the land or not, will get a share in proportion to the work put in by them on the joint farm.

As a first step, prior to the institution of joint farming, service co-operatives should be organised throughout the country. This stage should be completed within a period of three years. Even within this period, however, wherever possible and generally agreed to by the farmers, joint cultivation may be started.

In order to remove uncertainty regarding land reforms and give stability to the farmer, ceilings should be fixed on existing and future holdings and legislation to this effect, as well as for the abolition of intermediaries, should be completed in all States by the end of 1959.

This does not mean any ceiling on income, as it is expected that by intensive cultivation as well as by additional occupations rural incomes will rise.

Such surplus land should vest in the panchayats and should be managed through co-operatives consisting of landless labourers.

With a view to assuring a fair return to the tiller, a minimum or floor price should be fixed reasonably in advance of the sowing season with respect to each crop, and arrangements should be made to purchase directly, whenever necessary, the crops produced.

The introduction of State trading in wholesale trade in foodgrains is welcomed and should be fully given effect to.

CONGRESS SOCIALIST FORUM

Towards the end of December, 1958 about 35 Congress Members of Parliament and others met in New Delhi and decided to constitute themselves into a sort of ginger group within the Party. Later they gave themselves the name Congress Socialist Forum. The members not only believed in socialism but would carry the Party's programme down to the rank and file and the people at large.

(For details see 1958-59 Directory.)

MAHAGUJARAT JANATA PARISHAD

(Mission Road, Bhadra, Ahmedabad.)

President, Indulal K. Yagnik, M.P.

Vice-Presidents, Dahyabhai V. Patel, M.P., Ahmediya S. Shukh, Funderkrai Nathi.

Secretaries, Harihar Khambholje, Dhanvant Shroff, Brahmakumar Blati, Dr. Vasudev Tripathi.

Office Secretary, Chimanlal A. Bhagat.

Treasurer, Dr. Ganpatram Patel.

The Mahagujarat Janata Parishad was founded in the wake of the announcement of the formation of bilingual Bombay State, with the aim of "taking all possible peaceful, non-violent and democratic measures for the establishment of a separate State for Gujarati-speaking people, co-equal in status with other linguistic States".

The Constitution of the Parishad was adopted on December 30, 1956 by some 600 delegates from Gujarat, Saurashtra and Kutch.

Mr. Indulal Yagnik was elected the first President, and again a second time.

Under the constitution, the Parishad will be independent of other political parties, and its members will have to uphold the actions and decisions of the Parishad in cases where these are not consistent with the resolutions or principles of other parties.

Zilla Samities exist in the following Districts: Ahmedabad, Kaira, Broach, Surat, Mehsana, Sabarkantha, Banaskantha, Baroda, Panchmahals, Kutch and Saurashtra.

The Party had on its rolls over 1,75,000 members during 1956-57.

In the 1957 general elections, the Parishad contested 16 of the 22 Lok Sabha seats allotted to Gujarat, Saurashtra and Kutch, and 85 of the

132 seats in the State Assembly and extended support to nine P.S.P. nominees.

Of these the Parishad captured 5 Lok Sabha seats, 30 State Assembly seats while three Parishad-supported P.S.P. were returned to the Assembly.

In terms of votes cast, the Parishad secured 15,74,006 votes in Gujarat and Saurashtra in the Assembly elections, while in the Lok Sabha elections it secured 18,55,251 votes.

Subsequently the Parishad returned one nominee to the Rajya Sabha.

The Election Commission has recognised the Parishad as a regional political party and also accepted its election symbol: the rock.

On State basis, the Parishad claimed 9.17 per cent of votes cast, in the 1957 general elections in Bombay.

PEASANTS AND WORKERS PARTY OF INDIA

(Koliwadi, Fanaswady, Bombay 2)

General Secretary : D. B. Desai.

AIMS AND OBJECTS

To promote international relations on the basis of equality and mutual co-operation and strengthen the forces of peace.

To oppose imperialism and all kind of domination by one country of another and to support the movements for national independence and against racial discrimination, all over the world.

To establish People's Democracy as a first step towards the realisation of the final goal of a socialist society in this country.

To nationalise all key and basic industries and control the industries in the private sector to ensure their management in the interests of the country.

To nationalise Banks and the remaining sectors of the insurance business.

To industrialise the country rapidly and ensure labour participation in management.

To abolish unemployment by rapid industrialisation, decentralisation of industries, balanced industrial development of different regions, provision of technical training, promotion of the growth of small-scale and village industries and by increasing the capacity of the existing industries.

To abolish all kind of feudal relationships in agriculture and introduce co-operative farming.

To ensure reasonable prices to the farmers and to entrust the selling, purchasing, processing and warehousing functions to the co-operative societies.

To guarantee minimum wage to agricultural labour and to distribute surplus and Government lands among them.

To guarantee the right of work and a minimum wage to everybody.

To introduce free and compulsory education upto the age of 14 and to subsidise increasingly secondary and higher education. To provide free technical education.

To abolish untouchability by the economic improvement of the Scheduled Castes and Tribes and other backward communities.

Equal rights to women and the enforcement of the principle of equal pay for equal work.

To decentralise the administration and make it responsive to the people's needs and criticism.

To form unilingual States and draw the boundaries of the States on linguistic basis.

Total Membership : As a Marxist Party the membership of the Party is strictly restricted to those who are active workers and devote a major part of their time to party work. The rest are put in the class of sympathisers.

Both classes of members together number about 10,000.

Strength in Lok Sabha : 4.

Strength in Rajya Sabha : 2.

Total strength in State Legislatures : 35 (Bombay Assembly 28, Bombay Council 4, Mysore Assembly 3).

PRAJA SOCIALIST PARTY

(18, Windsor Place, New Delhi.)

Chairman : Ganga Sharan Sinha, M.P.
Deputy Chairman, Surendranath Dwivedy, M.P.
General Secretary : N. G. Goray, M.P.
Treasurer : Asoka Mehta, M.P.
Jt. Secretaries : Prem Bhasin, K. K. Menon.

National Executive : Asoka Mehta, M.P., Ganga Sharan Sinha, M.P., Dr. Prafulla Chandra Ghosh, M.L.A., Surendranath Dwivedy, M.P., P. S. Chitra Durai, M.L.A., H. V. Kamat, K. R. Karant, Tripti Singh, M.L.A., Dr. K. B. Menon, M.P., Prem Bhasin, Harehwar Goswami, M.L.A., Pattom Thanu Pillai, M.L.A., Basawan Sinha, M.L.A., Mir Mushtaq Ahmed, Mukut Behari Lal, Ishwarlal Desai, Suresh Chandra Bannerjee, M.L.A., M. N. Gurupadswamy, Nath Pal, M.P., R. N. Reddy, Genda Singh, M.L.A., Shakuntala Shrivastava, M.L.C., Murlidhar Vyas, M.L.A., N. G. Goray, M.P., Ajit Roy.

There are 18 provincial branches. The number of organized constituency branches would be about 2,000.

The 18 provincial branches are: Andhra, Assam, Bihar, Delhi, Gujarat, H.P., Kashmir, Karnataka, Kerala, M.P., Maharashtra, Punjab, Rajasthan, Tamilnad, Tripura, Utkal, U.P., W. Bengal.

The Party also functions through three different fronts: the peasants (Hind Kisan Panchayat), labour (Hind Mazdoor Sabha), youth (Samajwadi Yuvak Sabha).

The P.S.P. supports the Hind Mazdoor Sabha, which has also the affiliations of unions organized by other parties. The P.S.P. believes that a trade union should be free of all outside influence. The strength of the H.M.S. would be about 4 lakhs. The P.S.P. also functions in a number of smaller unions which are not affiliated to any of the national unions—especially in the railways, posts and telegraphs, banks, insurance and defence industries.

The official organ of the Party is the *Janata*, an English weekly (8, Tulloch Road, Apollo Bunder, Bombay 1). Provincial branches have journals of their own published in the regional languages.

These are :

Janata (Hindi : Patna), *Krishak* (Oriya : Cuttack), *Janavani* (Marathi : Poona), *Socialist* (Urdu : Jullundur), *Pudu Vashvu* (Tamil : Madras), *Chetana* (Gujarati : Surat).

The central office has a publications department which brings out pamphlets, brochures, etc. on relevant subjects.

There is an International Affairs Committee of the Party which keeps liaison with socialist parties in other countries and concerns itself with international affairs.

The P.S.P. is a member of the Asian Socialist Conference. The P.S.P. maintains an observer status with the Socialist International.

Total membership of Party, 1,41,661 (Year 1957-58).

Strength in the Lok Sabha, 19.

Strength in the Rajya Sabha, 8.

Total strength in State Legislatures, 206.

Andhra 1, Assam 6, West Bengal 21, Bihar 33, Bombay 38, Madras 2, Mysore 23, Uttar Pradesh 47, Orissa 11, Madhya Pradesh 12, Rajasthan 1, Punjab 2, Kerala 9.

Total strength in Councils, 25. U.P. 8, Bombay 8, W. Bengal 3, Bihar 2, Mysore 4.

Total number of votes polled in General Elections :
Lok Sabha, 1,16,59,225.

State Assemblies, 1,13,92,500.

Lok Sabha Leader, Acharya Kripalani;
Dy. Leader, Asoka Mehta; **Secretary,** Surendranath Dwivedy; **Whip,** Nath Pal.

Rajya Sabha Leader, Ganga Sharan Sinha.

AIMS AND OBJECTS

The Party believes the reconstruction of the country can best be achieved on the basis of an equalitarian social order free from political and economic exploitation and ensuring personal freedom.

The yearnings of the people for clean and efficient administration and expanding an equitable economy can be realised only through decentralisation in administration and economy.

Village or a group of small villages should be the unit of both administration and economy. Inside the village there has to be full democratic functioning.

Local governments based on the elective principle will be the chief instruments of change in the rural set-up. Local bodies will be endowed with legislative and administrative power, and power over welfare and development departments. Such of those as qualify for it will also be in control of the police except special armed constabularies. After five years of Socialist rule the office of district collector and deputy

commissioner will be abolished. This type of functionary would thereafter work under a panchayat. The local authority will have a share of the revenue amounting to about a fourth of the revenue of the State.

To vitalise rural economy, land must belong to the tiller of the soil. It must be redistributed in economic holdings.

Redistribution will be completed in a five-year period by a Socialist Government; a family of five persons will be left with a maximum of three times the unit of land that a family can cultivate without employing hired labour or mechanical tools.

The Party will foster and encourage co-operative farming and distribution.

There will be co-operatives of various kinds and degrees, operated primarily through the village panchayat.

To bring undeveloped land under cultivation a food army of a million persons will be raised. It will be clothed and housed by the State and a modest salary will also be permitted. After two years when the reclamation is over the food army will have turned into farmers of model villages. There will be an additional production of four million tons of food, and a trained technical personnel of over 10,000 persons.

About irrigation, the main emphasis will be on minor irrigation, particularly earth works. These will be constructed by the voluntary labour of almost the entire adult population who will give an hour's free work.

The Socialist Government will try and implement a policy of parity between agricultural and industrial prices.

The Government will also make efforts to replace land revenue whenever possible by a graded income-tax.

Economic development should be effected mainly with the help of local resources in men, material and skill.

To this end the Party advocates decentralisation of industry.

It also envisages the development of a new technology based on small machines operated by power, capable of distribution in small units.

As regards key industries, foreign trade and the sectors of economy where capital tends to accumulate and power concentrate the policy of the Party will be one of nationalisation.

To enable democratic checks and participation, nationalisation will generally be worked out through autonomous corporations in whose control and conduct the workers, technicians, consumers and other allied interests are represented.

The Party stands for a free trade union movement, that is, trade unionism free from the control of government, employers and political parties.

All incomes must be subject to a ceiling. This will be imposed at Rs. 2,000 at the present level of prices. Other incomes will be adjusted. This may be brought about either through taxation or straight-forward fixation.

Fulllest realisation of civil liberties is one of the major objectives of the Party.

The office of Governor will be abolished. The second chambers in States will also go. Territorial adjustments are to be on a basis of language, economic viability and good administration.

Economic equality and social mobility with democratic functioning are the ultimate guiding principles.

In foreign policy, the party favours a policy of neutrality and non-involvement and co-operation with like-minded forces in other countries.

The tiller of the soil should be the owner of the land and there should be intensive cultivation, parity of price between industry and agriculture, minimum wages for agricultural labour.

Two unilingual States—Maharashtra with Bombay city and Gujarat—should be created in the place of the present bilingual Bombay.

On Kashmir, the policy should be one of firmness combined with friendliness towards Pakistan. Kashmir being an integral part of India there is no question of a plebiscite. On the canal waters, the World Bank award is accepted. But there is a time-limit for Pakistan's acceptance, beyond which India cannot postpone

her development programme. On all other questions like border firing, minorities, India's rights must be fully protected.

Tibet—The National Executive of the Praja Socialist Party feels gravely concerned over the recent developments in Tibet. What was for the last four years simmering under the surface has suddenly erupted into a people's revolution against efforts to liquidate Tibet's distinctive personality—gentle, self-contained and non-aggressive. Between us and the people of Tibet close ties have existed over centuries.

The Executive looks upon the recent events in Tibet as a warning to all who cherish the right of a people to shape their own destiny.

The Executive extends respectful welcome to the Dalai Lama.

The Executive recognises the Tibetans' right to self-determination and extends to them its support.

The Executive is anxious to maintain and strengthen friendly relations between China and India. The Executive further realises that reconciliation between Tibet and China is essential for the growth of trust and peaceful reconstruction in the South, South-East and East Asia.

The Executive is confident that Tibetans needing asylum will be welcome in India.

Land Reforms—The Congress Party seems to rely on the initiative and enthusiasm of local Congress leaders to assume the responsibility for implementation. Even if service co-operatives are immediately organised and ceilings on land are imposed it would mean the beginning of the end of vested interests in the rural areas; and it is difficult to imagine that local Congress leaders would be enthusiastic for such a development. The same can be said about a sole reliance on administrative machinery. It is therefore necessary to entrust the work of organising these co-operatives to agencies wherein all the people interested in co-operatives could work on equal terms.

The Executive is confident that if such a machinery is brought into being and if ceiling on land holdings is immediately imposed with a view to create significant surpluses of land for distribution a suitable climate for these reforms will be created.

Service co-operatives can be organised on a large scale in the immediate future.

Some experimentation on joint co-operative farming can also be tried where circumstances are favourable for it. Where land ceilings are imposed some land is bound to be declared surplus. The landless agriculturists and farmers with uneconomic holdings can be offered the surplus lands, provided they agree to work co-operatively. The response will be considerable if the Government provides assistance in developing cultivation.

Likewise, for the extensive cultivable wastelands which would require considerable investment, co-operative cultivation holds good.

A third sector in which the experiment may be tried with advantage is the areas where cash crops are raised. If these experiments are carried on by people with vision and competence and the principle of voluntary co-operation is strictly adhered to, a new step forward in the organisation of our rural economy will have been taken and conditions created where peasant proprietors might agree to joint cultivation with or without pooling lands.

The Executive recognises the urgency of quickened change and the fostering of co-operative spirit in the country and would welcome an opportunity to put its shoulder to the task.

The Executive also welcomes the decision to socialize the wholesale trade in foodgrains.

The Executive said that a Corporation should be set up to handle the wholesale trade. Steps should also be taken to build up a co-operative structure from the village level upwards to assume the responsibility for the wholesale trade in foodgrains and other essential commodities.

THE REPUBLICAN PARTY OF INDIA

(Gandhi Road, Chanda, Vidarbha.)

President, R. B. N. Shivaraj, M.P.
General Secretary, B. D. Khoharagade, M.P.
The members of the executive are:—M. Krishnaswami, Channa Ram, B. P. Moriya,

Jala Haribhchandra, Chopada, E. Vadapalli, Mrs. Iswaribai, G. K. Maney, M.P., Yashvant Rao Ambedkar, R. D. Bhandari, B. C. Kamble, B. K. Gaikwad, M.P., B. D. Khoharagade, M.P.,

D. A. Katti, M.P., J. C. Admoolam, G. T. Parmar and B. S. More.

Up-to-date details about policy, constitution were not available when the book went to press.

REVOLUTIONARY SOCIALIST PARTY

(780, Ballimaran, Delhi 6.)

General Secretary, Tridib Kumar Chaudhuri, M.P.

Secretaries, N. Shreekanan Nair, Sushil Bhattacharya, Pratul Chaudhuri.

Aims and Objects: To abolish exploitation of man by man, of class by class and to abolish all classes and establish a socialist organization of

society on the basis of the dictatorship of the proletariat. The immediate political objective is the establishment of a union of Socialist Republics in India.

The party is a Marxist Leninist Party and relies on mass and class action. It is organized on the principle of democratic centralism.

Members in the Lok Sabha: one.

Total number of members in the State Assemblies: four.

Total membership of party: 23,193.

The party has branches in Assam, West Bengal, Bihar, Uttar Pradesh, Delhi, Rajasthan, Bombay, Madras and Kerala.

SAMYUKTA MAHARASHTRA SAMITI

(54, Budhwar Peth, Kaka Kuwa Mansion, Laxmi Road, Poona-2.)

General Secretary: S. M. Joshi.

Joint Secretaries: Shivaji Patil, Mrs. Kamal Bhagwat, Haril Bhaskar Bhide.

Chairman of the Parliamentary Board: S. A. Dange.

Treasurers: R. K. Khadilkar, Datta Deshmukh.

AIMS AND OBJECTS:

To establish a unilingual State of all contiguous Marathi speaking areas as a constituent of the Indian Union on the basis of the principle of the linguistic reorganisation of States.

To reorganise the economic, cultural and social life of Maharashtra on the co-operative basis.

NUMBER OF REPRESENTATIVES OF THE SAMITI IN:

Rajya Sabha	3
Lok Sabha	25
Vidhan Sabhas	132
Vidhan Parishads	21

TOTAL NUMBER OF VOTES SECURED BY THE SAMITI IN THE GENERAL ELECTIONS (1957) FOR:

Lok Sabha	50,65,078 (more than 50 %)
Vidhan Sabha	53,23,158

Five Members from Belgaum and 2 from Marathawada are elected to the Mysore State Assembly on the Samiti's ticket.

Two members from Burhanpur are elected to the Madhya Pradesh State Assembly on the Samiti's ticket.

The Samiti has secured an absolute majority in the Municipal Corporations of Bombay and Poona and in the municipalities of Kolhapur, Malegaon, Thana, Manmad, Nashik Road, Dhule, Kalyan, Panvel, Sholapur, Pandharpur, Satara, Kolhapur, Ichalkaranji, Miraj, Jaysingpur, Sawantwadi, Malvan, Bhore, Yevale, Amalner, Hingangaht, Nipani, Belgaum and Ratnagiri.

The Samiti has also secured a majority in the District Local Board of Poona, Sholapur, Thana, Nashik, North Satara, Kolaba, Ahmednagar and Ratnagiri, Usmanabad and Aurangabad.

THE SIKHS

Broadly speaking there are three groups among the Sikhs. One group forming the main body of the Shiromani Akali Dal is led by Master Tara Singh who is also its President. It is in favour of maintaining the separate identity of the Sikh community.

However, at a meeting in Amritsar on 24th Nov. 1956, the Akali Dal adopted by an overwhelming majority four amendments to its constitution by which members were enabled to join the Congress and exclude politics from the Dal's domain.

The Akalis and Sikhs in general accepted the new Punjab of the States Reorganization Act (Pre-reorganization Punjab and Pepsu) and the regional formula with a zonal council for the Hindi and Punjabi speaking areas. The Sikhs are in a majority in the Punjabi-speaking zone, where the court language is Punjabi in the Gurmukhi script. It is estimated that the Sikhs form about 57 per cent of the population of the Punjab zone.

The Akalis are represented in the Congress Government in the Punjab.

But the relations between the Tara Singh group and the rest have always been liable to be disturbed.

In the general elections that followed though one group led by Giani Kartar Singh supported Congress candidates, another group led by Master Tara Singh opposed some though not all Congress candidates.

Besides the Akalis, there is a large body of Sikhs who belong to the Congress. They do not believe that Sikhs as Sikhs should have a separate political identity.

In the elections held in Nov. 1958, a Sikh belonging to the Giani Kartar Singh group, namely Mr. S. Prem Singh Lalpura was elected President of the Shiromani Gurdwara Prabandhak Committee.

The Sikh Gurdwaras (Amendment) Bill which was passed by the Assembly on 31st Dec. 1958 and by the Council on 4th Jan. 1959 was the centre of the controversy among the two groups of the Akalis themselves and the Tara Singh group and the Government.

The Bill seeks to provide for the election of 35 representatives of the Pepsu Gurdwaras to the S.G.P.C. It also empowers the S.G.P.C. to exercise administrative control over selected Sikh shrines in the Pepsu territory.

It is Master Tara Singh's contention that this would make the S.G.P.C. a packed body and open the way to Government interference in Sikh religious affairs.

Actually, undeterred by Master Tara Singh's threats of agitation the Government decided three months later to further amend the Gurdwara Act and published the amending bill in the Gazette of April 3. This Bill seeks to provide for the formation of constituencies and the stipulation of qualifications of candidates and voters for election to the local committees of various Sikh shrines in the State. It allows the carrying of and minor corrections in the schedule of Gurdwaras falling within the preview of the Act.

The differences between the two groups among the Akalis—that of Giani Kartar Singh who is a Minister in the Government, and of Master Tara Singh—and also between Master Tara Singh and the Congress were widening all through the latter half of 1958.

According to Tara Singh this could be ascribed to: The alleged interference in the Gurdwara affairs which led to the defeat of Master Tara Singh in the S.G.P.C. elections, the alleged encouragement given to Giani Kartar Singh to divide the Sikhs, the Congress refusal to redistribute the boundaries of the Punjab on a linguistic basis, the half-hearted implementation of the regional plan embodying the Sachar language formula, the inadequate representation of Sikhs in the services and the alleged corruption and nepotism in the administration.

These, broadly speaking were Master Tara Singh's charges against the Congress.

Though the demand for the Punjabi Suba was revived the main charge was Government interference in the religious affairs of the Sikhs.

In the middle of Feb. 1959 the Shiromani Akali Dal decided to abrogate the Congress-Akali Pact and revive political activity.

On March 12 Master Tara Singh was arrested at Amritsar under the Preventive Detention Act and was taken to Dharamsala. Two days later he wrote a letter to Mr. Nehru which carried a plea for the appointment of an arbitrator to enquire into the charge that the new Gurdwara Act made interference in the religious affairs of Sikhs possible. On 19th March he wrote again to say that unless he got a reply to his letter by 24th March he would go on a fast unto death. On 21st March he was released from Yole camp and driven to Amritsar.

On 6th April he wrote to the Prime Minister informing him of his decision to fast unto death—the fast to commence on 16th April in New Delhi.

A meeting then took place between the Prime Minister and Master Tara Singh at which an agreement was arrived at on the question of religious interference.

Previously the Prime Minister had rejected a demand for the appointment of an arbitrator to determine alleged Government interference. Master Tara Singh had mentioned that any one of the following would be acceptable to the Akalis as arbitrator: Vinoba Bhave, Mr. Rajagopalachari, Mr. Jaysaprakash Narayan.

Following the talks between Mr. Nehru and Master Tara Singh on April 12 a statement was issued. It said that it was common ground that there should be no interference. Since however complaints had been made some machinery should be devised to ensure the implementation of the policy of non-interference in Gurdwara management and to consider any complaints of such interference. A committee would be constituted for this purpose. The Committee would consist of two persons nominated by the Government and two by the President of the Akali Dal. It will consider allegations of interference and suggest remedial action where possible. Where there is disagreement the matter would be referred to the Governor of the Punjab.

Any amendments to the Gurdwaras Act should be undertaken only after obtaining the approval of the general committee of the S.G.P.C. A convention may be established that such approval would be by a two-thirds majority. The general elections to the S.G.P.C. should be held as early as possible.

If any difficulty arises in the implementation of the above proposals Mr. Nehru would help.

Almost immediately the Prime Minister wrote to the Governor of the Punjab to take early steps to give effect to the Nehru-Tara Singh agreement in the matter of the nomination of two members to the Committee.

Master Tara Singh claimed this as a victory for the Akali Dal and asserted that the agreement had in effect shelved the proposals of his 'opponents' to hand over the management of the Sikh shrines to a trust and dissolve the S.G.P.C.

The mass hunger strike and hartal which were to have been observed by Akali Sikhs were abandoned and Master Tara Singh also announced his decision not to go on a fast unto death on 16th April as originally decided.

But the Kartar Singh group which was in control of the S.G.P.C. came out with a flat condemnation of the agreement. In a statement issued on 14th April in Amritsar Mr. Prem Singh Lalpura the President of the S.G.P.C. and Mr. Amar Singh Dossanj the General Secretary in a joint statement described the agreement as a 'an open, unequivocal and naked interference by the Government in Gurdwara affairs'. According to the Sikh religion disputed religious matters were to be referred to the five Playaras sitting under the auspices of the Holy Akal Takt, the highest seat of Sikh religious authority. The S.G.P.C. officials, however, welcomed the part of the agreement by which Gurdwara legislation would not be amended without the S.G.P.C.'s approval. But this, they said, was an old convention accepted by all.

Opposition, however, hardened when three days later the General Secretary of the S.G.P.C. declared that the S.G.P.C. was opposed to the setting up of the four-man committee and indeed did not feel bound by the Nehru-Tara Singh agreement. The official threw out a hint that the S.G.P.C. might boycott the four-man committee.

On April 23 the S.G.P.C. at its general meeting in Amritsar adopted a resolution by an overwhelming majority condemning the Nehru-Tara Singh agreement in regard to the S.G.P.C. as a direct attack on the religious freedom of the S.G.P.C. No individual or organization had any right to do anything on behalf of the S.G.P.C. The S.G.P.C. would not be bound by any opinion or decision of the proposed four-man committee.

Meanwhile a development which might mark a turning-point in Punjab politics took place. This is an agreement between the Akali Dal and the Praja Socialist Party to work jointly for 'uprooting corruption, ending nepotism and solving the problems of the Punjab peasantry.' This was announced in a joint statement issued after a meeting attended by Master Tara Singh and Mr. Ganga Sharan Sinha the Chairman of the P.S.P. The two organizations would for the present maintain their separate identities but joint working may result in something new. Work among the peasantry might be carried on through the P.-S.P. sponsored Kisan Panchayat or some other organization might be set up.

It was believed that the agreement would have far-reaching repercussions. In the rural areas there would be a joint front against the Communists whose growing strength manifested itself in the anti-betterment levy agitation. It might also weaken the Congress-Akali alliance and Master Tara Singh might soon give a call to Akali workers to resign from the Congress and join the P.S.P.

SOCIALIST PARTY

(Central Office : 3-6-19, Himayatnagar, Hyderabad.)

Chairman : Bhupendra Narain Mandal.
General Secretary : R. M. Manakalath.
National Committee :

O. N. Dorai Babu (Tamil Nad), Ajit Kumar Sharma (Assam), Bera Thakur Shastri (Manipur), Ram Kishan (Rajasthan), Ram Sewak Yadav (Uttar Pradesh), Dinesh Das Gupta (West Bengal), Maniram Shrawat (Punjab), Jagdeo Prasad (Bihar), Ram Lakhan Chandapuri (Bihar), Upendra Nath Verma (Bihar), Mukund Singh (Uttar Pradesh), Shaqiq Ahmed Tatar (M.L.C.—U.P.), Kumari S. Saraswati Ammal (West Bengal), Mulchand (M.L.A.—U.P.), Ram Piyare Sharma (Gujarat), Arjun Singh Bhadoria (U.P.), Abdul Subhan (Andhra), Baleshwar Nayal (Madhya Pradesh), Chotey Lal Bhardwaj (Madhya Pradesh), Mrs. Shanti Nayak (Bombay), Ravi Roy (Orissa) and Gopal Gowda (Mysore).

AIMS AND OBJECTS

National : To establish a socialist society through a democratic and peaceful revolution.

International : To end inequality among the nations and establish a World Parliament and a socialist world.

It accepts large-scale industry wherever necessary and power driven small industry wherever possible.

The Socialist Party will take measures to narrow down existing differences of incomes aiming at a ratio of 1 : 10.

Will democratise the constitution as well as the administration in the directions both of decentralisation and people's control.

The police will not be allowed to open fire on the people except in the event of armed insurrection or killing by the crowd.

Believes that people's right to civil disobedience must be recognised as much as Government's right to arrest and imprison under due processes of law.

All Government employees except the army and armed police will have unfettered political rights.

Private ownership of land about 3 times the size of the minimum holding, that is a holding which a family of five can cultivate without employing hired labour or heavy mechanisation, will be permitted. All land in excess of these will be distributed among poor peasants and landless labourers. Common lands which have been usurped by private individuals will be returned to the village. Land tax on profitless agriculture and uneconomic holdings will be abolished.

Agricultural labourers will have a guaranteed fair wage. Ejectments will be banned.

Will nationalise all main industries like iron and steel, engineering, sugar, textiles, cement, mines, electric power and chemicals. All foreign capital invested in the country will be nationalised.

Rejects the concept of property compensation, and accepts instead the concept of rehabilitation compensation.

In the nationalised sector workers will have adequate and effective representation in the State Corporations. In the private sector too representation will be provided in the management, but this would not in any way affect the right to strike or other rights inherent in collective bargaining.

Will meet the challenge of unemployment adequately, and until then the Party will agitate for payment of reasonable unemployment relief to the unemployed.

English must be eliminated forthwith from all Government and public use.

The medical profession will be progressively socialised and the Socialist Government will provide for free medical treatment to large sections of the population.

Aims at India's dissociation from the Commonwealth.

Will enact legislation providing the right of recall.

The Socialist legislator or successful candidate pledges to wipe out illiteracy in his constituency under a phased 10 year programme.

He will equip his constituency with regularly functioning manure pits and Wardha latrines.

He will organise minor earth-works, particularly for irrigation, wherever possible and they will also help set up small-unit industry preferably run on power.

State Trading :—Mere State trading is no substitute for a comprehensive food policy. The immediate need is to regulate the prices of foodgrains so that : (1) the peasant gets an adequate price for his produce and (2) the price of foodgrains does not increase between two harvests by more than one anna per seer. State trading will merely replace the wholesale private dealers by Government bureaucrats. The common man's plight will remain the same.

Tibet :—The mistake in the Tibet policy was really committed nine years ago, when India acquiesced in the Chinese aggression on Tibet. That was the time when the rights of India and China, should have been abrogated, and Tibet made an independent state, like Nepal, with guarantees from both countries. Today the Indian Government's protest merely reflects the shift in its foreign policy : its neutrality is gradually being tilted in favour of the Atlantic block as for sometime in the past, it was pro-Soviet.

U.S. Arms Aid to Pakistan :—would further worsen the prospect of Indo-Pak amity. However, it is time that the whole Indo-Pak question should be viewed from a comprehensive angle. The people in both the countries should mentally accept partition as a settled fact and make federative approaches.

SWATANTRA PARTY

(19, Race Course Road, Bangalore)

The Swatantra Party was established in Madras on June 4, 1959, at a meeting convened by the All India Agriculturists' Federation, with Mr. C. Rajagopalachari in the Chair.

It was also decided at the time that a preparatory convention to take steps towards the formation of the Party should be convened on August 1 and 2 and that a final convention should be convened in December 1959.

For the interregnum the following provisional office-bearers were nominated to look after the affairs of the party :

Chairman : Professor N. G. Ranga.
General Secretaries : V. P. Menon, Jinaraja Hegde.
Treasurers : Sir Homi Mody, B. V. Narayana Reddy.

The following Statement of Principles was adopted at the meeting :

We are of opinion that social justice and welfare can be reached more certainly and properly in other ways than through the techniques of so-called socialism.

We hold that social justice and welfare should not be sought to be brought about by violence or State compulsion with all their necessary accompaniments of injustice, expropriation, and repudiation of obligations but must be brought into being by the spread of the doctrine of trusteeship adumbrated by Gandhiji.

We stand for every effort being made to preserve what is good in our culture and to replace by spiritual values the materialistic philosophy of life that has resulted from the efforts merely to raise what is called the standard of life.

We believe that all the educational activities of the Government, direct and indirect, should be such as to emphasise the moral obligation of those who possess wealth to hold it in trust for society, and a doctrine of life based on that

moral obligation as distinguished from seeking to establish a socialistic structure based on legislative sanctions, involving expropriation and loss of incentive for the individual to work, and increasing dependence on the State and its officials in every walk of life.

We are opposed to all those policies and forecasts of future Governmental action which have created an all-pervading and deep sense of uncertainty, drying up all interest in land and factory alike.

In agriculture, we recognise the paramount need for increasing food production, but believe that it is best attained through the continuance of the self-employed peasant-proprietor who stands for initiative and freedom and is interested in obtaining the highest yields from the land.

We believe in an intensive programme of agricultural improvement without disturbing the harmony of rural life amongst the elements that compose it, but by promoting the material and psychological inducements for more production.

We should in special seek to introduce a more intensive programme than is now being followed in respect of the supply of material, implements and credit to the farmer without in any way interfering with the cultivator's rights of ownership, management and cultivation of the land.

We believe in the need for every kind of servicing for agriculture, but are opposed to cultivation through organisations which are a loose kind of multiple ownership, certain to sap the incentive of the farmer, reduce farm output, and end in a collective economy and bureaucratic management.

We believe that the level of life of the farmer can be raised by taking steps to maintain a reasonable and fair price for his produce.

In industry, we believe in the encouragement of the incentives for higher production and expansion which are promoted by competitive

enterprise, with adequate safeguards against excessive and unreasonable prices, profits and dividends where the competition itself does not secure these ends.

We stand for the restriction of State enterprise to heavy industries to supplement private enterprise in that field, such national services as railways, and the starting of pioneer industries where private initiative is difficult.

We believe that taxation should be kept at such levels that it does not interfere with reasonable living standards for the people, both rural and urban, and which, while being necessary and sufficient for the carrying on of administration, nation-building and social services, is yet not so high and exacting or so ubiquitous as to prevent capital-formation and investment by individuals.

We are opposed to urgent and lop-sided development based on heavy taxation, deficit financing and foreign loans out of all proportion to economic repayment-capacity.

We are opposed to policies which lead to excessive and immediate inflation.

We hold that the guarantees specified in the original Constitution in respect of freedom of property, trade, employment and just compensation for any property acquired for public purposes should be restored.

We are against the expansion of bureaucratic services which involves the bringing into being of "Statism" with a hierarchy of officials made to do work which is best done privately and independently and an unproductive waste of national resources.

We believe that the State will best serve its citizens by giving facilities for a proper decentralised distribution of industry and limiting its regulatory function to the prevention and punishment of financial activities whenever called for.

SOME WOMEN'S ASSOCIATIONS

ALL-INDIA WOMEN'S CONFERENCE

Address : 6, Bhagwandas Road, New Delhi.

Office bearers (1959-60) :

President : Smt. Raksha Saran.

Vice-Presidents : Smt. Saraswathy Giri, Smt. B. Tarabai, Smt. Jayashri Rajji, Smt. M. S. H. Jhabwala, Smt. Vijayaraja Meludla, Smt. Indira Devi Deodhar.

Hon. Gen. Secretary : Smt. Sarojini Varadappan, 15, Warren Road, Madras 4.

Honorary Treasurer : Smt. Kunti Sondhi, 5, Atta-Ul-Rehman Lane, Underhill Road, Delhi.

Hon. Secretary, A.I.W.E.F. Association : Smt. Pushpa Mehta.

Hon. Gen. Secretary, Village Mobile Health Van Committee (A.I.W.C. SKIPPO) : Smt. Gulab Dalal.

Members-in-charge, Departments :

Legislation : Smt. Shyamkumari Khan.

International Relations : Smt. Mithan J. Lam.

Asian African Conference : Smt. Avabai Wadia.

Handicrafts : Begum Husain Ali Khan.

Constitution : Smt. Urmila Mehta.

Editor, 'Roshni' (English) : Smt. Tapati Mukerjee.

Education : Smt. Kusum C. Shah.

Socio-Economics : Smt. Phulrenu Guha.

Sarojini Naidu Margaret Cousins Memorial Fund : Smt. Vijayaraja Meludla.

Margaret Cousins Memorial Library : Smt. Dr. Bina Roy.

Executive Committee : Smt. B. Tarabai, Convener.

The Conference was started in 1926 and is the oldest women's welfare organization in the country.

It publishes a monthly journal in English and Hindi called *Roshni*.

There are 39 branches in :

Ajmer, Andhra, Assam, Baroda, Bengal Central, Bengal West, Berar, Bhavnagar, Bhopal, Bihar, Bombay, Calcutta, M.P. North, M.P. South, Cochin, Delhi, Gujarat, Gwalior, Hyderabad, Indore, Jath, Junagadh, Karnatak, Kolhapur, Konkani, Madras, Maharashtra, Malabar, Mysore, Orissa, Phaltan, East Punjab, Patiala, Rajasthan, Rangli, Tamilnad, U.P., Agra and Kashmir with about 275 constituent branches and 54,600 membership.

BOMBAY STATE WOMEN'S COUNCIL

Address : Town Hall, Bombay 1.

Office bearers :

President : Mrs. Gulestan R. Billimoria.

Vice-President : Mrs. Sushila D. Joshi.

Hon. Treasurer : Mrs. Padmavati B. Saraiya.

Executive Secretary : Mrs. Hilla D. Dadina.

There are branches in Ahmedabad and Poona.

Thirty-four societies are affiliated to the B.S.W.C.

There are committees for :

Rescue, Home, Women's Home, Industries Depot, Labour, Parliamentary Affairs, Education, Children's Library, Health, Haj, Funds Collecting, Child Welfare, Social Education, Children's Films, Small Savings, Bapnu Ghar, Beggar Problem and Children's Recreation. There is also an *ad hoc* milk distribution committee.

B.S.W.C. has 1,263 members.

FEDERATION OF UNIVERSITY WOMEN IN INDIA

Affiliated to the International Federation of University Women, with headquarters in London.

Address : 14/1, IV Street, Abhiramapuram, Madras 18.

There are branches (organized on University basis) in :

Bombay, Madras, Poona, Nagpur, Delhi, Lucknow, and Allahabad. Sub-Branch : Kodalkanal.

One of the chief aims of the Indian Federation is to promote friendship and understanding among the University women of different nationalities. Number of University women in India is about 40,000.

NATIONAL COUNCIL FOR WOMEN IN INDIA

Founded in 1925.

Affiliated to the International Council of Women.

Head Quarters Office :

Ground Floor, Kashmir House, 94, Nepean Sea Road, Bombay 6.

Present Office Bearers :—

President : Smt. Saraladevi Sarabhai; Vice-Presidents : Smt. Taraben M. Premchand; Smt. Nitroji B. Shome; Miss S. B. Das; Smt. Vimla Virmani Hon. Gen. Secy. : Smt. Leela-hai Phadke; Hon. Treasurer : Lady Vasulabai Chandavarkar.

Affiliated State Councils : Bombay State Women's Council, Bombay; West Bengal Council of Women, Calcutta; N.C.W., Lucknow; National Council of Women in India (U.P. Branch), Allahabad; National Council of Women in India, Nagpur; National Council of Women in India, Jamshedpur; Orissa Nari Seva Sangha, Cuttack; National Council of Women in India, Simla; Delhi State Council of Women, Delhi; Assam Provincial Mahila Samiti, Gauhati; Bihar Council of Women, Patna.

Affiliated Societies : Trained Nurses Association of India, Delhi; Young Women's Christian Association of India, New Delhi; Association for Moral & Social Hygiene in India, New Delhi.

Standing Sectional Committees on : (Conveners) :

Legislation : Smt. Sarojini Mehta, Bombay; Education : Smt. S. Bhandarkar, Poona; Bulletin and Editor of the Bulletin : Smt. Vimla Virmani, Delhi; Child Welfare : Smt. Anila Dey, New Delhi; Village Welfare : Smt. Anila Dey, New Delhi; Health & Hygiene : Dr. (Smt.) M. J. Wadia, Bombay; Prison Reforms : Smt. Shudha Masumdar, Calcutta; Handloom & Small Scale Industries : Smt. Kety Shroff, New Delhi; Welfare work for Harijans and Backward & Scheduled Classes : Smt. Usha Bahl, New Delhi; Welfare work for Adolescents : Smt. J. Jaipal Singh, New Delhi; Small Savings Scheme : Smt. S. Ram Lall, New Delhi; Khadi & Village Industries : Smt. Tarabai Premchand, Bombay; Co-operation with Bharat Narak Samaj : Smt. Priyadarshini Atal, New Delhi; Co-operation with UNESCO : Madame Sophia Wadia, Bombay; Women's Co-operatives : Smt. Lilavati Banker, Bombay;

Trades & Professions : Smt. Malini Khan, Poona; Delinquency & Rehabilitation : Smt. Tarunica Dehejia, Bombay; Moral & Social Hygiene : Smt. Malinibai Paranjpe, Poona.

SIR RATAN TATA INDUSTRIAL INSTITUTE

Address : Hughes Road, Bombay 7.

Office bearers :

President : Lady Navajbai Ratan Tata.

Vice-President : Lady Jerbai S. Billimoria.

Hon. Gen. Secy. : Mrs. Dinbai F. S. Patuck.

Hon. Treasurer : Mrs. Shirin S. Talati.

The Sir Ratan Tata Industrial Institute founded in 1928 by the Trustees of Sir Ratan Tata is a unique centre raised to the memory of an illustrious member of the famous House of Tatas.

For 31 years, this Institute has helped to partially solve the problem of poverty and distress among Parsi families from the lower income groups, by encouraging girls and women to earn a living through suitable industries.

The average number of women employed during 1958 was 241 and the wages paid Rs. 2,46,158.

The amenities provided were : towards meals, Rs. 47,950; towards conveyance, Rs. 5,861; prize distribution, Rs. 750; bonus, Rs. 19,621.

The departments run by the Institute are Catering, confectionery, laundry, dyeing, hand embroidery, machine embroidery, bambino and sewing.

The Institute started a perfumery department in October 1954.

Total sales during 1958 amounted to Rs. 11,06,043 which included Catering; Confectionery Rs. 3,49,474; Hand Embroidery Rs. 67,953; Sewing Rs. 24,001; Laundry Rs. 9,375; and Dyeing Rs. 11,091; Machine Embroidery Rs. 38,658 and Card department Rs. 249.

YOUNG WOMEN'S CHRISTIAN ASSOCIATION

This is a Christian Association with membership and programme participation open to all women irrespective of race, class or creed. It is linked to similar organisations in 66 countries through affiliation to the World Y.W.C.A.

Address : Parliament Street, New Delhi.

Office bearers :

President : Mrs. Achamma Matthai.

Vice-Presidents : Rani Maharaj Singh; Raj Kumari Anurit Kaur; Mrs. L. Pithavadian; Mrs. Tharyan Verghese; Mrs. R. K. Sirkar; Mrs. V. V. Joshi.

National Gen. Secy. : Miss Ivy Khan.

There are branches in all the large towns and cities. In addition there are Youth groups known as "Y-Deepas."

Holiday Homes are to be found in the hill stations of Ootacamund, Coonoor, Darjeeling, Mussoorie, Naini Tal and Simla.

Hostels are maintained in 20 centres.

The programme is varied to meet the needs and interests of all members and the community. Welfare work has always been promoted in rural areas, vocational training classes and employment bureaux are special features of the programme in local centres as well as recreation and Health education.

WHO'S WHO IN INDIA

ABDULLAH, Shafiq Mohamed, ex-Prime Minister, Jammu and Kashmir. b. 1908, in Soura, near Srinagar; *Educ.*: Srinagar; Jammu; graduated with distinction from Lahore; M.Sc., Aligarh Univ.; while at Kashmir College he formed a Students' Union. 1927. Was a science teacher in the State High School; initiated a regular campaign for responsible Government, crystallising in the formation of the Kashmir Muslim Conference; created political consciousness among the people and took the opportunity of converting the Muslim Conference into the National Conference in 1938; launched the 'Quit Kashmir' movement, 1946, which aimed at complete democratisation of Kashmir; was put in prison; elected Pres., All-India States Peoples Conference; released, 1947; organised a Peace Brigade to maintain communal harmony in the State; organised national defence against the tribal raiders; was invited by the Maharaja of Kashmir to be the Head of the Emergency Administration at the time of the signing of the Instrument of Accession; member, Kashmir Delegation from India to the U.N.O.; M.P. for Kashmir till 1952; was detained for 44 years from Aug. 9, 1953; released, Jan. 8, 1958; detained again, May 1, 1958 under the Preventive Detention Act. *Address*: C/o Soura, P.O. Noushera, Srinagar.

ABID AH, Deputy Minister for Labour, Govt. of India. b. 1900. Started life when 13 as Mill Mazdoor and hawker, Kanpur Mills, 1913-16; Govt. service at Wardha, 1916-20; resigned to join non-co-operation movement, and Khilafat organisations, 1921; Secy.: Wardha Khilafat and Congress Ctees.: C.P.P.C.C., 1923; organised and conducted National Flag Satyagraha Ctee., 1923; became its Secy.; sentenced 22½ months; Secy., Indian Assoc., Singapore, 1927-28; deported from Singapore and Malaya for anti-Govt. activities, 1927-28; joined Bardoli struggle, 1928; General Secy.: B.P.C.C., 1929-34; Congress Reception Ctee., Bombay, 1934; member: A.I.C.C., for several years now; Bombay Legislative Council, 1949-52; organised and conducted Salt Satyagraha in the freedom movement; participated in all national struggles; arrested about a dozen times; was opposed to the formation of Pakistan; organised Bihar earthquake relief on behalf of Bombay, 1934; Trade Unionist since the age of 13; among founders of the I.N.T.U.C., 1917; its Vice-Pres.; Founder and also Office-bearer of large number of Trade Union Organisations; Pres., Bombay Prov. N.T.U.C., 1948-51; represented Indian workers in International Conferences thrice; Leader, Indian Delegation to I.L.O. conference, Geneva, 1953 and Asian Reg. Conf., Tokyo, 1953, Delhi, 1957; widely travelled; believes in Gandhian ideology. *Address*: Secretariat, New Delhi.

ACHARYA, Bejoy Krishna, B.A. (Hons.) (Econ.) (Calcutta), Indian Ambassador in Czechoslovakia and Rumania, since May 1959; b. May 1, 1912; *Educ.*: Calcutta and London Universities. Entered I.C.S., 1936; held charge of several important Bengal districts like Howrah, 24 Parganas, Bakarganj & Darjeeling; served as Dewan of Tripura & Dy. Chief Commissioner, Himachal Pradesh; Deputy High Commissioner for India at Dacca; Indian Minister in Cambodia; Jt. Secy., Ministry of External Affairs. *Recreations*: Motoring; Photography. *Club*: Delhi Gymkhana Club. *Address*: C/o External Affairs Ministry, New Delhi.

ADANI, Ratanbhai Mulshankar, Minister for Prohibition, Village Panchayat and Cottage Industries, Govt. of Bombay, since Nov. 1, 1956. b. at Bhanwad in Halar Dist. Left studies early in 1930 to join Satyagraha Movement; courted imprisonment several times; started

constructive work at Tarawada after his release from jail in 1934; went underground in 1942 and was active in the Quit India movement; was C.-in-C., Azadi Hakumat organised in 1947 to liberate Junagadh from Pakistan; elected member, Saurashtra Leg. Assembly in 1951 from Keshod (Constituency and appointed Minister for Development and Planning, 1951. *Address*: Sachivalaya, Fort, Bombay 1.

ADARKAR, Bhaskar Namdeo, M.A. (Cantab.), B.A. (Bombay Univ.), M.B.E. (1946), Executive Director, International Monetary Fund, Washington, since June 1957 and Indian Minister in Washington since Oct. 1958. b. May 18, 1910; *Educ.*: Wilson Coll., Bombay; Gonville and Caius Coll., Cambridge. Agent, Bank of India, Ltd., Bombay, 1938; Research Officer to the Economic Adviser to the Govt. of India, 1938-40; Chief Research Officer, 1940-41; Under-Secy. to the Govt. of India, Commerce Dept., 1941-43; Asstt. Economic Adviser to the Govt. of India, 1943-45; Dy. Economic Adviser to the Govt. of India, 1945-49; Member, Indian Tariff Board, June-Nov. 1949 and May 1950-Jan. 1952; Member, Indian Tariff Commission, January 1952 to March 1957; Officer on Special Duty, Ministry of Finance, April June, 1957; Secy., Reconstruction Ctees., 1941-43; Govt. of India's Delegate to Preparatory Ctee. on Trade and Employment; Drafting Ctee. of that Ctee., Havana Conference on Trade and Employment, E.C.A.F.E. Sessions and meetings of the I.T.O. *Publications*: *Indian Tariff Policy*; *Devaluation of the Rupee*; *The Gold Problem*; *History of the Indian Tariff*; and several official publications. *Address*: I.M.F., Washington

ADVANI, Pritamdas Bhojraj, M.Sc. Tech. (Mech.), M.I.E. (India), Consulting Engineer and Industrial Adviser; Director: New

India Fisheries Ltd.; Bharat Barrel and Drum Mfg. Co. Ltd.; Automobile Products of India Ltd. b. May 21, 1891; *Educ.*: Hyderabad, Sind & Manch. Univ. Engr., Metropolitan Vickers in their Manchester Works and Bombay till end of 1921 and thereafter Manager, Bombay Region till Aug. 1928; Director of Industries, Govt. of Bombay from August 1928 to January 1944; Chairman, Board of Direction for Technical Education and Industrial Training, Bombay till Oct. 1944; Chairman, Board of Trustees, Victoria Jubilee Technical Institute, Bombay, 1938-48; member, Bombay Legislative Council, 1932-36; on special duty in U.S.A., 1939 in connection with proposal for the establishment of the automobile industry in Bombay; Member of Senate, Bombay University, 1931 to 1945; Member, Central Board of Irrigation and Power; Electrical Commr., Govt. of Bombay, 1944-51. *Address*: "Oceana," Netaji Subhas Road, Bombay.

ADVANI, Tilumal Menghraj, M.A., LL.B., Principal, Jai Hind College, Bombay, since June 1948 and Vice-Chancellor, Univ. of Bombay, since March 1957. b. March 26, 1888; *Educ.*: Navalrao Hiranand Academy, Hyderabad (Sind); D. J. LITERATURE

The Sahitya Akademi Awards for 1958 for outstanding books published in the Indian languages during the years 1955 to 1957 were won by:

Bengali : Anandibai Ityadi Galpa (Short stories) by Rajasekhara Bose.

Gujarati : *Darshan ane Chintan* (2 volumes) (Philosophical essays) by Pandit Shukhlalji.

Hindi : *Madhya Asia ka Itihaas* (2 volumes) (History of Central Asia) by Rahul Shnkrityan.

Kannada : *Avalu Maralu* (Poems) by D. R. Bendre.

Kashmiri : *Sat Sangar* (Short stories) by Akhtar Mohiuddin.

Malayalam : *Kazhinja Kalam* (Autobiography) by K. P. Kesava Menon.

Marathi : *Bahurupi* (Autobiography) by Chintaman Rao Kolhatkar.

Oriya : *Ka* (Novel) by Kanhucharan Mohanty.

Tamil : *Chakravarti Tirumagan* (Ramayana retold in prose) by C. Rajagopalachari.

Urdu : *Atishe Gul* (Poems) by Jigar Moradabadi.

The awards are given in the form of a cheque for Rs. 5,000 and an attractive copper tablet in which the name of the author, the name of the book and the year of the award are inscribed. The signatures of the Akademi's President, Mr. Jawaharlal Nehru, are also inscribed on the tablet.

Books are eligible for prizes in 16 languages, viz., the fourteen major languages enumerated in the Constitution of India and Sindhi and English (as written by Indian authors).

There are two Prizes for Sanskrit, one for creative writing in Sanskrit, the other for scholarly research or exposition relating to Sanskrit, written in any language. To be eligible for award a book must have been originally published during the three years preceding the year in which the Award is announced.

Hindi

The Ministry of Education awarded in March 1958 a prize of Rs. 2,000 each to the following seven books of outstanding merit in Hindi published between January 1, 1955 and December 31, 1955.

In the category of the best translations into Hindi from other languages, two prizes of the value of Rs. 2,000 each for poetry and fiction were awarded to *Geet Govind* by Mr. Vinay Mohan Sharma of Nagpur University and *Adi Vidrohi* by Mr. Anurit Rai of Allahabad.

Geet Govind is a lyrical poem in Sanskrit of Jayadeva, which has been rendered into Hindi verse.

Adi Vidrohi is a translation of the English novel *Spartacus* by the American writer Howard Fast.

Under the category of best books in Hindi devoted specially to promoting inter-class, inter-communal and inter-State understanding and appreciation of the fundamental ideals of the common Indian culture, only one prize was given to the book *Bharatiya Krishhi Ka K. Ka.* by Mr. Jay Chandra Vidyaanar of New Delhi. It is an original book written in Hindi on Indian culture.

In the category of original works in Hindi, four prizes of Rs. 2,000 each were awarded to books in poetry, drama, fiction and to a novel by an author whose mother tongue is not Hindi.

In this category, the prize for poetry was awarded to *Parvati* by Mr. Ramanand Tiwari of Maharaja College, Jaipur. It is an original book of poems in Hindi. It deals with the story of Shiva and Parvati on the pattern of Kali Das's *Kumar Sambhava*.

In the category of drama, the prize was awarded to *Rim Jhim* by Dr. Ram Kumar Varma of Allahabad University. It is a collection of one-act plays written in Hindi.

For fiction, the prize was awarded to *Jahaj Ka Panchhi* by Shri Ila Chandra Joshi, Producer, All-India Radio. It is considered as one of the outstanding novels published in Hindi in recent years.

The prize for the best original work in Hindi by an author whose mother tongue is not Hindi was awarded to *Bari Bari Ankhen* by Shri Upendra Nath 'Ashk' of Allahabad.

It is an original novel.

Under the third competition, 16 prizes of Rs. 2,000 each were announced to be awarded for the outstanding categories.

Two hundred and forty-nine books were received under the Scheme, which was initiated in 1952. The object of the scheme is primarily to encourage the development of Hindi language and literature.

This competition was the third held since 1952. The number of books for which awards were given till 1958 numbered 31.

Books for Neo-Literates

The Ministry of Education announced the award of 37 prizes of Rs. 500 each to the authors of the following books on the result of the fifth competition for books for neo-literates under the Government of India scheme "Encouragement of Popular Literature".

Under the scheme, prizes are awarded annually for good books for neo-literates in every regional language and at the same time prize-winning books and their approved translations in other regional languages are bought in bulk for distribution in community projects, N.E.M. Blocks and other educational centres. Prizes are announced each year on Gandhi Jayanti.

Good books for neo-literates in Hindi are purchased in bulk, the State and Central Governments sharing the cost equally. The Central Government, in addition, also pays transportation and packing charges.

About 550 books were received for the fifth prize competition.

Prize Books :

Assamese : "Mohan-Madhuri" by Pratulla Chandra Dutta; "Sustha Sabal (Joan Khan Mor)" by Kumudchandra Bardoloi.

Bengali : "Hatat Bipade" by Amarnath Roy; "Saper Katha" by Abani Bhushan Ghosh; "Prathamik (hikita)" by Shkr Kumar Chakraborty; "Kavi Kanka" by Debes Ray.

Gujarati : "Bapuna Jeevan—Prasango" by Manubhahen Gandhi; "Antare Antare Ajwala" by Kapila Thakore.

Hindi : "Garim Ki Kahan!" by Sarvaswari Brahmanand and Naresh Vedi; "Radha Krishna" by Acharya Chaturang; "Mangoo Bhalya" by Leela Avasthi; "Harshavardhan" by Prem Chand Majesh; "Sukhoo Ke Bete" by Vedprakash M.A.; "Desh Yon Aage Badhga" by Shusheela; "Kashmir" by Vishwamitra Sharma.

Kannada : "Panchamrit" by "Shreeveer" (V. C. Hittalmani); "Namma Manassu" by K. Varjja Udupa.

Malayalam : "Ningalum Kuttilalum" by V. C. Narayanan; "Rajuvum Asokhanum Postappeesil" by Miss C. Ratnam.

Marathi: "Ram Rajya" by Sumati Ponkshe; "Dichhe" Dham by S. K. Deole and R. M. Joshi; "Bhoodananteel Navalkatha" by Raja Mangalwedhekar; "Apla Desh Aple Wagane" by Madhusudan Pandurang Bhawe.

Oriya: "Ama Swadheen Sansar" by Golak Behari Dhall "Duniya Jagichh Aji" by Prafulla Samant Ray.

Punjabi: "Ki Khye To Kithon Llyaiye" by Kartar Singh; "Sada Panjab" by Pran Nath Meth.

Tamil: "Anuvin Rahasyam" by P. Gunasekar; "Nattu Vaidyar Nalla Vaiyar" by M. Deva Rajan; "Een Jathiyai Ozhikka Vendum Eppadi" by G. Paramasivan; "Lathilya Kiraman" by S. Ramasami.

Telugu: "Emtinali Endukutinali" by Samrajyam Srinivasarao; "Papanu Ela Penchali" by A. V. S. Rama Rao; "Bhooodevi" by T. Ramachandra Rao; "Kalasi Bathukudam" by G. Suramouli.

Urdu: "Maanul Chand" by Athar Parvez; "Duniya Badal Gai" by Safdar Abbas Naqvi.

In addition, the following three books were also adjudged as meriting prizes, but since their authors had already won 3 awards in earlier competitions, or no specific authors were mentioned on the books, they were approved for purchase only:—

"Kitna Sunder Desh Hamara" by Bhagwat Saran Padihyaya.

"Sanyukt Rashtra Sanatha" (Published by Delhi Library Board, Delhi).

"Hamara Bharat" (Published by Delhi Library Board, Delhi).

Out of the books, a further selection of five best books was made for additional awards of Rs. 500 each.

These were:

Bengali: "Hathat Bipade" by Amarnath Roy.

Gujarati: "Bapuna Jeevan Prasango" by Manubhai Gandhi.

Kannada: "Namma Manassu" by K. Varjia Udupa.

Tamil: "Anuvin Rahasyam" by P. Gunasekar.

Urdu: "Maanul Chand" by Athar Parvez.

Children's Books

Twenty-four children's books in 13 Indian languages were awarded (March, 1958), Rs. 500 each under the Union Government's scheme for promoting literature for children. The award is made by the Ministry of Education and this is the fourth competition of its kind.

Two thousand copies of each of the prize-winning books will be purchased for distribution in schools, libraries, children's centres etc at a price which the Ministry considers reasonable less 25 per cent discount as allowed by publishers on bulk purchase on condition that the get-up of the book is to the satisfaction of the Government of India.

The 24 books are:

Assamese: "Sonar Putali" by Hara Gobinda Das; "Ashoka" by H. N. Sarma.

Bengali: "Nakal Nengti Chenga-Benga II" by Himat Ghosh (Moumachi); "Gari Ghorar Galpa" by Salla Chakravorty.

Gujarati: "Pimpi" by Sombhai Patel.

Hindi: "Phool Khilai Hain Dull Dali" by Rudradutt Mishra; "Aao Karen Sawari" by Ram Chandra Tewari; "Nat Khat Chun Chun" by Shivmurti Singh Vatsa; "Dharti Mata" by Suraj; "Jagat Ki Kahaniyan" by Abdul Kaszak; "Hawa Ki Zaban" by Abdul Kaszak.

Kannada: "Muuni Maduve" by Ashalatha Alandker.

Malayalam: "Talappoli" by K. G. Sethunath; "Painkili" by T. V. John.

Marathi: "Minchi Bahuli" by Sumati Palgaonkar; "Nave (Gokul)" by P. L. Deshpande.

Oriya: "Duradeshara Pilanka Katha" by Adhiraj Mohan Senapati; "Mo Kela Sathi" by Godabarish Mahapatra.

Punjabi: "Aag di Kahani" by Gurbachan Singh.

Sindhi: "Baugh Bahar" by Parasaram Hiranand Sachanandani "Zia".

Tamil: "Parakkum Pappa" by Kalvi Gopalakrishnan.

Telugu: "Palabadi Patalu" by B. V. Narasimha Rao; "Janthuprapanchamu" by Varanasi Subramanyam.

Urdu: "Ranga Ke Aur Raag" by Freda M. Bedi.

The Ministry of Education also announced five additional awards of Rs. 500 each to the authors of the books or manuscripts who were awarded a prize of Rs. 500 each in the Third Competition of Books for Children under the same Scheme.

Hindi: "Neelam Aur Masahari Ki Deyi" by Sharda Misra; "Chitron Me Ek Do Tin Char" by Braja Rai Choudhri.

Malayalam: "Onappakky" by T. V. John.

Punjabi: "Vichari Everest" by R. S. Ahluwalia.

Telugu: "Naratana Bala" by Natraj Ram Krishna.

TEACHERS

The Union Ministry of Education instituted in 1959 a scheme of national awards to teachers, with the object of recognising the outstanding services of teachers to the community, and to raise their social status.

Under the scheme, 32 awards will be divided equally between primary and secondary school teachers. Each of the awards carries Rs. 500 in cash and a Certificate of Merit.

The teachers are selected from all over India. Out of the 32 awards, two each will go to teachers from each of the 14 States, two to teachers from the Union Territory of Delhi and the remaining two to teachers from the other Union Territories.

The scheme is likely to be extended later to members of the inspectorate and university teachers.

The following are the recipients of the award:

V. Narasimham (Headmaster, Municipal High School, Sriakulam), J. Shalik Abdullah (Government Junior Basic School, Mudfort, Secunderabad), (Andhra Pradesh); Girindra Nath Changkakati (Headmaster, Nizara High School, Nazira), Babula Gowami (Jorhat Maktab Model Primary School, Jorhat), (Assam); Uma Prasad Sinha (Headmaster, Pusa High School, Darbhanga), Nand Kishore Lal Sriyastva (Sawtelle Memorial Middle School, Arrah), (Bihar); Shankar Keshar Kanetkar (Mudholi High School, Phaltan), G. G. Patkar (Headmaster, Primary School, Mithabadi), (Bombay); Kidar Nath (K. U. Higher Secondary School), Fahla Ram Gulati (M. C. Primary School, Karol Bagh), (Delhi); Ghulam Mohamed Javide, Dharam Vir (Jammu and Kashmir); Kalandi Shekaran (St. Michael's Anglo-Indian High School, Cannanore), K. Ryrur Nayar (Upper Primary School, Punnoli), (Kerala); Sarman Lal Gautam (Senior Basic School, Mandla), Mihri Lal (Mission Higher Secondary School, Seoni), (Madhya Pradesh); A. M. Kannappa Mudalliar (Headmaster, Pachaiyappa's High School, Kancheepuram), P. Padmanabhan (Headmaster, Thiru V. K. Elementary School, Shenoyanagar), (Madras); H. Naba Kant Singh (Assistant Headmaster of

Johnstone High School), I. Shanghei (Teacher of Phadang Phadang L. P. School, Somsal), (Manipur); S. V. Kalmath (Headmaster, Model High School, Gadag), B. I. Chengappa (Senior Basic School, Hudikere), (Mysore); Basanta Kumar Dass (Peary Mohan Academy, Cuttack), Lokanatha Nanda (Dagarpada Model U.P. School, Cuttack), (Orissa); Veena Majit Singh (Headmistress, Fenton Ganj Higher Secondary School, Jullundur), Prakash Chand (Head Teacher, Government Primary School, Baljath), (Punjab); Jagat Narain Nag (Gandhi National School, Alwar), Rajindar Singh (Government Basic Primary School, Ganganagar), (Rajasthan); Sadguru Sharan Awasthi (Principal, B.N.S.D. College, Kanpur), Har Das Sharma "Shreevish" (Head Teacher, Basic Primary School, Sakrur), (Uttar Pradesh); Prabodh Chandra Goswami (Jenkins School, Cooch Behar), Harendra Kumar Sarkar (F. B. Primary School, Sarkarpura), (West Bengal).

ART

Below we give the Lalit Kala Akademi Awards for 1959. The work of the following artists were selected for the award of cash prizes of Rs. 1,000 each.

Modern:

Raghav R. Kaneria .. "Bull" (sculpture)
A. S. Jagannathan .. "The Dea'h"
Mohammed Yasir .. "The Marriage Procession"

Highly Commended:

M. Beddeppa Naidu .. "At the 'afe"
P. L. Jain .. "Composition"

Academic-Realistic:

Ratan Wadke .. "Portrait"
Sunil Kumar Das .. "Three Horses"
Dipak Prosad Banerjee .. "Steel Exterior"

Highly Commended:

Arun Bose .. "Playful Light"
Dipak Prosad Banerjee .. "Rajani Gandha"

Oriental:

P. Khemraj .. "Lost in Nature"
Bhagwan Kapoor .. "Sindhi Buhl-ranu"

Bihari Barbhaiya .. "Krishna Waiting for Radha"

Highly Commended:

Balvantray A. Joshi .. "Tulasi Vivah" (in Saurashtra)

The Committee abided by the classification according to the artists' declaration. Only in cases where the artists did not classify their works did the Committee use its discretion.

The Committee finally considered all the nine prize-winning exhibits together and unanimously awarded the GOLD PLAQUE to the following, as the best exhibit of the year:—

"The Marriage Procession" by Mohammed Yasir.

MUSIC, DANCE, DRAMA

The Sangeet Natak Akademi Awards are given below. The winners are selected by the General Council of the Akademi.

The Award consists of a scroll signed by the President, a bracelet of gold chain and a shawl or *angavastram* bordered with gold lace.

In 1957 the Akademi also decided to give awards for the best plays and the best production of plays. For the present only two languages are eligible—Hindi and Tamil. Other languages would be chosen for future awards.

The award for the best play was to be a cash prize of Rs. 2,500, a gold "Shrinkai" (bracelet) and a shawl to the author of the play.

In the case of the best production, a prize of Rs. 2,500 was to be given to the "best adjudged production." The winning group was also to be paid Rs. 2,500 for production expenses.

The plays and scripts had to be original.

* Also awarded the Gold Plaque as the best exhibit of the year.

Below we give the awards for 1958-59 :—

Hindustani Music :

Vocal Krishnarao Shankar Pandit.
Instrumental Ustad Jehangir Khan.

Karnatak Music :

Vocal G. N. Balasubramaniam.
Instrumental Rajamanickam Pillai.

Dance :

Bharat Natyam Gauri Amma.
Kathak Sundar Prasad.

Drama :

Acting P. Sambanda Mudaliar.
Direction Shombhu Mitra.

Film :

Acting Ashok Kumar.
Direction Satyajit Roy.

FILMS

The President's Gold Medals are to be awarded to *Sagar Sangame* as the best feature film and to *Radha Krishna* as the best documentary film for the year 1958.

In addition, the producer of the feature film will get a cash prize of Rs. 20,000 and its Director Rs. 5,000. The cash prizes for the producer and director of the documentary film are Rs. 4,000 and Rs. 1,000 respectively.

All India Certificates of merit are to be awarded to *Jalsaghar* (Bengali) as the second best feature film and to *The Story of Dr. Karve* (English) as the second best documentary film.

The producer of *Jalsaghar* will get a cash prize of Rs. 10,000 and its director Rs. 2,500. In the case of the second best documentary film, the prizes are Rs. 2,000 for the producer and Rs. 500 for the director.

Among the feature films, *School Master* (Kannada) has been adjudged as the third best and earns an All India Certificate of Merit.

Call of The Mountains also gets an All India Certificate of Merit in the category of documentary films.

No film in the Children's Films category was found suitable for the Prime Minister's Gold Medal. The English short *Fursa and the Magic Doll* is to be awarded an All-India Certificate of Merit.

President's Silver Medals for the best feature films in respective languages have been awarded to *Sagar Sangame* (Bengali), *School Master* (Kannada), *Madhumati* (Hindi), *Runga Police* (Assamese), and *Pellintati Pramanalu* (Telugu).

The ten films assessed for the Regional Certificates of Merit are:—*Lajwanti* and *Karigar* (Hindi), *Dhakti Jaso* (Marathi), *Jalsaghar* and *Dak Harkara* (Bengali); *Thangapadunai* and *Annayai Anai* (Tamil); *Mangalya Balam* (Telugu); *Nairpidicha Pulicual* and *Randi-dangazhi* (Malayalam).

The assessments were made by the Central Committee of Awards, presided over by Dr. N. K. Sidhanta. Besides the Chairman, the Committee consisted of eleven persons four from the domain of culture, art and literature, Chairman of the three Regional Committees and of the Documentary Committee, and three representatives of the film industry.

The preliminary selections of the feature films were made by Regional Committees appointed by the Government of India at Bombay, Calcutta and Madras and of the documentary films by the Documentary Committee.

Filmfare Awards.

The awards for 1958 are as follows :

Best Picture : *Madhumati*.

Best Director : Bimal Roy (*Madhumati*).

Best Actor : Dev Anand (*Kala Pani*).

Best Actress : Vyjayanthimala (*Sadhma*).

Best Supporting Actor : Johnny Walker (*Madhumati*).

Best Supporting Actress : Nalini Jaywant (*Kala Pani*).

Best Story Writer : Pandit Mukham Sharma (*Sadhma*).

Best Music Director : Salli Chowdhury (*Madhumati*).

Best Dialogue Writer : Rajinder Singh Bedi (*Madhumati*).

Best Lyricist : Shalendra (*Pahudi*).

Best Playback Singer : Lata Mangeshkar (*Madhumati*).

Best Cinematography : Dillip Gupta (*Madhumati*).

Best Sound Recording : Ishan Ghosh (*Chandan*).

Best Art Direction : Sudhendu Roy (*Madhumati*).

Best Editing : Hrishikes Mukherjee (*Madhumati*).

The cash prize of Rs. 5,000 for the "Best Story Writer," announced by the Management of "Filmfare" at last year's awards function, went to Pandit Mukham Sharma.

Military, Police

The gallantry awards are as follows :

Vir Chakra : Nalk Balabhadur Mall 3/9 GR (Posth); L-NK Dharamsing Thapa 1/5 GR; Sub Sanbadhur Gurung 2 8 GR; L-NK Jashbadhur Thapar 2 8 GR; Nalk Warayam Singh 1 (Para) BN, Punjab Regiment; Jam. Janak Singh, C II Horse; Sep. Harpal Singh 2 BN, Rajput Regt. (Posth); Sep. Ran Singh, 2 BN, Jat Regt.; Maj. P. S. Gahoon, 7 BN, Punjab Regt.

Ashoka Chakra Class III : Hav. Tekbahadur Gurung, 2 4 GR; Rfn. Tilbahadur Gurjug, Assam Rifles (Post).

For bravery in the Naga Hills operations :

Ashoka Chakra Class II :

A/Major Daichand Singh, Pratap, 5 Gorkha Rifles; Rfn. Jaman Singh Gussain, 3rd Bn. The Garhwal Rifles; Rfn. Bhimbahadur Khattri, 1/9 Gorkha Rifles; Cfn./Elec. Jalkaran, EME; Capt. Harbans Singh, 7 Bn. The Assam Rifles; Jamadar Indra Bahadur Gurung, 3 Bn. The Assam Rifles.

Ashoka Chakra Class III :

Major Nand Lal Jamwal, 9 Gorkha Rifles; Lieut. Prem Narain Kacker, 9 Gorkha Rifles; Hav. Trilak Singh, Kathalt, 3 Garhwal Rifles (Posthumous); Nalk Gulab Singh Negl, 3 Garhwal Rifles; Nalk Prem Singh Negl, 3 Garhwal Rifles; Rfn. Rudra Bahadur Thapa, 2/9 Gorkha Rifles (Posthumous); Jemadar Balbir Singh, MM 3 Bn., The Para Regiment (Kumaon); Hav. Dewan Singh 3 Bn. The Para Regt. (Kumaon) (Posthumous); Nk. Purn Chand, 3 Para Regt. (Kumaon) (Posthumous); Sepoy Beg Raj, 3 Para Regt. (Kumaon), Subedar Dambar Bahadur Rana, 3 Bn. The Assam Rifles; Jemadar Manbahadur Pun, 4 Bn., The Assam Rifles; Nalk Bilbahadur Thapa, 5 Bn., The Assam Rifles; L N K. Narbahadur Chetri 3 Bn., The Assam Rifles; Rfn. Lok Bahadur Tamang 3 Bn. The Assam Rifles; Rfn. Sallg Ram Rana, 3 Bn., The Assam Rifles.

Police :

The following received the President's Police and Fire Services Medal :

Kalkhoorn Jehangir Nanavatty, I.P., Deputy Inspector General of Police, Bombay; Bal Makund Shukul, I.P.M., Deputy Inspector General of Police, Bhopal; Sunnangal Balakrishna Shetty, I.P., Inspector General of Police, Madras; Hari Sadhan Ghose Chaudhuri, I.P., Inspector General of Police (Officiating), West Bengal; Balbir Singh, I.P., Joint Director, Intelligence Bureau, Ministry of Home Affairs, Government of India, New Delhi.

BHOODAN

The position of the Bhoodan Yagna Movement upto 31st December 1958 is shown in the table below.

According to a resolution of the Sangh the main emphasis should be shifted from Bhoodan to Gramdan. Therefore no elaborate recording of the number of land donors, of families receiving Bhoodan lands, Sampattidan donors or Jeewan dan is now made.

The headquarters of the movement are at Akhil Bharat Sarva Seva Sangh, Rajghat, Kasli Varanasi (U.P.).

STATE	Land Collection (in acres)	Land Distribution (in acres)	No. of Gramdan
Assam	23,194	225	127
Andhra	2,39,950	84,296	481
Utkal	4,24,635	1,11,785	1,060
Uttar Pradesh	4,83,850	1,04,805	59
Kerala	29,021	2,126	543
Tamilnad	70,823	2,349	254
Delhi	398	157	—
Punjab	19,929	5,053	1
Bihar	21,13,938	2,86,286	130
Bombay :—

CANAL WATERS DISPUTE

The partition of the country in 1947 gave rise to a dispute between the Governments of India and Pakistan about their respective rights over the waters of rivers and canals flowing from India into W. Pakistan and used for irrigation purposes by both countries.

The question arose about the distribution of the Indus-basin waters.

The Indus river system comprises six rivers—the Indus, the Chenab and the Jhelum, generally called the western rivers; and the Beas, Ravi and Sutlej, generally called the eastern rivers.

The western rivers flow into Pakistan, carrying about 120 mln. acre feet of water annually. The eastern rivers, entering the plains in Indian territory, and later joining the Indus in Pakistan carry about 30 mln. acre feet of water.

The three western rivers thus carry four times as much water as the three eastern rivers.

There are however some canals in Pakistan which receive about 10 mln. acre feet of water from the eastern rivers in India. Two of these, the Central Bari and the Divalpur canals depend for their supplies on works which are situated in India.

After partition India agreed to continue supplies to these two canals. To regularize the arrangements an interim agreement for the continued supply of water to Pakistani canals against payment was signed by the Chief Engineers of East and West Punjab in December 1947 and subsequently endorsed by the Punjab Partition Committee. This agreement expired on March 31, 1948 and was not renewed by Pakistan. Consequently, supply of water was discontinued from April 1, 1948 but was resumed three weeks later when the Chief Engineers of the two Punjab signed a new agreement recognising the East Punjab Government as the owner of the Upper Bari Doab Canal and of the Ferozepur Headworks and providing for the continued supply of water to West Punjab until the end of the year.

The Pakistan Government did not ratify this Agreement and accordingly a high-level inter-Dominion Conference was held in Delhi. Under the Agreement concluded at this conference on May 4, 1948, Pakistan recognised the East Punjab Government's right to develop irrigation in famine areas and to diminish progressively supplies of water to Pakistan canals, while India undertook to supply water to these canals for a reasonable period to enable Pakistan to tap alternative sources of water supply.

The Agreement worked smoothly for over a year but from July 1950 Pakistan refused to carry out her obligations under the Agreement in respect of seigniorage charges.

Then followed abortive negotiations between the two Governments, India pleading that there was enough water in the Indus system for the reasonable requirement of both countries for which a comprehensive plan could be prepared after a joint technical study.

Similar suggestions were put forward by Mr. Eugene Black, the President of the International Bank, on whose initiative negotiations were resumed. He visited India and Pakistan in February 1952.

Negotiations were resumed under the auspices of the World Bank when a working party, consisting of engineers from the two countries and technical representatives of the Bank, met in Washington during May-June, 1952. After a six weeks' tour of inspection of irrigation works and sites in India and Pakistan during December 1952-January 1953 they assembled in Washington on September 1, 1953 to draw up a plan on the basis of the data which had been collected.

No agreement was reached, but on February 6, 1954, the representative of the Bank, "as an impartial adviser free to express his views on any aspect of the matter" submitted a compromise plan of his own.

WORLD BANK PROPOSALS

The main points of the Plan were:

- (i) The entire flow of the three western rivers of the Indus system (the Indus, Jhelum and Chenab) would be available for the exclusive use of Pakistan, except for a small volume of water for Kashmir.
- (ii) The entire flow of the three eastern rivers (the Ravi, Beas and Sutlej) would be available for the exclusive use of India, except that for a specified transitional period India would supply to Pakistan "her historic withdrawals from these rivers". This period, estimated at five years, would be worked out on the basis of the time required to complete "link canals" needed in Pakistan to replace these supplies.
- (iii) Each country would construct and pay for the works located in its territory, but India would also bear the cost of link canals in Pakistan needed to replace supplies from India "to the extent of benefit derived by her therefrom". This was expected to amount to between Rs. 40 crore and Rs. 60 crore.

Under this plan India was to receive 20 per cent of the total flow of the Indus basin rivers for its 26 million acres while Pakistan was to receive 80 per cent for its 39 million acres.

Despite the heavy casualties involved, India on March 22, 1954 accepted the principles of the Bank proposals in the interest of a speedy and constructive settlement of this protracted dispute. Pakistan, on the other hand, pleaded that insufficient technical study had been given to the problem and asked for more time and further technical study. Later on Aug. 5, 1954 the Pakistan Prime Minister announced conditional acceptance.

At the instance of the Bank, discussions were resumed in Washington on December 6, 1954 on the basis of certain new terms of reference, the starting point being the division of waters according to the Bank's original proposals of February, 1954.

A mission from the Bank visited India and Pakistan in March and April, 1955, and toured the areas concerned in both countries together with Indian and Pakistani engineers and officials.

The Indian and Pakistani delegations continued to work, with the participation of the International Bank, on the preparation of a comprehensive plan, while interim arrangements providing for *ad hoc* transitional arrangements were renewed from time to time. The last of these was signed at the end of March 1959 to cover the period April 1, 1959 to March 30, 1960. The quantity allowed to be drawn by Pakistan was 6.5 million acre feet.

Discussion on the main issue was resumed when a Bank team headed by Mr. W. A. B. Illiff, Vice-President of the Bank, visited India and Pakistan in June 1957 and met the representatives of the two countries. As a result of these discussions, Mr. Illiff wrote to both sides a letter in which he set out certain general heads of agreement, based on the Bank Proposal of February 5, 1954 and on the Aide-Memoire dated May 21, 1956 as a firm starting point from which to proceed to the formulation of the detailed text of an International Water Treaty, and asked for the views, in writing, of the two Governments on these heads of agreement.

The two Governments indicated their views to the Bank and later furnished their comments on the views expressed by the other Government.

In January 1958, Mr. Illiff paid yet another visit to India and Pakistan, and made what was described as a fresh proposal. Mr. Illiff's approach envisaged the continuity of some supplies to Pakistan from the eastern rivers, allocated to India under the bank proposal of February, 1954, and withdrawal by India of an equivalent quan-

tity from the western rivers allocated to Pakistan. Some of the waters in the Upper Chenab could be diverted through the Marhu tunnel project into the Ravi and thereafter into the Beas through the existing Mahdopur-Beas link. This would enable India to release a corresponding quantum of water. This would result in a better utilization of water and at less cost. But the talks did not lead to any concrete agreement.

Further talks were held in Rome in April-May, 1958 on an invitation from Mr. Illiff. As a result of these talks the Bank suggested a new approach on the basis of which the Pakistan representative was asked to put up a replacement plan for all Pakistan uses from the three western rivers, with all the storage on her own territory.

As decided at the meeting held in Rome, the Pakistan representative submitted a plan to the Bank at a meeting held in London towards the beginning of July 1958. The Pakistan Plan was subsequently handed over to the Indian representative who, after a preliminary examination of the plan, obtained certain clarifications and asked for some additional information. The talks in London were accordingly adjourned on 31st July, 1958.

AD HOC ARRANGEMENTS

In the middle of 1958 there was a good deal of propaganda in Pakistan, alleging withdrawal by India of what was described as "Pakistan's share of the historic supplies" from the Sutlej and the Beas rendering 2.5 mln. acres dry. Pakistan also complained to the World Bank to which Mr. Nehru replied. The allegations were completely baseless and without foundation. The correct position was that in early *Kharif*, the river Beas is the only source of supply for all the Sutlej Valley canals in Pakistan and the Eastern and Bikaner Canals in India. The supplies in the river Beas were unusually low in 1958 from about the middle of May. In fact the quantity of water towards the end of May was hardly half of the average of the previous 10 years. The other eastern rivers, the Sutlej and the Ravi, were also running considerably below normal. As a consequence, some of the channels in India did not receive any water and in some areas even drinking water was not available. There were complaints from Amritsar, Gurdaspur, Ludhiana and Ferozepur. The Bhakra canals were closed for two months. Nevertheless the supply to Pakistan channels was continued in accordance with the principles put forward by the World Bank for the transition period.

In answer to a complaint from the Pakistan Prime Minister Mr. Nehru suggested that the exchange of data discontinued by Pakistan in March 1957 should be resumed.

As mentioned before the supply of water to Pakistan from the eastern rivers was regulated by *ad hoc* Agreements concluded between the two Governments. India was entitled, under these Agreements, to make additional withdrawals from the eastern rivers, equivalent to Pakistan's ability to replace these withdrawals through the link canals. The additional withdrawals made by India this particular year during the latter part of May and early June, were in fact, less than those provided for in the Agreement for *Kharif* 1958 when Pakistan's ability to replace was less than what it was in 1958.

Three of these link canals, viz. Bambanwala-Ravi-Bedian-Divalpur, Mersala-Ravi and Ballok-Suleimanke have been completed at a cost of Rs. 25 crores to replace supplies to the extent of five million acre feet of water, and Pakistan was pressing India to pay her share of the cost. The balance of replacement was now for only another five million acre feet.

Under the Bank Proposal of February 1954, the transition period for the complete withdrawal of waters of the eastern rivers from Pakistan was roughly estimated to be about 5 years. This period expired some time in 1959. Notwithstanding the country's pressing needs, the Indian

Government, with a view to promoting a settlement, informed the World Bank and Pakistan that India would be prepared to extend the transition period upto 1962 by which time the country will be in a position to utilize the waters for the Rajasthan Canal Project and other projects.

The World Bank sent out a team comprising Mr. Larz H. Bengtson, General R. A. Wheeler and Mr K. Guinness to study the situation created by abnormally low supplies in the rivers Beas and Sutlej. The World Bank team visited certain areas in Pakistan and India with the participation of the Indian and Pakistan representatives, during June-July, 1958 and collected necessary data.

Meanwhile, the exchange of data initiated by India was continued.

Incidentally the position with regard to the payment of canal water charges by Pakistan is that upto Sept. 30, 1958 Pakistan owed India Rs. 27-81 lakhs undisputed charges and Rs. 97-19 lakhs disputed charges. The undisputed charges upto Sept. 1957 have been paid in full. The rest are under negotiation.

NEW PLAN

The Pakistan plan put forward at the London conference in July 1958 was reported to cost about Rs. 350 crores and would entail a transition of 12 to 15 years. India rejected the Plan both on grounds of cost and the very long transition, and put forward alternatives of her own later when the World Bank officials Mr. Black and Mr. Iliff came to India in Oct.-Nov. for the annual meeting of the World Bank and the International Monetary Fund. The cost of these substitute projects varied between Rs. 80 crores and Rs. 110 crores and all could be executed in four or five years. India offered to contribute roughly Rs. 70 crores. It was also

pointed out that the Pakistan plan was fantastic in its proportions. The whole canal system of the undivided Punjab cost around Rs. 40 crores. Allowing for higher costs the resultant figure would not even approach the one mentioned by Pakistan—Rs. 360 crores.

The scheme proposed by India envisages the construction of a tunnel—the Mahru Tunnel under the Rohtag pass—to divert the Chenab waters into the Indian river system and the connected storage works to be sited largely on Indian territory and the delivery of an equivalent amount into the Pakistani canal system at another convenient site.

Link canals would then be built in Pakistan to make a total of five million acre feet since links to provide five million acre feet have already been built. The total cost of all this would be Rs. 140 crores (tunnel and storage Rs. 90 crores, proposed links Rs. 25 crores, links already built Rs. 25 crores).

Another advantage of this was that since all the works would be on Indian territory the question of payment by one country to another would not arise.

Discussions continued in Washington in December when both India and Pakistan rejected each other's plans.

In a final bid to settle the question the Bank then formulated a scheme of its own apparently embodying features of both the Pakistan and Indian plans. The President and the Vice-President of the World Bank then paid a visit to the sub-continent in May 1959 for talks with India and Pakistan. The two Governments are reported to have agreed to the general principles of the new plan. The only problem seemed to be finance and the Bank officials were hopeful that friendly Governments could be persuaded to share in the costs. The friendly Governments were the U.S., the U.K., Canada and Australia.

The entire cost of the scheme is reported to be about Rs. 125 crores and the time needed would not go far beyond 1962. The Mangla dam in occupied Kashmir to which India has strongly objected is reported to be part of the scheme. But storage scheme on the Beas on the Indian side costing Rs. 40 crores would also qualify for aid.

The chances of settlement are thus reported to be bright. The next stage would be a meeting in London at which the scheme might be finalised.

The contribution that India has to make towards the replacement works in Pakistan and the period for which she will supply water to Pakistan beyond 1962 will have to be settled first during the London talks before the parties proceed to draft the heads of agreement for an international water treaty between the two countries.

These two matters have hitherto defied solution but no insurmountable difficulties are expected to be experienced as the World Bank has offered a package deal to Pakistan.

The package deal as already mentioned envisages a contribution by India for the replacement works, aid by a number of friendly countries and a huge loan to Pakistan for developing the Indus basin in her territory. Even if India's contribution to the replacement works falls short of Pakistan's demand, the gap is likely to be made up by the aid from a number of friendly countries, including some Commonwealth nations.

Pakistan seems to realise that rejection of the World Bank's latest offer, might mean that she is unlikely to get such massive aid in future from a number of countries for developing her irrigation and power resources in her western wing. Therefore, Pakistan will pursue a conciliatory approach in considering the World Bank's latest plan.

CRIME IN 1957

A marked drop in crime in the dacoit-infested areas of Uttar Pradesh, Rajasthan and Madhya Pradesh was registered during 1957.

While the total number of cognizable crime remained practically stationary compared to that of 1956—5,81,371 as against 5,85,217—there were six important heads which recorded general decline. The heads were: rioting; house-breaking; robbery; kidnapping and abduction; ordinary thefts, and cheating.

Cases of rioting, which had been registering a continuous rise since 1953, showed a drop of 3-18 per cent, from 24,700 in 1956 to 23,750 in 1957. Similarly, incidence of house-breaking came down to 1,29,632 in 1957 from 1,34,556 in 1956. The kidnapping and abduction, which had been going up since 1952, showed a drop of 1-4 per cent, that is, almost 85 cases less than for the year 1956.

In the States, the noticeable decline in cognizable crime was in Bombay, Madhya Pradesh, Uttar Pradesh and Madras. However, a rise was discerned in Kerala, Bihar, Mysore and Andhra Pradesh and some Union Territories.

REASONS FOR CRIME

While Kerala ascribed the increase to better reporting and widespread political and labour agitations, Bihar explained that the increase was due to acute economic conditions caused by early rains and subsequent continued drought. Delhi said the increase in figures was due to improved facilities for registration, the establishment of a number of new police stations, the rapid increase in the population and the presence of a large floating population.

No specific reasons were given by any State to explain the reasons for murders. The majority of cases were said to be due to family disputes, party feuds, sex intrigues and revenge and not for purposes of gain.

In the Punjab, however, a professional murderer with 30 murders to his credit was ultimately tracked down by sustained police efforts. All these murders were for gain and a lust for killing.

The incidence of crime in cities (with over one million population) was higher than in the rural areas. West Bengal, however, was a peculiar phenomenon. Here, the average came to 241-8 (calculated at one per 100,000 of population) for the State, but if Calcutta were to be excluded, the figure would rise to 243-4.

Cases pending investigation at the end of 1956 were nearly 54,000. Investigation was completed in about 4,93,000 cases in 1957. Of these, nearly 1,30,000 cases or 26-3 per cent ended in conviction and 75,215 or 15-2 per cent in acquittal or discharge.

The percentage of conviction in the country averaged 26-3. However, in four States and two Union territories it was more: Madras 45-4 per cent; Himachal Pradesh 45-1 per cent; Mysore 41-5 per cent; Andaman and Nicobar Islands 41-4 per cent; Andhra Pradesh 38-6 per cent and Punjab 30-5 per cent. In the larger cities it was 56-2 per cent in Bangalore; 49-7 per cent in Madras and 38-6 per cent in Kanpur.

Sixty-seven police officers and men were killed and 1,192 were injured during 1957 in the performance of their duty. The highest number killed was in the Naga Hills and Tuensang area 16; Uttar Pradesh 12; Bihar 7; Madhya Pradesh and Rajasthan 5 each. Among the injured Bombay, including Bombay City, contributed 459; Rajasthan 214; West Bengal, including Calcutta, 117; Bihar 107 and Madras 70.

Almost 200 condemned prisoners were extended pardon by the President in exercise of his prerogative between 1955-57.

In 1957 mercy petitions totalled 200, of which 80 were accepted. In 1956, clemency was shown to 68 prisoners from among 192 who

filed petitions. In 1955, 45 of the 190 condemned persons were pardoned.

SURVEY OF CRIME

During the year 1957, 5,81,371 cognizable cases were reported to the Police.

The cognizable crime reported every year since 1948 was as follows:—

1948 : 6,25,909; 1949 : 6,54,019; 1950 : 6,35,508; 1951 : 6,49,724; 1952 : 6,12,010; 1953 : 6,01,964; 1954 : 5,56,912; 1955 : 5,35,236; 1956 : 5,85,217; 1957 : 5,81,371.

In 1957 crime remained practically stationary compared to 1956.

CRIME UNDER DIFFERENT HEADS

The table below shows the number of cases reported during the year 1957 under the more important heads of crime and their variations from the corresponding figures of 1956:—

Head	1956	1957
Total cognizable crime	5,85,217	5,81,371
Murder	10,025	10,419
Kidnapping		
Abduction	5,905	5,821
Dacoity	5,397	5,560
Robbery	7,618	7,408
House Breaking	1,34,556	1,29,632
Thefts { Cattle	19,924	20,340
Ordinary	2,16,290	2,12,899
Rioting	24,700	23,750
Criminal Breach of Trust	15,466	15,362
Cheating	9,519	9,388
Counterfeiting	596	629
Miscellaneous	1,35,221	1,40,163

CRIME—BY STATE

The table below shows the incidence of reported crime in the various States and centrally administered areas of India during the year 1957 and its variations from the figures of 1956 and the volume of crime calculated according to the international standard of 1 case per 100,000 of population:—

State	Total cognisable crime		Volume of crime per 100,000 of population 1957
	1956	1957	
Andhra Pradesh	37,429	38,610	123.5
Assam	17,665	17,223	190.4
Bihar	56,802	62,668	161.6
Bombay	1,16,377	1,07,450	222.7
Jammu and Kashmir	3,567	3,624	82.2
Kerala	8,718	12,103	89.3
Madhya Pradesh	66,841	65,807	244.7
Madras	55,011	52,300	174.5
Mysore	22,493	24,051	124.0
Orissa	19,789	19,476	132.9
Punjab	19,578	19,058	118.1
Rajasthan	19,032	18,599	116.4
Uttar Pradesh	67,693	64,857	102.6
West Bengal	63,200	63,609	241.6
Union territories :			
Andaman and Nicobar Islands	139	170	548.8
Delhi	7,796	9,736	558.4
Himachal Pradesh	1,236	1,255	113.2
Manipur	815	1,013	175.3
Naga Hills and Tuensang Area	—	228	61.8
Tripura	1,036	1,534	240.1
Cities with population of over one million :			
Bangalore	3,903	4,234	543.6
Bombay	17,277	15,892	559.8
Calcutta	10,977	10,725	234.3
Delhi	7,796	9,736	558.4
Hyderabad	3,353	4,025	370.6
Kanpur	1,819	1,461	207.1
Madras	8,516	7,145	504.7

CASES—DETECTION, CONVICTION—BY STATE

Below we give a table showing the position about cases, their detection by category during 1957.

State	Cases reported	Cases not detected	Cases convicted	Cases acquitted or discharged
Andhra Pradesh	38,610	11,207	11,272	5,425
Assam	17,223	7,509	2,999	2,294
Bihar	62,668	35,532	5,217	6,135
Bombay	1,07,450	47,767	23,331	13,348
Jammu and Kashmir	3,624	1,205	202	654
Kerala	12,103	1,091	3,806	6,312
Madhya Pradesh	65,807	31,407	15,066	5,581
Madras	52,300	16,094	20,461	7,852
Mysore	24,051	5,580	7,988	4,034
Orissa	19,476	8,009	3,484	2,160
Punjab	19,058	6,519	5,864	2,620
Rajasthan	18,599	6,475	3,375	2,488
Uttar Pradesh	64,857	31,332	15,112	7,997
West Bengal	63,609	36,074	8,404	6,983
Total	5,67,435	2,45,401	1,27,211	73,833
Union Territories :				
Andaman and Nicobar Islands	170	55	55	11
Delhi	9,736	5,139	1,653	746

Delhi	9,736	5,139	1,653	746
Madras	7,145	2,986	3,517	570

NOTES

Below we give brief notes on the crimes.

Under Murder there was an increase of 8.6 per cent over 1956, this being the second consecutive year to register an increase. The States that showed an increase were Kerala (54.2 per cent), Kashmir (35.4 per cent), Andhra (24 per cent) and Mysore (13 per cent). The majority of the cases were said to be due to family disputes, party feuds, six intrigues and revenge and not for purposes of gain. 16,971 cases were available for disposal in the year. Out of these 6,798 were sent for trial. 3,098 ended in conviction and 3,686 in acquittal or discharge. The percentage of conviction to true cases investigated was 33.2, and of persons convicted to those tried was 32.6.

Decency has shown an upward trend—an increase of 3 per cent over 1956. Large increases occurred in Bihar (48.8 per cent), Mysore (32.6 per cent), Kerala (29.4 per cent), Kashmir (15.1 per cent). Decreases were registered in the dacoit infested areas of M.P. (14.5 per cent), Rajasthan (33 per cent), U.P. (2.7 per cent). Bihar ascribed the increase to economic conditions, Assam and Manipur to Naga hostilities. Charge sheets were sent up in 2,367 cases. 1,038 ended in conviction and 1,319 in acquittal or discharge. The percentage of conviction to true cases investigated was 21.0. The percentage of persons convicted to those tried was 30.5.

The incidence of Robbery has shown a decrease of 2.8 per cent. Increases were however recorded in Kerala (60 per cent), Delhi (46.2 per cent), Himachal (28 per cent), Bihar (23 per cent), Kashmir (18.6 per cent). In the 2,979 charge sheets sent to court 1,300 ended in conviction, 1,556 in acquittal or discharge, and 123 were withdrawn. The percentage of conviction to true cases investigated was 21.7. 6,886 persons were sent up for trial. Of these 2,283 were convicted, 3,843 acquitted or discharged and cases against 260 were withdrawn.

In House-breaking there was a decrease of 3.7 per cent. The States that registered an increase were Tripura (103.6 per cent), Kerala (55.8 per cent), Andamans (54.5 per cent), Himachal (10.7 per cent), Delhi (15 per cent). Charge sheets were sent up in 33,807 cases. 22,525 ended in conviction, 9,054 in discharge or acquittal. The percentage of conviction to true cases investigated was 18.6, and to cases tried was 71.4. 30,503 persons were convicted, 19,236 were acquitted or discharged. The percentage of conviction to persons tried was 61.3.

Ordinary Thefts decreased by 1.6 per cent. Increase in ordinary thefts were however recorded in Tripura (40.5 per cent), Delhi (24.5 per cent), Himachal (20.2 per cent). The States that recorded more than 20,000 cases of ordinary thefts were Bombay (43,076), West Bengal (28,673), M.P. (25,475), U.P. (22,135), Madras (21,178). The percentage of theft cases convicted to those investigated was 27.9, to cases tried 77.8. The percentage of persons convicted to those tried was 69.2.

The number of theft cases reported and those undetected (shown in brackets) were: Andhra 13,769 (4,567), Assam 4,584 (2,473), Bihar 19,173 (10,283), Bombay 43,076 (25,511), Kashmir 484 (246), Kerala 2,598 (453), M.P. 25,475 (12,410), Madras 21,178 (7,566), Mysore 8,846 (2,465), Orissa 7,814 (3,843), Punjab 4,889 (2,541), Rajasthan 3,722 (1,568), U.P. 22,135 (12,652), W. Bengal 28,673 (10,348).

Riots: The rising trend in riots since 1953 was arrested during 1957 which registered a decrease of 3.8 per cent. The largest increase was in Kerala (83.5 per cent), Tripura (40 per cent), Manipur (35.2 per cent), Punjab (32.3 per cent). 13,166 cases were sent up for trial; 3,724 were convicted; 7,839 were acquitted or discharged. The percentage of conviction to true cases investigated was 22.2 and to cases tried 32.2. 1,12,745 persons were tried, of whom 28,915 were convicted; 70,373 were acquitted or discharged. The percentage of persons convicted to cases tried was 29.1.

CASES—DETECTION, CONVICTION—BY CATEGORY

Below we give a table showing the position in regard to detection and conviction of crime for 1957.

Classification	Cases reported during the year	Cases not detected	Cases convicted	Cases acquitted or discharged
Murder	10,419	2,526	3,098	3,686
Kidnapping and Abduction	5,821	1,323	1,013	1,486
Dacoity	5,560	2,569	1,038	1,319
Robbery	7,408	3,009	1,300	1,556
House-breaking	1,29,632	88,126	22,525	9,054
Cattle Theft	20,340	7,566	8,693	2,297
Ordinary Theft	2,12,899	1,07,834	50,188	14,362
Riot	23,750	3,604	3,724	7,839
Criminal Breach of Trust	15,362	4,156	4,605	2,375
Cheating	9,388	3,196	2,491	1,496
Counterfeit Coins	629	193	183	128

PREVENTIVE DETENTION

At the end of 1958, 72 persons were held under the Preventive Detention Act in the various States.

State-wise, individuals detained on December 31, 1958 were : West Bengal—52 ; Bombay—six ; Assam, Punjab, Madhya Pradesh and Delhi—three each, and Rajasthan and Andhra Pradesh one each.

Among the sixty-eight persons detained for reasons involving either the security of the State or the maintenance of public order, 52 were from West Bengal, four from Bombay, three each from Madhya Pradesh and Punjab, two each from Assam and Delhi and one each from Rajasthan and Andhra Pradesh.

Two persons in Bombay and one in Assam were detained to prevent them from acting in a manner prejudicial either to the defence of India, the relations of India with foreign powers or the security of the country.

One foreigner was under detention in Delhi.

CRIMES—BY STATE

The following table shows the position about cases reported and convicted for 1957.

State	Murder		Dacoity		Robbery		House Breaking	
	reported	convicted	reported	convicted	reported	convicted	reported	convicted
Andhra Pradesh	955	210	130	25	231	71	7,158	2,710
Assam	340	81	323	31	205	25	4,634	472
Bihar	880	145	1,862	168	974	77	23,013	903
Bombay	2,010	624	762	120	2,460	394	19,128	3,123

SOME CORPORATIONS

THE INDUSTRIAL CREDIT & INVESTMENT CORPORATION OF INDIA LTD.

(Union Bank Building, Apollo Street, Fort, Bombay 1.)

The Corporation was established in 1955 with the object of assisting industrial enterprises in the private sector by providing finance in the form of long or medium-term loans or equity participations, sponsoring and underwriting new issues of shares and securities, guaranteeing loans from other private investment sources, furnishing managerial, technical and administrative advice and assisting in obtaining managerial, technical and administrative services to Indian industry.

The Authorised Capital of the Corporation is Rs. 25 crores and Paid-up Capital Rs. 5 crores in five lakhs Ordinary Shares of Rs. 100 each. Of this, Rs. 2 crores are taken up by Indian institutional investors, Directors and their friends and associates, and Rs. 1.5 crores by the Indian public. British and American subscriptions to the Share Capital amount to Rs. 1 crore and Rs. 50 lakhs respectively.

The Government of India have advanced to the Corporation a loan of Rs. 7.5 crores, free of interest, repayable in 15 equal instalments, commencing after the expiry of 15 years from the date of the advance. The World Bank has placed at the disposal of the Corporation a loan of 10 million dollars in foreign currencies.

The Fourth Annual Report for the year ending 31st December, 1958, discloses that the Corporation sanctioned financial assistance of Rs. 1,337 lakhs consisting of Rs. 1,021 lakhs in one form or another and loans in foreign currency equivalent to Rs. 316 lakhs.

No. of Operations	Amount sanctioned (In Rs. lakhs)
11 Loans in Rupees	348
9 Loans in Foreign Currency (Rupee equivalent)	316
18 Underwriting of Ordinary and Preference Shares and Debentures	550
14 Direct Subscriptions to Ordinary and Preference Shares ..	123
	<hr/> 1,337

The accounts for the close of the year 1958 disclose a Net Profit of Rs. 25.22 lakhs, which together with the amount of Rs. 1.55 lakhs brought forward from the previous year makes a total of Rs. 26.77 lakhs. The Directors have proposed Rs. 5 lakhs for General Reserve and recommended a Dividend of 4 per cent (tax-free) absorbing Rs. 20 lakhs and leaving Rs. 1.77 lakhs to be carried forward.

Directors: G. L. Mehta (Chairman), Dr. Sir Arrot Ramaswami Mudaliar, Ardesahir Darabshaw Shroff, Kasturbhai Lalbhai, Russell G. Smith, Dharamsey Mulraj Khatau, J. D. K. Brown, W. G. Pullen, K. K. Birla, L. K. Jha, I.C.S. (Government Director), D. G. Moore, (Alternate Director for W. G. Pullen), Robert Weber (Alternate Director for R. G. Smith).

General Manager: H. T. Parekh.

THE INDUSTRIAL FINANCE CORPORATION OF INDIA

(Main Office: Reserve Bank Building, Parliament Street, New Delhi; Bombay Office: Liberty Buildings, 41-42, Marine Lines; Calcutta Office: P-11, Mission Row Extension; Madras Office: 38, Whites Road, Royapettah).

Authorized Capital: Rs. 10 crores.

Issued and Paid-up Capital: Rs. 5 crores.

Board of Directors: K. R. K. Menon (Chairman), V. P. Varde, S. V. Ramamurti, G. D. Ambekar, S. P. Virmani, C. C. Desai, S. C. Roy, M. C. Muthiah, S. K. Basu, B. Venkatasubbiah, L. K. Jha, I.C.S., R. M. Deshmukh, M.P., A. Bakshi.

General Manager: H. V. Venkatasubbiah.

Secretary: Dalip Singh.

Profit and loss account for the year ended 30th June, 1958:

Interest, Discount, Commission, etc.: Rs. 1,54,90,888.48.

Total expenses: Rs. 1,01,47,736.55.

Provision for Taxation: Rs. 25,21,428.09.

Net profit: Rs. 28,20,490.16.

The Industrial Finance Corporation was established in 1948 under the Industrial Finance Corporation Act of 1948, with the object of providing medium and long term loans to and subscribing to debentures of existing industrial concerns engaged in, or new ones proposing to engage in, (a) the manufacture or processing of goods, or the generation or distribution of electricity or any other form of power or mining or shipping or hotel industry; (b) guaranteeing loans raised by aforesaid industrial concerns which are floated in the public market and are repayable within a period not exceeding twenty-five years; (c) underwriting the issue of stock, shares, bonds or debentures by aforesaid industrial concerns; (d) guaranteeing deferred payments in respect of import of capital goods by aforesaid industrial concerns.

Total amount of loans sanctioned by IFC up to end of June 1958 exceeds Rs. 62.90 crores. Amount sanctioned in 1957-58 was about Rs. 8 crores.

Interest on loans is 7 per cent less rebate of 1/4 per cent for prompt repayment.

THE NATIONAL INDUSTRIAL DEVELOPMENT CORPORATION LTD.

(P.O. Box No. 458, Udyog Bhavan, King Edward Road, New Delhi).

The National Industrial Development Corporation Private Ltd., was incorporated on 20th October 1954 and was registered as a private limited company with an authorised capital of Rs. 1,00,00,000 of which 10,000 shares only of Rs. 100 each have been fully subscribed by the Government of India.

Chairman: Lal Bahadur Shastri; **Vice-Chairman:** Manubhai M. Shah.

The Directors of the Corporation include both Government officials and non-officials and are nominated by the Government of India.

Managing Director: Dr. A. Nagaraja Rao; **Secretary:** S. Gopalan.

The Corporation plans and formulates projects for the setting up of new industries or developing new lines of production. It also acts as the agency of Government for the grant of special loans for the modernisation and rehabilitation of the Jute Industry and the Cotton Textile Industry. Government have also decided to utilise the Corporation as an agency for advancing loans to units manufacturing machine tools.

During 1958 some of the projects for which preliminary studies had been carried out through the agency of the Corporation have advanced considerably, and at the end of the year a new Corporation was formed to implement the Foundry/Forge, Heavy Machine Building, and Mining Machinery Projects. In the case of the optical glass project a detailed project report has been commissioned. Satisfactory arrangements have been concluded in respect of foreign exchange requirements for all these projects.

Final arrangements were to be made for the manufacture of chemical intermediates required

for the drugs and dyestuff industries. The Corporation's studies into the projects regarding aluminium, synthetic rubber and tungsten carbide are now being followed up by the private sector with proposals for new installations and for extensions. The Corporation is continuing its studies into the manufacture of phosphorus, sulphur, newsprint and rayon grade pulp, as well as the negotiations for the establishment of a raw silk factory.

For the rehabilitation of the cotton textile industry, the Corporation sanctioned during the year 1958 loans totalling Rs. 2.5 crores, the corresponding figure for the jute industry being Rs. 2.32 crores. Disbursements during the year amounted to Rs. 86.5 lakhs and Rs. 1.67 crores respectively.

NATIONAL PROJECTS CONSTRUCTION CORPORATION

(E-8, Jhandewala Estate, New Delhi).

The Corporation, sponsored by the Union Ministry of Irrigation and Power, was set up in 1957 with an authorised capital of Rs. 2 crores and present paid-up capital of Rs. 64 lakhs.

The object was to undertake construction of large-scale works which private firms do not accept either because of the risks involved or because of lack of resources. It also aims at improving the quality of building, minimising misère or wastage of material such as cement or steel, and a fuller usage of manpower and material.

In 1957-58 the Corporation worked on aspects of the Chambal projects both in Rajasthan and M.P. costing Rs. 91 lakhs in Rajasthan and Rs. 118 lakhs in M.P.; seven miles of the right canal of the Chambal project in Rajasthan and 27 cross drainage and communication works, earthwork and lining of 15 miles of canals. About 40 per cent of the work was completed.

The Corporation's programme of work for 1958-59 includes construction of the Wazirabad Barrage, which will ensure the supply of good water to Delhi throughout the year. The total cost of the work to be constructed by the corporation on this barrage, excluding gates and gearing, is estimated at Rs. 60 lakhs, and it will be completed in seven or eight months before the beginning of the monsoon.

Later the Corporation was given the work of constructing the Kosi barrage and two head regulators of the canals in Bihar, which cost over Rs. 5 crores.

The construction of the Badua dam in Bihar State, costing Rs. 63 lakhs approximately, and of additional masonry works on the Chambal right main canal in Madhya Pradesh, costing Rs. 30 lakhs, have also been undertaken.

Though profit-making is not one of the objects of the Corporation, it has shown a net profit of Rs. 3.29 lakhs or 8 per cent of the value of work during the financial year 1957-58. A dividend of 2 1/2 per cent has been declared in favour of the Government of India and the State Governments, which have jointly contributed to its capital.

Moreover, as the Corporation's rates are lower than those tendered by the contractors, the project authorities will save 8.3 per cent on the value of the work done by it.

The total savings to Government on both counts will be of the order of about 14 per cent of the value of works.

One indirect benefit to the Government is a general fall in rates quoted by private firms in the areas where the Corporation is working.

Managing Director: R. K. Gupta.

Chief Engineer, Planning: A. N. Malhotra.

THE NATIONAL SMALL INDUSTRIES CORPORATION LTD.

(Rani Jhansi Road, P.O. Box No. 349, New Delhi).

A Government of India concern, started in February 1955.

Authorised capital : Rs. 50 lakhs.

Paid-up : Rs. 40 lakhs. All shares are held by the President.

Upto 31st March 1959, 2,101 applications covering 8,471 machines valued at Rs. 6,29,97,986 were accepted out of which 2,234 machines valued at Rs. 1,84,06,413 were delivered to the hirers on hire purchase basis.

Chairman : A. S. E. Iyer.

Directors : N. C. Kasliwal, M.P., G. L. Banerji (Secretary General, Federation of Indian Chambers of Commerce and Industry), Santosh Singh (Proprietor, National Chemical Industries, New Delhi), Mrs. Pupul Jayakar (Hony. Industrial Adviser, Textile Designs, New Delhi), Dr. P. C. Alexander, I.A.S. (Dy. Secretary to the Govt. of India, Ministry of Commerce and Industry, New Delhi), B. G. Mundkur (Managing Director, Indian Handicrafts Development Corporation Private Ltd., New Delhi), B. D. Kumar (Dy. Secretary to the Govt. of India, Ministry of Works, Housing and Supply, New Delhi), B. R. Murgal (Dy. Secretary to the Govt. of India, Finance Division, Ministry of Commerce and Industry, New Delhi), P. C. Basu (Managing Director).

Managing Director : P. C. Basu; *Manager (Projects and Hire Purchase Division)*, Sagar Chand; *Manager (Marketing Division)*, Baldev Singh; *Manager (Industrial Estate Division)*, V. Nehra; *Secretary*, S. K. Chakraborty.

Till 31st March, 1959, contracts valued at Rs. 3,24,14,404 were secured by the small scale units from the D.G.S. & D. with the assistance of the Corporation.

The Corporation is marketing the following small industry products under its JANSEVAK trade mark through wholesale depots:—

Leather footwear, paints, cottons and woollens, hosiery, pottery, glass beads, etc.

The construction of Industrial Estates at Okhla (near Delhi) containing 35 factories (first phase) and Naini (near Allahabad) containing 34 factories has been completed by the Corporation. The Okhla estate was transferred to the Delhi Administration on 1st April 1959.

The Corporation is also setting up two prototype production-cum-training centres, one at Okhla and the other at Rajkot in collaboration with the West German Government and the Technical Co-operation Mission of U.S.A. respectively. The centres would produce prototypes of machines for the purpose of commercial production by the small-scale units and impart training to small entrepreneurs.

THE REFINANCE CORPORATION FOR INDUSTRY (PRIVATE) LIMITED

(P.O. Box No. 1241, Reserve Bank Building, Bombay 1).

The Corporation was established on 5th June 1958 mainly with the object that the American counterpart funds of \$ 55 million (about Rs. 26 crores) earmarked for re-lending to private enterprise in India may be channelled through it.

The Corporation will augment the resources available for the use of medium-sized industrial units in the private sector by providing re-financing facilities to its member banks against medium-term loans granted by them to concerns under this category.

The authorised capital is Rs. 25 crores.

The size of each share is Rs. one lakh and the names of the share-holders are as follows:

Reserve Bank of India; Life Insurance Corporation of India; State Bank of India; Central Bank of India Ltd.; Punjab National Bank Ltd.; Bank of India Ltd.; Bank of Baroda Ltd.; National and Grindlays Bank Ltd.; United Commercial Bank Ltd.; Lloyds Bank Ltd.; Allahabad Bank Ltd.; Chartered Bank; Indian Bank Ltd.; United Bank of India Ltd.; Mercantile Bank Ltd.; Devikaran Nanjee Banking Co. Ltd.; State Bank of Hyderabad.

Upto the end of April 1959 the Corporation received 10 applications for refinance from four member banks for a total sum of Rs. 270.50 lakhs.

Eight applications were approved and two were under consideration.

The total amount of loans approved was Rs. 243 lakhs, and the amount disbursed was Rs. 50 lakhs.

The income of the Corporation for the period ended 31st December 1958 was Rs. 14,09,311.27.

The expenditure was Rs. 2,82,429.06.

Loans given by the member banks, to be eligible for assistance from the Corporation, must be for medium-sized industrial concerns for amounts not exceeding Rs. 50 lakhs in any one case and the period of the loans should not be less than three years or more than seven years. These facilities will be available only to industrial concerns whose paid-up capital and reserves (excluding reserves for the payment of taxes and normal depreciation reserves) do not exceed Rs. 2½ crores in any particular case.

Loans must be for the purpose of increased production, primarily in industries included in the Second Five-Year Plan and succeeding Plans.

Board of Directors : H. V. R. Iengar (Chairman), P. C. Bhattacharyya, P. A. Gopalakrishnan, B. Venkatappaiah, N. K. Karanjia, F. E. H. Goddard, S. T. Radasivan.

General Manager : T. K. Ramasubramaniam.

THE STATE TRADING CORPORATION OF INDIA LTD.

(New Delhi).

Incorporated on 18th May, 1956.

The authorised capital is Rs. five crores, 5,00,000 equity shares of Rs. 100 each.

The subscribed capital is Rs. two crores. Two lakh equity shares of Rs. 100 each.

The President of India holds all the shares excepting two held by the Managing Director and the Chairman in their official capacity.

The objects of the Corporation are mainly to export from and import into India and to deal in such goods and commodities as the Board of Directors may from time to time determine.

The total value of the business contracted for exports and imports is Rs. 23.45 crores and 16.66 crores respectively for the calendar year 1958.

Export business was done in the following commodities: shoes, coffee, opium, sandalwood oil, handloom fabrics, handicrafts, jute bags, coir products, sugar, raw wool, cotton waste, gray dull, cotton yarn, salt, iron ore, manganese ore, chrome ore, anarona seeds, glycerine, hemp.

The countries with which the export business was done were: U.S.S.R., Czechoslovakia, U.S.A., Japan, E. Germany, W. Germany, Italy, Hungary, U.K., France, Belgium, Holland, China, Switzerland, Indonesia, Viet Nam, Rumania, Poland, Yugoslavia, Cambodia, Bahrain, Ceylon, Pakistan.

Items in which business of more than a crore were transacted were iron ore (Rs. 11.02 crores), manganese ore (Rs. 6.79 crores), caustic soda, ammonium sulphate, ammonium nitrate, machinery, cement.

Countries with which business of more than a crore was transacted were Czechoslovakia, U.S.A., U.K., U.S.S.R., Japan.

Import business was done in the following commodities: ammonium sulphate, cement, raw silk, skimmed milk, rice, caustic soda, soda ash, printing machinery, tractor, earth moving machinery, zinc, aluminium, textile machinery, B.T. insulators, scientific instruments, machine tools, various items of machinery, raw films, newsprint, ammonium sulphate, ammonium nitrate, muriate of potash, potassium chlorate, sodium bi-carbonate.

The countries with which the import business was done were: Japan, U.S.A., Viet Nam, China, U.S.S.R., G.D.R., Rumania, Czechoslovakia, United Kingdom, Bulgaria.

Items in which business of more than one crore was transacted were: ammonium sulphate (Rs. 1.72 crores), caustic soda (Rs. 1.76 crores), copper (Rs. 1.06 crores).

Countries with which business of more than one crore was transacted were: Poland, China, G.D.R., Czechoslovakia, U.K., U.S.S.R., Yugoslavia, Pakistan.

Regional offices of the Corporation have been opened at Calcutta, Bombay, Madras and Vishakhapatnam and sub-offices at Kakinada, Masulipatam, Kandla, Cochin and Nagpur.

Board of Directors : K. B. Lall, I.C.S. (Chairman), D. Sandilya (Managing Director), V. N. Rajan, I.C.S., Nagendra Singh, I.C.S., K. L. Ghel, I.A.S., Gurban Singh, N. N. Kashyap, I.C.S., H. R. Diwan, S. Ratnam, B. B. Saksena, S. V. Kanungo.

Secretary : K. N. Sinha, I.A.S.

Financial Adviser & Chief Accounts Officer : A. N. Kaul.

General Manager (Ordn) : B. K. Kochar.

Divisional Manager (Ordn) : B. B. Nag.

Divisional Manager (B & T) I : K. K. Nasta.

Divisional Manager (B & T) II : M. M. Saklani.

Divisional Managers (B & T) : H. K. Mathur, A. S. Sharma.

Divisional Manager (D & S) : S. N. Sen.

Chief of R. & S. Div. : R. C. Dube.

Director, Movement : C. D. Chatterji.

Addl. Divisional Manager : A. Nanu.

Regional Managers :

Regional Manager, Madras : E. C. Sankar.

Regional Manager, Bombay : B. N. Samarth.

Regional Manager, Calcutta : B. C. Mallik.

* German Democratic Republic.

DECIMAL COINAGE

DECIMAL coins were introduced in India with effect from 1st April 1957.

Current coins will continue to be legal tender for about three years after the introduction of the new coins.

During this period they will be gradually withdrawn from circulation.

The rupee coin is divided into 100 equal units and the unit designated Naya Paisa. Thus 100 naye paise make one rupee.

The new series have the following units one naya paisa, two naye paise, five naye paise and ten naye paise.

Later twenty-five naye paise, fifty naye paise and the new rupee coins will be issued.

The new coins are issued to the public through the Reserve Bank, the State Bank offices, treasuries and sub-treasuries.

The gross weight of one naya paisa coin is 23.15 grains. The composition (proportion of metals) of the coin is: 97 per cent copper, 2½ per cent zinc and ½ per cent tin. The diameter of the coin is 0.630".

GOVERNMENT ACCOUNTS

Government accounting with effect from 1st April, 1957 has been in terms of rupees and naye paise.

The State Bank and joint stock and co-operative banks also switched over to decimal accounting from 1st April 1957.

All chalangis in support of money tendered in payment of Government dues are, therefore, being expressed in new coinage. Similarly, all bills for withdrawals are expressed in terms of rupees and naye paise.

The forms of bills, chalangis and other books of account used by Government Departments are revised to provide only two columns to show rupees and naye paise separately. Until, however, the new forms and bills are printed, the existing ones will be suitably adapted for use.

A sum of Rupees 25 and five naye paise is written as Rs. 25.05 (and not Rs. 25.5) Rupees 25 and 50 naye paise as Rs. 25.50 (not Rs. 25.5); and Rupees 55 and 83 naye paise is written as Rs. 55.83.

For entering an amount of Rupees 25 and five naye paise, in forms providing for separate columns for rupees and naye paise, 25 are entered in the Rs. column and 05 in the naye paise column.

Amounts expressed in annas and pies are converted into whole numbers of naye paise according to the conversion table before they are entered in the books. The abbreviated form to be used for naye paise/paisa is nP.

Rounding off is made only at the stage when payment or tender of money takes place. In agreements, enactments, etc., where rates are specified, the rounding off should be made only in respect of the total amount payable, or receivable in a single transaction, and the amounts specified in rupees, annas and pies in financial sanctions, rules, orders, notifications, contracts, deeds or other enactments are automatically construed as expressed in terms of equivalent value under the decimal system without any rounding off.

While payment of Government dues is accepted in whatever currency it is made, every endeavour is made to make payment of Government dues only in new coins.

In order to enable the public to understand rightly the relationship of each new coin to the rupee the number of such coins required to make one rupee is indicated on the coins themselves. Thus the coin representing one naya paisa has a legend, "rupee ka sauwan bhag" (hundredth part of a rupee), embossed on it.

Similarly, 2, 5, 10, 25 and 50 naye paise units indicate that they represent 1/50th, 1/20th, 1/10th, 1/4th and one-half parts respectively of the rupee.

The design and composition of the new currency units are as follows:

The obverse sides of all the new coins have the design of the lion capital of the Asoka pillar with the terms "Bharat" in Hindi and "India" in English inscribed on them.

The reverse sides of all the new coins indicate the year in which the coins are produced and their value in naye paise specified in international numerals.

The 100 naye paise, 50 naye paise and 25 naye paise are of pure nickel while 10, 5 and 2 naye paise coins are of cupro-nickel alloy (75 per cent copper and 25 per cent nickel). The one naya paisa coin is of bronze.

After the people have got accustomed to the use of the new coinage and sufficient quantities of new coins have been put into circulation, the existing coins which continue to be legal tender after April 1, 1957, will be withdrawn.

Coins of the denominations of two annas and under are being withdrawn first, as decimal coins of ten naye paise and below are put in circulation in sufficient quantities at the initial stages.

According to the rate of exchange prescribed in the Indian Coinage (Amendment) Act 1955, there is no exact equivalent in naye paise in respect of coins of two annas and below and their change individually, or in combination with other coins, results in a small profit or loss in the aggregate to either of the parties exchanging the coins.

This element of profit or loss occurs as long as the existing coins continue to circulate,

but it will diminish progressively as increasing quantities of new coins enter into circulation.

The public can, however, keep down to the minimum the element of profit or loss in exchange of coins by having their holdings of existing coins exchanged for new ones by tendering amounts in terms of four annas and multiples thereof, for which exact equivalents in terms of new coinage exist.

The mintage of coins by denominations during 1957-58 is as follows:

		Rs.
Cupro-nickel 10 nP	..	1,55,04,000
" 5 nP	..	1,09,31,750
" 2 nP	..	64,36,800
Bronze 1 nP	..	35,01,600
Total	..	3,57,74,249

By the end of March, 1958 new coins of the value of about Rs. 2.56 crores were put into circulation. This included one naya paisa coins of the value of Rs. 38.69 lakhs, two naye paise coins of the value of Rs. 35.70 lakhs, five naye paise coins of the value of Rs. 61.21 lakhs and ten naye paise coins of the value of Rs. 120.28 lakhs.

Old coins of the value of Rs. 2.1 crores were withdrawn during the period April 1, 1957 to the end of February, 1958.

During 1958-59 decimal coins of the value of Rs. 3.44 crores were expected to be minted and put into circulation.

CONVERSION TABLE

The conversion table gives the exchange value in Naye Paise (rounded off in the manner prescribed in section 14 (2) of the Indian Coinage Act, 1955 as recently amended) for amount tendered in annas/pies coins. The exact Naya Paisa equivalent of the total amount to be converted is rounded off by ignoring fractions of ½ Naya Paisa and below, and treating more than ½ Naya Paisa as 1 Naya Paisa.

OLD COINS			NEW COINS		
Annas	Pies	Naye Paise	Annas	Pies	Naye Paise
0	3	2	8	3	52
0	6	3	8	6	53
0	9	5	8	9	55
1 Anna		6	9 Annas		56
1	3	8	9	3	58
1	6	9	9	6	59
1	9	11	9	9	61
2 Annas		12	10 Annas		62
2	3	14	10	3	64
2	6	16	10	6	66
2	9	17	10	9	67
3 Annas		19	11 Annas		69
3	3	20	11	3	70
3	6	22	11	6	72
3	9	23	11	9	73
4 Annas		25	12 Annas		75
4	3	27	12	3	77
4	6	28	12	6	78
4	9	30	12	9	80
5 Annas		31	13 Annas		81
5	3	33	13	3	83
5	6	34	13	6	84
5	9	36	13	9	86
6 Annas		37	14 Annas		87
6	3	39	14	3	89
6	6	41	14	6	91
6	9	42	14	9	92
7 Annas		44	15 Annas		94
7	3	45	15	3	95
7	6	47	15	6	97
7	9	48	15	9	98
8 Annas		50	16 Annas		100

Rounding off as has been done in the conversion table is necessary only at the end of a transaction when any amount due in annas and pies is to be converted into Naye Paise.

You can make payment either in new coins or in old coins or by a combination of both according to the coins available with you.

The conversion table is, therefore, to be used only at the end of a transaction when payment has to be made or change has to be given.

EVENTS OF THE YEAR (1st June 1958—31st May 1959)

JUNE

2: An Indo-Soviet Agreement for the operation of a weekly air service between New Delhi and Moscow is signed.

3: The Vivian Bose enquiry into the L.I.C. deal with Mr. Mundhra starts in New Delhi.

3: Seven Indian policemen are killed when Pakistani Police opened fire near Fazilka.

4: A three-man Indian mountaineering team successfully climbs the 23,000-foot Mount Trisul in the Garhwal range.

6: The U. S. Senate accepts a resolution favouring long-term and expanded U.S. economic assistance for India.

9: A joint Indo-Pakistan enquiry into the Fazilka incident starts.

11: The Kashmir Treason Case opens at Kurd.

12: The joint enquiry into the Fazilka incident ends.

15: A nation wide port and dock workers' strike begins.

16: The police open fire on striking dock workers in Madras. Five killed and fifty injured.

20: Representatives of India and Pakistan submit divergent reports to their respective Governments on the Fazilka incident.

22: Mr. Feroze Khan Noon, Prime Minister of Pakistan declares that the Pakistan Government would prevent all attempts by Pakistanis to cross the cease-fire line in Kashmir.

25: The strike of port and dock workers is called off.

An agreement is signed between India and the U.S. under which India will get a loan of 20 million dollars from the U.S. for developing iron ore mines in Orissa.

28: Pakistan police intercept the march of groups of Pakistanis across the cease-fire line into Kashmir.

30: A joint management council is inaugurated at the Hindustan Machine Tools Factory, Bangalore—the first experiment in workers' participation in management in the public sector.

JULY

1: A direct cargo service between India and the U.S.A. is inaugurated in Calcutta.

3: A reduction in excise duty on coarse and medium cloth is announced to help the textile industry.

16: The first ship built by the Hindustan Shipyard for the Indian Navy is launched.

20: The Government of India decides to accept the pay scales recommended in the Chaudhuri report for port and dock workers.

25: The Indian Institute of Technology, Bombay is inaugurated.

Pakistan rejects India's protest on the border incident near Fazilka.

AUGUST

7: Pakistan forces occupy Tukergam, a village on the Assam border.

9: The Prime Minister of Pakistan appeals to Mr. Nehru to bring about peace on the border.

11: Mr. Nehru in a statement in the Lok Sabha offers to discuss border disputes with the Pakistan Prime Minister.

East Pakistan Government seals the border between Sylhet and Khasi-Jaintia hills.

12: Disturbances break out in Ahmedabad as the police remove 'martyrs' memorial'. Twenty-four hour curfew is imposed on the city.

13: The Government of India demands the vacation of aggression from Tukergam.

Demonstrators and police clash in Ahmedabad and police open fire.

14: Direct air service between Delhi and Moscow is inaugurated.

15: The Maithon Hydel Power station of the D.V.C. is inaugurated.

17: Pakistan re-opens East Pakistan-Tripura border traffic.

22: A private limited company 'Indian Refineries' is registered in New Delhi.

25: The Supreme Court rules that the defilement of idols is a punishable offence.

27: International talks on India's balance of payments position are held in Washington under the presidency of the President of the World Bank.

28: U.S., Britain, Canada, W. Germany, Japan and the World Bank in Washington jointly decide to under-write India's foreign currency deposit.

30: An Indo-Pakistan conference at Secretariat level on border disputes begins in Karachi.

SEPTEMBER

1: Failure of the Indo-Pakistan Conference at Secretariat level on border disputes is announced.

9: The Indian and Pakistani Prime Ministers begin discussions in New Delhi on the Indo-Pakistan border dispute.

First coke oven battery is lit at Bourkela. The U.S. announces a loan of 303 million dollars to India.

11: A joint communique on the border talks between the two Prime Ministers reveals that all border disputes are settled except two in the eastern region and five in the western region.

12: It is announced that oil has been discovered in the Cambay region of Bombay.

16: The Prime Minister leaves New Delhi on a four-day visit to Bhutan.

17: The Lok Sabha passes the Merchant Shipping Bill.

23: The President leaves New Delhi for Calcutta on his way to Japan.

OCTOBER

1: The metric system of weights and measures is introduced.

2: The Prime Minister returns to New Delhi from his Bhutan visit.

5: The President returns to New Delhi after his eight-day State visit to Japan.

6: The Prime Minister opens the 13th annual session of the International Monetary Fund, the World Bank and the International Finance Corporation in New Delhi.

8: The Executive Council of the Banaras Hindu University announces the closure of the University.

The Prime Minister inaugurates the India-1958 Exhibition in New Delhi.

10: A new blast furnace, one of the biggest in the world, is commissioned at the Tata Steel Works at Jamshedpur, Bihar.

30: Rumania sends experts to work on the construction of an oil refinery in Assam.

NOVEMBER

5: Three Ministers of State and four Deputy Ministers in the U.P. cabinet tender joint-resignations to the Chief Minister.

8: The National Development Council meets in New Delhi.

10: Oil is struck at Vadser near Baroda.

12: An Indian, Mr. Satyajit Roy, wins the award for direction for his picture, 'Aparajito' at the San Francisco International Film Festival.

16: Sardar From Singh Lalpura, a Congressman, is elected President of the Shikharani Gurdwara Prabandhak Committee, defeating Master Tara Singh, the Akali leader.

A trade agreement is signed between India and the Soviet Union.

17: The U.P. Ministry is reshuffled following the resignation of nine members of the Government.

18: The Prime Minister of Canada Mr. John Diefenbaker arrives in New Delhi on a seven day visit.

DECEMBER

2: The first test match between India and the West Indies in Bombay ends in a draw. The match began on Nov. 28.

3: The President leaves on a two-week tour of Malaya and Indonesia.

10: The U.N. Assembly endorses its Special Political Committee's resolution appealing to South Africa to negotiate with India on the treatment of persons of Indian origin in South Africa.

11: Mr. Wilson Jones wins the World amateur billiards title for India in Calcutta.

12: The Chief Justice of the Supreme Court upholds the view that State legislatures and Parliament have the right to prohibit the publication of any debate or proceedings of the House.

13: The Congress Working Committee decides that legislation on land reform in States must be completed by the end of 1959.

17: The West Indies win the second Test against India in Kanpur.

19: The President returns to India from his twelve-day State visit to Malaya and Indonesia.

22: The Prime Minister of Ghana—Dr. Kwame Nkrumah, arrives in Bombay on a fortnight's visit to India.

The Indian film 'Pather Pancholi' is named the best foreign film of 1958 by the National Board of Review of Motion Pictures in New York.

27: Remnants of Puthkalavati, capital city of the Gandharas, who ruled 2500 years ago parts of the country in the north-west of India are discovered as a result of the excavations at Charsadda near Peshawar.

29: The West Bengal Assembly disapproves of the Nehru-Noon agreement for the transfer of the Berubari Union in Jhalpaiguri District to East Pakistan.

30: Master Tara Singh, the Akali leader, presents a memorandum on the Gurdwara Amendment Bill to the Prime Minister.

31: The Punjab Assembly passes the Sikh Gurdwara Amendment Bill.

JANUARY, 1959

1: State trading in foodgrains begins in Orissa.

Britain's agreement with India to give India a loan of £28,500,000 in the form of a credit under the Export Guarantees Act of 1948, signed on Dec. 20, is made public.

4: West Indies win Third Test Match against India in Calcutta by an innings and 336 runs.

9: The 64th annual open session of the Indian National Congress opens at Abhyankarnagar in Nagpur. The President Mr. U. N. Dhebar asks people to meet the challenge of a planned economy.

11: The 64th session of the Indian National Congress ends.

12: The Tata Iron and Steel Company sets up a Joint Consultative Council of Management associating employees with the management at the top level.

East German Premier arrives in New Delhi.

15: In accordance with the terms of the Nehru-Noon agreement some firm land at Sarandajpur in Rajshahi District in East Pakistan is transferred to India, and some char land in Murshidabad District is transferred to Pakistan.

16: Mr. M. O. Mathai, the Special Assistant to the Prime Minister, resigns his post to be able to answer charges made against him over the formation of a trust in his mother's name.

17: The President promulgates an ordinance—the Indian Income-tax Amendment Ordinance, 1959—to deal with concealed income cases.

21: The Indian Science Congress opens at Delhi University.

The Duke of Edinburgh arrives in India, lands in Agra instead of Delhi because of fog.

The Fourth Test between India and West Indies opens in Madras.

24: At a meeting in Hyderabad dissident Congressmen of Andhra decide to quit the Congress and form a new political party.

25: The country celebrates Republic Day.

28: The Industrial Court in Bombay rejects an application made by the Millowners' Association pleading for a one-third cut in the dearness allowance paid to cotton textile workers.

30: Country observes Martyrs' Day.

FEBRUARY

1: The first volume of Maulana Azad's biography entitled 'India Wins Freedom' is published.

2: The Indian Institute of Science, Bangalore, celebrates its golden jubilee. The President inaugurates the celebrations.

Mrs. Indira Gandhi is elected President of the Indian National Congress for 1959-61.

3: The Bourkela steel plant in the public sector starts production. The President performs the formal opening ceremony.

4: Bhilai steel plant starts production; is inaugurated by the President.

6: The fifth and final Test between India and West Indies opens in New Delhi.

7: A press communique on the talks between the Indian and the Afghan Prime Ministers in New Delhi says that the two are agreed in the rejection of military pacts.

8: Mrs. Indira Gandhi assumes office of Presidentship of the Congress.

9: The budget session of Parliament opens with an address by the President.

11: The final cricket Test between India and the West Indies ends in a draw in New Delhi.

12: A new aluminium smelter opened at Hirakud in Orissa with an installed capacity of 10,000 tons per annum.

A Democratic Party is formed by dissident Congressmen in Andhra after a convention at Vijayawada.

14: The Shiromani Akali Dal decides to abrogate the Congress-Akali pact, and revive political activity.

17: The Government of India orders an investigation into what had come to be known as the Mathal affair.

18: The production of a cheap and effective oral contraceptive at the Calcutta Bacteriological Institute is announced.

'Oil India' a partnership company of the Government of India and the Burmah Oil Company is incorporated in Shillong.

23: The Orissa Government is defeated in the Assembly on a snap vote. The Government motion seeking leave to introduce the Orissa Municipal Election Validation Bill, 1959, is lost by 43 to 51.

A one-man enquiry commission (Mr. P. C. Choudhry) submits an interim report on transactions relating to allotment of evacuee agricultural land in the Punjab. The report estimates that the Government has suffered a loss of several crores of rupees as a result of shady transactions.

24: A five-man Soviet delegation headed by Mr. A. A. Andreyev, member of the Presidium

of the Supreme Soviet arrives on a three-week goodwill visit to India.

The Report of the Committee of Privileges on the alleged contempt of the House by the Chief Minister of Kerala Mr. Namboodripad—is debated in the Lok Sabha and it is decided no further action is called for in view of the Committee's recommendations.

25: The report by the Law Commission on the 'Reform of the Judicial Administration' is published.

28: The annual budget of the Government of India for 1959-60 is presented to Parliament by the Finance Minister Mr. Morarji Desai.

MARCH

2: At a meeting of the Export Promotion Advisory Council, the Minister for Commerce and Industry issues a warning that if industry did not respond better to export incentives Government might be forced to embark on a scheme of compulsory exports.

The Rajya Sabha drops the charge of contempt of Parliament against Mr. M. O. Mathal on the latter's tendering an unqualified apology.

5: The U.S.-Pakistan Military Pact is signed in Ankara.

12: Master Tara Singh is arrested at Amritsar under the Preventive Detention Act and taken to Dharamasala.

13: The President, Dr. Rajendra Prasad, leaves New Delhi for Calcutta en route to Indo-China States on a twelve-day official visit.

19: Master Tara Singh tells Mr. Nehru that unless he receives a reply to his letter of March 14 by 10 A.M. on March 24 he would go on a fast unto death. The letter of Mar 14 carried a plea for the appointment of an arbitrator to enquire into the charge that the new Gurdwara Act made interference in the religious affairs of Sikhs possible.

There is news of a revolt of the Tibetans against the Chinese authorities in Tibet.

21: Master Tara Singh is released from Yole Camp and driven to Amritsar.

22: There are reports that the Tibetan revolt is at an end.

28: The Lok Sabha passes a resolution unanimously by voice vote favouring co-operation in the agrarian sector.

APRIL

2: The Government of India's plan for State trading in food grains is outlined by Mr. Jain, the Minister for Food at a meeting of the National Development Council.

The Revenue Minister of U.P. Mr. Charan Singh resigns.

3: Mr. Nehru announces the arrival of the Dalai Lama in India.

The National Development Council adopts the scheme for State trading in food grains at a meeting in New Delhi.

5: The Dalai Lama reaches Tawang in NEFA.

6: Master Tara Singh, President of the Shiromani Akali Dal, informs the Prime Minister of his decision to undertake a fast unto death from April 16 in New Delhi.

10: An Indian Canberra jet bomber is shot down by Pakistani jet fighters at Gujar Khan, 40 miles south of Rawalpindi at an altitude of 50,000 ft. Two members of the crew, S-Ldr. J. C. Sengupta and F-Lt. S. N. Rampal bale out and sustain injuries. They are taken to a Rawalpindi hospital.

11: India lodges protest with Pakistan over the air incident of April 10.

12: Master Tara Singh decides not to go on a fast unto death after a meeting with Mr. Nehru at which an agreement is arrived at.

S-Ldr. J. C. Sengupta and F-Lt. S. N. Rampal, the wounded airmen are brought to Delhi.

The Dalai Lama arrives in Bomdila.

18: The Dalai Lama hands in a written statement to the press at Tezpur on Sino-Tibetan relations and his escape from Tibet. China has broken the 17-point agreement with Tibet. Also, the Dalai Lama has come to India of his own free will.

20: Mr. Nehru makes a statement in the Rajya Sabha that the Dalai Lama would be free to carry on his religious activities. 'But political activities are not carried on from one country against another'.

27: Mr. Nehru states in the Lok Sabha that 'some thousands' of Tibetans have crossed into NEFA and some hundreds into Bhutan.

The foundation stone of the Kosi barrage scheme is laid by the King of Nepal.

MAY

1: The Ganga Bridge at Mokameh in Bihar is opened by Mr. Nehru. It is the longest bridge constructed in post-independence India. It links north and south Bihar.

3: It is reported that the Geological Survey of India has discovered a rich coal deposit at Sangrauni in Madhya Pradesh to the south of the Riband Dam.

7: Mr. M. O. Mathal who was special Assistant to the Prime Minister is cleared of the charge that he made improper use of his official position. A summary of the report made by the Cabinet Secretary, Mr. Vishnu Sahay is presented to the Rajya Sabha by the Prime Minister.

22: A new three-member Ministry is sworn in in Orissa. It is formed through a coalition of the Congress and the Ganatantra Parishad. The Chief Minister is Dr. Harekrushna Mahatab and the other two are Mr. R. N. Singh Deo and Mr. Radhanath Rath.

26: It is reported that in the Mundhra deal enquiry the Government of India has accepted the findings of the U.P.S.C. which has exonerated Mr. H. M. Patel of the charges preferred against him and has mildly censured Mr. G. R. Kamat for not exercising due care.

29: The recommendations of the Wage Committee for Working Journalists as well as the fact of Government acceptance are published in the Government of India Gazette.

31: The report of the Vivian Bose enquiry, the U.P.S.C. report and the Government decisions on the role of three officers in the L.I.C. deals with Mundhra are published. Mr. H. M. Patel is exonerated while Mr. G. R. Kamat is mildly censured.

HOUSING

It is estimated that in 1951 the shortage of houses was about 2.5 million on the assumption that each household should have a separate house.

The total urban population was 61.0 million, occupied houses 10.3 million and households 12.8 million.

The number of houses required to be constructed during 1951-61 to meet the shortage is estimated at 8.9 million. It is also calculated that during this period only about three million dwelling units would be constructed in urban areas. Thus housing shortage in 1961 would be about five million.

The revised provision for housing in the Second Plan is Rs. 84 crores. But since the execution of housing programme involves long-term planning it has been decided to sanction projects upto a value of Rs. 120 crores provided the actual expenditure during the Plan does not exceed Rs. 84 crores. Rs. 120 crores was the original allocation.

In the First Plan period about 1.3 million houses were constructed (742,000 by public authorities and 600,000 by private).

During the Second Plan period it is proposed to construct 1.9 million units.

Housing Schemes are administered by the Ministry of Works, Housing & Supply, the various other Central Ministries, State Governments and Local Bodies etc. They are all engaged in substantial housing programmes connected with development or social welfare projects.

Inclusive of the activities of the private sector, about 1.9 million houses are likely to be constructed in urban areas during the Second Plan period at a cost of over Rs. 1,000 crores, as under:—

Ministry of Works, Housing and Supply: 3,11,000 (to be reduced to 1,67,700 as a result of the re-appraisal of the Plan); Ministry of Rehabilitation: 24,500; Ministry of Labour and Employment: 33,000; Ministry of Health: 14,500; Other Ministries, State Governments and Local Bodies: 5,81,000; Private Sector: 8,00,000.

On the rural housing side, against a total estimated requirement of about 54 million houses to be replaced or reconditioned, it is possible that about 3 lakh houses might be provided under the housing programmes of the various Central Ministries.

Proposals under consideration include development of institutional finance, setting up of State Housing Boards or Corporations for the construction and management of housing estates and the financing of housing activities in the State, measures to facilitate land acquisition etc., and the making available of building sites at reasonable costs.

The housing schemes in operation are: Subsidised Industrial Housing Scheme; Low Income Group Housing Scheme; Slum Clearance Scheme; Scheme for House Building Advance to Central Government Servants; Plantation Labour Housing Scheme; Village Housing Projects Scheme; Middle Income Group Housing Scheme; and Scheme for Loan Assistance to State Governments for the construction of rented housing for their employees.

INDUSTRIAL HOUSING SCHEME

The cumulative total of financial aid sanctioned by the Central Government under the Subsidised Industrial Housing Scheme since its inception in September 1952 upto December 1958 amounted to Rs. 31.64 crores, to cover the construction of about 1,05,000 houses, out of which nearly 78,500 had been completed till November 1958. About 26,500 were under construction. The actual disbursement upto 31st March, 1959 to the different construction agencies however, amounted to Rs. 24.08 crores.

The State-wise break-up of houses sanctioned and built is given in the table below.

The State-wise position is shown below:

State	Houses sanctioned	Houses built.
Andhra Pradesh ..	4,158	3,140
Assam ..	404	112
Bihar ..	6,888	4,777
Bombay ..	37,122	25,156
Kerala ..	250	250
Madhya Pradesh ..	6,477	6,118
Madras ..	2,976	1,476
Mysore ..	6,791	6,412
Orissa ..	1,518	1,340
Punjab ..	3,987	2,642
Rajasthan ..	3,102	2,054
Uttar Pradesh ..	23,238	20,951
West Bengal ..	6,932	2,608
Total ..	1,05,843	77,036
Delhi ..	1,434	1,434
Grand Total ..	1,05,277	78,470

With a view to ensuring better progress, some important modifications were made in the Scheme during 1958. The State Governments were authorised to utilise the allocated funds for acquisition and development of suitable sites also, either for constructing houses themselves or for selling the sites after development, to employers or co-operative societies of industrial workers on a 'no-profit-no-loss' basis. In addition, Municipal bodies were also recognised as agencies for constructing houses under the Scheme for renting to industrial workers.

The quantum of loan assistance admissible to co-operatives of industrial workers as well as private employers was increased and the mode of disbursement of financial assistance was also liberalised, to afford greater incentive to these constructing agencies, to come forward and avail themselves of the benefits of the Scheme.

But neither employers nor co-operatives have taken full advantage of the scheme. About employers the opinion at the Housing Ministers conference in Darjeeling in 1957 was that legislation to compel them to build might be considered.

Under the Plantation Labour Scheme, introduced in April 1956, a sum of Rs. 5.85 lakhs has been sanctioned by the States to Planters for the construction of nearly 360 houses, out of which 40 had been completed by March 1959.

LOW INCOME GROUP

The Low Income Group Housing Scheme, which was introduced in November 1954, envisages the grant of interest bearing loans to State Governments and Union Territories either for constructing houses themselves or for giving advances to eligible persons with annual incomes not exceeding Rs. 6,000 to enable them to build their own houses. From the inception of this Scheme in November 1954 upto the 31st March 1959, a sum of Rs. 29.73 crores was advanced as loan. The total number of houses completed and under construction under this Scheme as on the 31st December 1958 was about 35,000 and 14,000 respectively.

The loan generally bears an interest of 4½ per cent per annum plus the administrative charges of the State Government, if any, which do not normally exceed 1 per cent. The loan is repayable in a period not exceeding 30 years. The quantum of assistance is limited to 80 per cent of the cost of the house, including cost of land, and is subject to a maximum of Rs. 8,000.

The scheme also provides for the grant of loans by the Centre to the State Governments for the acquisition and development of land. The rate of interest on such loans is about 3½

per cent per annum. This loan is repayable within three years, during which period the plots of land are to be sold, after development, to persons in the low income group on a 'no-profit-no-loss' basis.

Public institutions, run on a no-profit-no-loss basis, and non-governmental but recognised health institutions, hospitals, educational trusts come under this scheme for building houses to be given to their low paid employees on rent or on hire purchase terms.

State Governments, local bodies and the designated agencies of the State Government can also construct houses with loan assistance under the Scheme, provided not more than 25 per cent of such houses are given out to their own employees.

During the First Five Year Plan, 4,801 houses were completed under the scheme. As against the total allocation of Rs. 21.83 crores made to different State Governments during the First Plan period the amount actually drawn by them came to Rs. 10.89 crores.

In the Second Five Year Plan, the provision made for Low Income Group Housing is about Rs. 33 crores. During 1956-57, 1957-58 and 1958-59, loans amounting to about Rs. 5.95 crores, Rs. 6.31 crores and Rs. 5.81 crores, respectively were disbursed to the State Governments. Besides, another sum of Rs. 0.85 crore is expected to have been disbursed to loanes in Centrally administered areas during these three years. The outlay proposed for 1959-60 comes to Rs. 7.45 crores. It is observed that there is a great demand for loans under the scheme.

SLUM CLEARANCE

Since the inception of the Slum Clearance Scheme in May, 1956, 167 slum clearance projects of a total estimated cost of over Rs. 20 crores were received in the Ministry of Works, Housing and Supply till 15th March, 1959.

Out of these projects, 109 projects of the approved cost of Rs. 9.26 crores were sanctioned or approved by the Ministry for the construction of 19,070 tenements and the provision of 10,405 open developed plots of land, of which 1,078 open plots and 966 tenements have already been completed.

During the financial year 1958-59, a sum of about Rs. 170 lakhs was paid to the State Governments as the Central share of financial assistance.

The subsidy has recently been enhanced to 37½ per cent, the State's share of the subsidy remaining unaltered at 25 per cent. This relaxation is expected to bring down the rents to the paying capacity of the slum dwellers.

The two important principles on which the scheme is based are that there should be the minimum dislocation of the dwellers and the rents should not be beyond their paying power. Slum families whose income exceeds Rs. 250 per month in Bombay and Calcutta, and Rs. 175 per month elsewhere are not given any assistance under the scheme and they are expected to take advantage of the Low Income Group Housing Scheme. The provision in the Second Plan is Rs. 20 crores. It is hoped that some of the worst slums in the congested towns would have been tackled during the period.

Having regard to the meagre resources it is felt that in the initial stages it would be desirable to improve the environmental conditions by providing footpaths, public latrines, filtered water supply and street lighting.

VILLAGE HOUSING PROJECTS

The Village Housing Projects Scheme, introduced in October 1957 provides for the grant of financial assistance through State Governments, to intending builders, in the villages selected for development under the scheme, to the extent of 50 per cent of the estimated cost of construction of a house subject to a maximum of Rs. 1,500.

Necessary technical guidance is to be given by the State Rural Housing Cells set up at State headquarters. The scheme is based on the principle of aided-self-help and is expected to cover about 5,000 villages during the Second Plan period.

The State Governments drew about Rs. 50 lakhs till the end of March, 1959. By the end of 1959-60, the scheme is likely to be extended to 3,000 villages.

Up to December 1958 about 500 villages had been selected.

Below we show the allocation of grants made to the States for 1958-59 and the number of villages allocated for the Second Plan period: The first figure is in Rs. lakhs and the second shows the number of villages.

Andhra 7.0, 450; Assam 2.25, 150; Bihar 9 0, 600; Bombay 7.50, 500; M. P. 5.25, 350; Madras 5.25, 350; Orissa 3.00, 200; Punjab 3 00, 200; U. P. 12.75, 850; West Bengal 4.50, 300; Rajasthan 3.00, 200; Mysore 3.75, 250; Kerala 3.00, 200; Kashmir 0.75, 50; Delhi—, 20; Manipur —, 20; Tripura —, 20; H. P. —, 20; Andamans —, 20; Pondicherry —, 20; Total 70.00, —.

The Government of India have also set up a Regional Research-cum-Training Centres, through Ford Foundation assistance for undertaking work relating to research, training and extension, in rural housing.

The problem is enormous. Out of an estimated 54 million houses about 50 million have to be re-built completely or substantially. This would cost about Rs. 2,500 crores.

MIDDLE INCOME GROUP

For the first time, institutional finance in a systematic manner has been harnessed to housing, on a Governmental basis, under two schemes—Middle Income and Government Employees—which are being financed through funds provided by the Life Insurance Corporation.

Under the Middle Income Group Housing Scheme, introduced in February, 1959, the Life Insurance Corporation advances loans to the State Governments, at 5 per cent interest, repayable in 20 annual equated instalments. The State Governments, in turn, advance loans to individuals within the income range of Rs. 6,000-12,000 per annum, or their co-operatives, for the construction of houses for their bona fide residential purposes, recovering the amounts over the same period (or any shorter periods as the individuals may desire), with an additional interest of about ½ per cent to cover normal administrative charges.

The amount of loan admissible will be determined on the following basis: (a) 80 per cent of the estimated cost of construction, excluding land, subject to a maximum of Rs. 16,000 and (b) 80 per cent of the cost of developed land, provided that (i) the total of (a) and (b) does not exceed Rs. 20,000, (ii) the total cost of construction, excluding land, is not more than Rs. 25,000 and (iii) no assistance for land will be admissible to those who already possess a developed plot. The loans to individuals will be advanced in stages, the last instalment being granted only after ensuring that the house site has been developed according to the normal standards applicable to the area concerned.

The floor area of a house should not be less than 700 sq. ft. The State Government has to approve of the designs.

During 1958-59, a sum of Rs. 3 crores was advanced to the various States.

GOVERNMENT EMPLOYEES

House building advances are made to Central Government employees. During the year 1958, 310 applications for loan assistance to the extent of Rs. 33.87 lakhs were received out of which, 239 applications, involving the grant of loan, totalling to Rs. 28.51 lakhs were approved.

The scheme for loan assistance to the State Governments for the provision of rented houses for their employees was also introduced in February 1959.

A total sum of Rs. 1 crore was advanced to West Bengal, Madhya Pradesh, Andhra Pradesh, Mysore and Rajasthan under this scheme during 1958-59. The scheme is meant to help the State Governments, more particularly those which are seriously affected by the reorganisation of states, in the construction of new houses to be let out to their employees at reasonable rents.

All States have taken loans from Centre for implementing housing schemes for police forces under them. Commencing with an allotment of Rs. three crores in 1956-57 the Government of India provided till April 1959 Rs. 5.29 crores for this purpose.

Loans for police housing schemes were initially given to States on a matching grant basis, namely, the State Government concerned was to meet 50 per cent of the cost of the scheme while the Centre was to advance the balance by way of loan. At the request of some States the matching grant provision was later dispensed with.

STATE FINANCIAL CORPORATIONS

Below we give some items for 1958-59 which we were unable to include in the articles on individual States:

ASSAM

Total no. of applications received 163; no accepted for loan 69; total loan sanctioned Rs. 1,53,75,000; loan advanced Rs. 74,05,961; rate of interest charged, 7 per cent with ½ per cent rebate for timely repayment; income: Rs. 5,50,063; expenditure Rs. 77,637.

The figures are subject to audit.

ANDHRA PRADESH

The figures are for combined Andhra and Hyderabad, and given to the nearest thousand.

No. of applications received: 162; No of applications sanctioned: 100; Amount of loans sanctioned: Rs. 1,43,22,500; Amount disbursed: Rs. 80,21,000*; Amount recovered: Rs. 19,98,000; Rate of interest: 6 per cent per annum (net); Total expenses: Rs. 86,000; Total income: Rs. 7,01,000; Net Profits: Rs. 6,15,000.

* Includes Rs. 12,25,000 originally disbursed by the Madras Industrial Investment Corporation Ltd., Madras and subsequently transferred to this Corporation.

BIHAR

Total no. of applications received 55; amount involved Rs. 1,60,90,000; applications sanctioned

4; amount involved Rs. 31,50,000; applications rejected, one; amount involved Rs. 10,00,000; applications under consideration 49; amount involved Rs. 1,18,15,000. Total loans disbursed Rs. 28,67,000; loans outstanding Rs. 89,09,050.89; Rate of interest 6½ per cent with ½ per cent for timely payment; net profit after payment of expenses of administration and other charges Rs. 3,04,460. After making provision for taxes, transfer to Reserve Fund, balance available for meeting the guaranteed dividend of 3½ per cent Rs. 1,43,500.

BOMBAY

During 1958-59 the Corporation received 58 applications and the total loan applied for was Rs. 1,91,00,000.

The Board of Directors upto 31-3-1959 sanctioned loans of the aggregate amount of Rs. 3,83,60,000.

Under the State Aid to Small Scale Industries Rules, the Corporation received 108 applications and the total amount of loan applied for exceeded Rs. 51,10,000. The Corporation upto 31-3-1959 recommended loans of the aggregate amount of Rs. 21,05,000.

Board of Directors: Purushottam Kanji (Chairman); Ghanasham G. Thakker; Dr. M. H. Mandlekar; T. K. Ramasubramaniam; Pravin-chandra V. Gandhi; D. V. Potdar; V. P. Pandit; P. H. Bhutta; R. M. Drahmukh; R. S. Pochkhanawala (Managing Director, Offg.).

Officials: Managing Director (Officiating); R. S. Pochkhanawala, n.s.c. (Lond.), Bar-at-Law.

KERALA

Net Profit Rs. 5,25,440.71; Provision for Reserve Rs. 25,273 00; Provision for taxation Rs. 2,75,000.00; Balance available for guaranteed dividend Rs. 2,24,167.71; No. of loan applications received 30; amount involved Rs. 67,42,000; applications sanctioned in full 6; amount involved Rs. 20,75,000; sanctioned for reduced amounts 11; amount involved Rs. 13,22,000; full disbursement, applications 3, amount Rs. 3,24,000; partial disbursement, applications 13, amount Rs. 23,00,000; applications rejected or withdrawn 3; amount involved Rs. 12,90,000; Balance outstanding Rs. 1,18,50,085.85.

UTTAR PRADESH

Net profit Rs. 4,21,497.83; To statutory reserve Rs. 10,000; provision for taxation Rs. 1,87,000; balance available for meeting guaranteed dividend at 3½ per cent Rs. 2,24,497.83; loan applications received 32; amount involved Rs. 1,30,80,000; applications sanctioned 10; amount involved Rs. 24,20,000; applications rejected 8; amount involved Rs. 22,90,000; amount disbursed Rs. 20,77,500; amount outstanding Rs. 68,15,076.88.

IMPORT AND EXPORT TRADE

Rs. lakhs

	1956 April-Dec.	1957 [•]	1958 [†]
Total (sea and air) foreign trade	1,032.82	1,668.67	1,443.14

Trade during 1953-58

The following table shows the values in Rs. lakhs of the total import and export trade of India from 1953-54 to 1958. The total, includes trade across the land frontiers too :

	Imports	Exports	Balance
1953-54	580.67	539.62	-50.05
1954-55	633.05	588.24	-44.81
1955-56	649.64	591.23	-58.41
1956-57	842.53	601.36	-241.17
1957	1,025.82	642.85	-382.97
1958	864.18	578.96	-285.22

General Indices of Exports and Imports (1953-53 = 100)

	1955-56	1957	1958
Quantity Index :			
Exports	115	119.0	107.9
Imports	114	156.0	120.2
Price Index :			
Exports	93	94.0	101.0
Imports	94	98.0	95.7

India is essentially an agricultural country with farming regarded by the people as a tradition rather than as business. During the past 30 years the tendency has been towards rapid industrialisation. This change has been noticeable in the matter of foreign trade especially in the post-partition period. In 1920-21 finished goods represented 84 per cent of imports, while exports of raw materials accounted for 45 per cent of the total shipments. In the quinquennium ended 1929-30 imports of raw materials hardly represented 9.3 per cent of the total, while exports of raw materials were as high as 49.5 per cent of the shipments. By 1950-51 the share of raw materials under imports rose to 35.1 per cent while that under exports dropped to 20.8 per cent. The emphasis on higher industrial production during the intervening period was responsible for reducing the import of manufactured goods from 72.6 per cent of the total imports in the five years ended 1929-30 to 45.7 per cent in 1950-51, while the share of finished goods in the export trade rose from 26.6 per cent to 55 per cent.

Movement in Foreign Exchange Reserves (Increase + Decrease -	- 86.3	- 250.9	- 221.3

The most important development in the last two years has been the pressure on India's balance of payments position. Between 1956-57 and 1957-58, exports declined from Rs. 635.1 crores to Rs. 594.5 crores, whereas imports rose from Rs. 1,096.6 crores to Rs. 1,174.8 crores; the adverse trade balance thus increased from Rs. 460.5 crores to Rs. 580.3 crores. After making adjustment for favourable balance in invisible trade, which aggregated Rs. 153.7 crores in 1956-57 and Rs. 129.2 crores in 1957-58, there was an adverse balance of payments to the tune of Rs. 306.8 crores in 1956-57 and Rs. 451.1 crores in 1957-58. In 1958-59, import restrictions served to limit India's imports which amounted only to Rs. 526.0 crores in the first half of 1958-59. Exports during the first half of 1958-59 aggregated Rs. 253.5 crores. Thus, the visible trade balance was adverse to the tune of Rs. 272.5 crores, which was reduced to Rs. 210.8 crores as a result of net invisible exports of Rs. 61.7 crores. The second half of 1958-59 showed a more significant improvement in balance of payments position. There was an abatement of pressure on foreign exchange reserves, as the effect of severe import restrictions was more pronounced in this half-year than in the previous half year. Further, there was larger flow of assistance from abroad.

The impact of economic development on imports is illustrated by the increase in imports of capital goods which accounted for Rs. 368.0 crores in 1957-58 and for Rs. 197.8 crores in the first half of 1958-59, as against Rs. 329.2 crores and Rs. 219 crores in 1956-57 and 1955-56, respectively. A notable trend in India's imports is the declining importance of private imports of capital goods. During the years 1955-56, 1956-57, 1957-58 and first half of 1958-59, private imports of capital goods were Rs. 153.4 crores, Rs. 211.0 crores, Rs. 204.9 crores and Rs. 74.1 crores, respectively, and imports of capital goods on Government account were Rs. 60.4 crores, Rs. 118.2 crores, Rs. 161.1 crores and Rs. 123.7 crores, respectively. This trend reflects the emphasis on State participation in industrial production.

The rise in aggregate investment in 1958-59 was relatively small. While public investment was more than in the previous year, private investment was lower.

IMPORT AND EXPORT CONTROL

Import trade control was first instituted in May 1940 for conserving the limited tonnage and the hard currency. In the post-war period, currency difficulties, the prospects of release of sterling balances and the Government's view on inflation were the guiding principles.

During the licensing period October, 1958-March, 1959, the Import Trade Control Organisation of the office of the Chief Controller of Imports and Exports received 1,73,834 applications for import licences. This is the highest figure in any licensing period with the exception of July-December, 1956.

The disposal of applications during the period stood at the figure of 1,73,721 as against 1,41,681 in April-September 1958. The total number of pending applications at the close of licensing period October 1958-March 1959 was 792 and this worked out to less than 5 per cent of the total receipts.

In all, import licences numbering 1,11,114 were issued during October 1958-March 1959 (up to March 14) as compared to 1,03,756 licences issued during the period April-September 1958.

The imperative need to conserve foreign exchange resources during 1958-59 persisted and dominated the import policy for the April-September 1958 and October 1958-March 1959 licensing periods. Nevertheless, within the limitations of the foreign exchange available, an attempt was made to ensure that industrial production was not adversely affected.

In the period April-Sept. 1958 quotas were increased mainly for items required for our industries, namely, textile chemicals and accessories, component parts of taper bearings, spare parts for machinery, chemicals not otherwise specified, industrial gums and resins and certain abrasives. In the case of machinery items, quotas were given only for two items, viz., printing machinery and agricultural tractors. Quotas were also increased for a few essential consumer goods like photographic sensitised materials and paper items. Quotas were reduced for items for which the indigenous industry was expected to make good the shortage, namely, coal tar dyes, a few types of motor vehicles parts, PVC compound, steel files, etc. Of the important consumer goods for which quotas were drastically reduced were fish, fruit and milk food.

A somewhat higher foreign exchange ceiling was allocated for raw materials for industries. Regarding capital goods, a rigidly austere policy was continued.

In the period Oct. 1958-March 1959 with the increased tempo of industrial activity, the requirements of raw materials and spares increased. But the need to conserve foreign exchange resources, however, persisted. The foreign exchange resources available for maintenance of the economy did not increase by any significant figure, but some relief was expected to be provided in due course as a result of the availabilities from the Development Loan Fund and the Export-Import Bank Loan and imports on rupee payment basis, from some of the countries that practise bilateral balancing. A somewhat larger allocation of foreign exchange was provided for essential industrial raw materials and spares. A licensing scheme to help exporting textile mills and handloom co-operatives to import their requirements of dyes and chemicals and machinery was announced.

Quotas were reduced for certain items on account of greater availability from indigenous production as in the case of ball bearings, electric motor starters, certain chemicals, engineering items like twist drills and metal working saws.

* The land trade with this country is not fully recorded at present and is not covered by these statistics. The figures, if any, represent the trade by air.

For textile dyes and chemicals, quotas were reduced on account of additional direct licensing to exporting mills as mentioned above. The quota for camphor was deleted and the quotas for betelnuts and cloves were further reduced. Quotas were increased for spares of a few important items, e.g., earthmoving equipment, refrigeration and air conditioning machinery, etc. Quotas were also enhanced for certain types of tools and some chemicals. Small quotas were given for packing and wrapping papers, artificial silk yarn, sheets and plate glass, etc., quotas for which were 'nil' previous half-year. Imports of milk foods for infants, time-pieces, liquid paraffin, photographic goods and X-ray films were somewhat liberalised. In the case of non-ferrous virgin metals like copper, zinc and lead, quotas were withdrawn, but provision was made to ensure adequate supplies to actual users both in the organised as well as in the small-scale sectors. In the case of metal scraps, copper scraps, brass scraps and German silver scraps—quotas were provided for established importers. To avoid delays, the procedure for submission of applications by small-scale industries was revised. Applications can now be made direct to the licensing authorities with the essentially certificates obtained from the Director of Industries. It is no longer necessary to route such applications through the Development Commissioner, Small-Scale Industries.

The Government of India announced a new procedure under which licences for import of raw materials and components are proposed to be issued to 45 scheduled industries, based on the books of the Development Wing, in addition to their normal allotment for the licensing period beginning from April 1, 1959 (April-September).

The object is to ensure continuity of supply of raw materials to enable industries to plan their production better and to make advance arrangements for the purchase of some of their requirements of raw materials for the succeeding half-year.

The extent to which advance allotment will be made for the succeeding half-year would depend upon the essentiality of the industry. The allotment might vary from 50 per cent to 75 per cent of the allotment for the half-year. In exceptional cases it may be even more. The industries to which this procedure will apply have been specified in a schedule to the Public Notice.

The period of validity of all licences under the scheme would be 12 months unless otherwise specified.

In the import policy announcement for April Sept. 1959 the items for which quotas have been increased are asbestos packings, fractional horsepower motors, garage tools, hydrosulphite of soda, gum Arabic, cork manufactures, dyeing and tanning substances, bleaching powder, scientific and mathematical instruments and apparatus.

The basic period of 47 items has been extended to include the year 1957-58. The more important items for which the basic period has been extended are mercury, garage tools, X-ray films, tyres and tubes, spare parts of agricultural tractors, etc.

Quotas have been reduced for antimony ingots, leather belting, certain electrical equipment, cotton fabrics and a few items of textile accessories. There has been a minor cut in the quota for drugs and medicines, but this is more than compensated by additional licensing of items like P.A.S. and certain sulphur drugs. The quotas for mercuric chloride, phosphoric acid and dicalcium phosphate have been withdrawn.

The Pakistan O.G.L. has been extended for a further period of three months. The only change in this Open General Licence is the addition of item raw hides and skins for import from Pakistan.

In view of the continued deterioration in the foreign exchange situation in the country, special steps were taken to increase exports during the year 1958-59. Export control was removed from over 200 commodities; the number of items subject to quota restrictions was reduced and the rest of the commodities under control were allowed to be licensed freely wherever possible. The decontrolled items included cotton textiles, silk fabrics, and art silk manufactures, jute manufactures, manufactures of iron and steel, aluminium, brass, copper and lead, castor oil, linseed oil, sugar products, glycerine, electrical instruments, paints, varnishes, and enamel. Olive oil, mutton tallow, synthetic resins, antimony ores, nickel and tin ores and old newspapers which were on the banned list were also decontrolled; so were cotton yarn, sewing thread, empty glass bottles, penicillin and indigenous gluten which were allowed on quota basis; cattle, poultry, dye stuff, etc., which were on the banned list are now allowed on *ad hoc* basis.

Procedural formalities were simplified to ensure that the procedures were employed to help rather than to hinder exports.

Export duties were reviewed and duties leviable on all vegetable oils, oilseeds and oilcakes were abolished. Full refund of excise duty of Rs. 112 per ton instead of 11/14th was allowed on export of castor oil.

TRADE AGREEMENTS

India has trade agreements or trade arrangements with 27 countries in Asia, Africa, Europe and other parts of the world.

The countries are Afghanistan, Austria, Bulgaria, Burma, Ceylon, Chile, China, Czechoslovakia, Finland, East and West Germany, U.A.R., Ethiopia, Greece, Hungary, Indonesia, Iraq, Italy, Japan, Norway, Pakistan, Poland, Rumania, Sweden, the Soviet Union, North Viet Nam and Yugoslavia.

Below we give the latest available position about the trade agreements which India has entered into with some countries. The information given within brackets relates to the dates on which the agreements were signed and the duration of the agreements respectively.

Afghanistan : (June 14, 1957-July 21, 1959). According to the exchange of letters on June 14, 1957 between the Governments of India and Afghanistan, imports of dry and fresh fruits and saffron from Afghanistan into India would be facilitated within a prescribed ceiling. The list of commodities for export from India includes green and black tea, spices, sugar, bidi and tobacco manufactures, cotton textiles, jute goods, woollen and art silk manufactures, leather and leather goods including foot-wear, films, machinery, building materials, chemicals, rubber goods, bicycles, motor cycles, paper and stationery, aluminium goods, iron and steel products, etc.

Austria.—(9th December 1952); (1st July 1952 to 31st Dec. 1958). *Imports:* Woollen piecegoods, cotton threads, newsprint, rubber threads (permissible types), chemicals chiefly bichromates and chromic acid, admissible types of textile, agricultural and wood-working machinery and electrical apparatus, etc. *Exports:* Castor oil, coal, coal yarn, fibres

TOTAL	7,35,80,324	1,33,37,742

for brushes and brooms, handicraft, manufactures of ivory, brass, horn and brocade, iron and manganese ores, lined oil, mica, myrobalans, shellac, spices, kapok, cashewnuts, walnuts, raw wool, pig bristles, cotton seed oil for industrial purposes, etc. and tanned leather, etc.

Bulgaria.—18th April 1956 (up to the end of 1955): *Imports*: Fruits and vegetables, chemicals, drugs and medicines, electrical instruments, machinery and equipment, diesel engines of 0-3 H.P. or above 30 H.P., films exposed, etc. *Exports*: Tea, spices, lac, essential oils, castor oil, raw wool, raw cotton, drugs and medicines, electric wire and cables, electric lamps, light engineering goods including sewing machines and plastic goods.

Burma.—(5th September 1951); 4th Sept. 1961—(extension under consideration). *Imports*: Rice, dyeing and tanning substances, stick lac, pulses, lead, teakwood, hardware and cutlery, wood and timber, metals and ores, handicrafts, cottage industry products, precious stones. *Exports*: Groundnut oil, fish, cotton piecegoods, coal manufactures, cotton yarns, drugs and medicines, surgical instruments, books printed and printed matter, coffee, tea, spices, light engineering goods, cotton manufactures, jute manufactures.

On July 14, 1956 another agreement was signed. India would export to Burma cotton textiles worth about Rs. 185 lakhs, against payment by Burma in U.S. surplus cotton.

Ceylon.—(15th July 1953); (Jan. 13, 1958—Aug. 31, 1961).

Ceylon has agreed (1) to facilitate the increasing use and import of Indian grown tobacco for cigarettes and other manufactures, (2) to maintain the import duty on bids at the level existing on the date of agreement and also to allow imports upto specified quotas.

On her part India has agreed to apply concessional rates of duty in respect of 4,430 candelas of Jaffna tobacco to be imported during the period 1957-58 to 1960-61 in gradually scaled down quantities annually.

Chile.—(16th October 1956); (up to 31st December 1959). *Imports*: Pulses, barley, fish and dried fruits, sulphur, Chilean nitrate, copper, lead, iron and steel, etc. *Exports*: Tea, cashew kernels, jams, spices, vegetable oils, drugs and medicines, mica, shellac, hides and skins tanned, cotton, woollen, silk and art silk, textiles, jute goods, films exposed, etc.

China.—(14th October 1954); (14th October 1954 to 31st Dec. 1959). *Imports*: Gypsum, graphite, orpiment, silk and silk piecegoods, hides and skins, wool raw, wool yarn and manufactures, paper and stationery, chemicals, oils, drugs and medicines, rice, soya beans, honey. *Exports*: spices (including chillies and pepper), tobacco unmanufactured, manganese ore, vegetable oils, essential oils, cotton raw, wool raw, sandalwood, hides and skins, mica, shellac, jute manufactures, cotton textiles, machinery and machine tools, mathematical and surgical instruments, light engineering goods, films exposed.

Czechoslovakia.—(30th Sept. 1957 to 31st Dec. 1960). *Imports*: Various types of machinery (such as complete industrial plants, welding machines and transformers, cigarette producing and textile machinery, industrial leather and rubber belting, industrial sewing machines, refrigerators, equipment for thermal and hydroelectric power stations and mining, machine tools, iron & steel wire netting, diesel

locomotives, agricultural tractors and parts, newsprint, etc. *Exports:* Tea, spices, tobacco, cashewnut, vegetable oil, cotton raw and cotton waste, shellac, mica, manganese ore, crushed bones, raw wool, Indian handicrafts, cotton, rayon and woollen textile, cotton and rayon knitted goods, plastic goods, sports goods, carpets, coir products, hides and skins tanned, etc.

Ethiopia.—(April 18, 1958); (Upto May 31, 1959).

Government of India and Imperial Ethiopian Government will subject to their respective import-export foreign exchange and other regulations give the maximum possible facilities for import and export of commodities of interest to either party. To this end the two Governments will periodically exchange lists of articles available for export from either country.

Finland.—(12th January 1951); (1st January 1951 to 31st December 1959). *Imports:* Sawm and planed timber of coniferous, spices, newsprint, paper and paper products, wallboards of wood fibre (soft and hard), tea chests, etc. *Exports:* Cashewnut, tobacco, spices, jute goods, tea, shellac, cotton waste, linseed oil, coir yarn and manufactures, mica, cotton, silk, rayon, textiles.

Germany, East.—(8th October 1956); (8th Oct. 1956 to 31st Dec. 1959). *Imports:* Electric, diesel and steam locomotives, machinery of various kinds (e.g. mining machinery, earth drillers, bakery and confectionery machinery, machinery for cigarette, oil, textile, chemical and pharmaceutical industries), electric furnaces and electric motors, wall tiles, fertilisers, raw film, etc. *Exports:* Tea, coffee, tobacco, and tobacco manufactures, pepper, spices, fruit dried, essential oils, mica, hides and skins, cotton piecegoods, jute yarn and manufactures.

Germany, West.—(31st March 1955); (1st April 1955 till terminated by either party giving three months' notice). According to this agreement, the two Governments would facilitate trade between the two countries in all commodities permitted by the regulations in force from time to time. In regard to certain commodities, however, the imports of which into the Federal Republic of Germany are subject to quantitative restrictions, quotas have been provided for under the agreement as revised from time to time.

The commodities for which such quotas include : twine, ropes, cordage and cables of jute and false jute, finished cotton fabrics and furnishings and towellings, silk, art silk and woollen fabrics, cotton blankets, knitted carpets of textiles other than silk and wool, fine animal hair, carpets of jute and similar fabrics other than knitted, tanned and finished leather from hides and calf skins, finished leather from sheep and goat skins, pineapple juice, tropical fruits, roasted and salted groundnuts, cashew nuts, almonds and mixtures.

Greece.—(14th February 1958); (upto 31st December 1959).

Imports: Preserved fruits, olives, olive oil, honey, wines, saffron, canned vegetables, sulphur, cement, soap, tanning extracts, agriculture machinery and tools, electric motors, diesel engines, cotton and rayon yarns. *Exports:* Linen, jute goods, vegetable oils, tea, coffee, spices, gums and resins, hides and skins, wool, hemp, leather, cotton piecegoods, shellac, cashew nuts, mica, tobacco, coir products, handloom products and fruit products.

Hungary.—(17th June 1954); (17th June 1954 to 31st December 1959). *Imports:* Hydro-turbines, electric motors, complete factory plants for canning industry, machinery for cable, metals,

(boring and mining, road building equipment, heavy electrical plant and equipments), zinc, ammonium sulphate. *Exports:* Raw wool, tobacco unmanufactured, spices, black pepper, cardamoms and others, shelling, goat skins tanned, hides and skins tanned, Indian handicrafts and cottage industry products, cinematographic films (exposed), jute manufactures, mica, fruit and vegetables, vegetable oils, cashew nuts, hydrogenated oil, foot-wear, raw coffee, tea, coir products, dyeing and tanning substances, woollen carpets, woollen hosiery fabrics.

Viet-Nam North.—(22nd September 1956); (up to 21st Sept. 1956). *Imports:* Rice, maize, timber, wood, oil, saffron, cement, limestone, handiworks, etc. *Exports:* Engineering goods (e.g. diesel engines, pumps, sewing machines), kerosene stoves, confectionery, tea, coffee, spices, hydrogenated oil, cotton and jute textiles, electrical fittings, scientific instruments of all types, etc.

Yugoslavia.—(March 31, 1956): (1st April 1956 to 31st December 1956). *Imports:* Dyeing and tanning substances, iron and steel products, rolling stock, wagons, rails, metal products, steam boilers, diesel and steam locomotives, tractors, electrical apparatus, etc. *Exports:* Iron ore, manganese ore, mica, shelling, tea, coffee, tobacco, spices, cotton textiles, raw cotton, raw wool, jute goods, handicrafts and cottage industry products, etc.

EXPORT PROMOTION MEASURES

There is an Export Risks Insurance Corporation as well as the Export Promotion Directorate to help exporters in their task.

In June 1957 a Directorate of Export Promotion was created in the Ministry of Commerce and Industry simultaneously with the constitution of the Foreign Trade Board. The Directorate co-ordinates export promotion activities and maintains close liaison with the various Export Promotion Councils. Specific targets of commodity-wise exports have been drawn up by this Directorate and steps are being taken to help the trade to reach the planned targets.

Various incentives have been provided for exporters in the form of draw-back of import duties, rebates of excise duty, replenishment quota of raw materials used in articles meant for export etc., with a view to bringing down the cost of production of these items and enabling the exporter to offer them at competitive prices in the markets abroad. Quality control schemes, both on compulsory and voluntary basis, have also been instituted. Yet other measures are settlement of commercial disputes and securing of foreign exchange for business towns abroad and on-the-spot assistance at major ports.

With the assistance of the Railway Board and the Ministry of Transport, arrangements have been made to move goods meant for export on a priority basis both by land and in a few cases by sea. A system of registration of exporters has been instituted by which registered exporters are eligible for certain special benefits and issue of licences on a priority basis.

Export at competitive prices is also attempted. The difference is to be made good by an increase in the domestic price. A formula on these lines was being worked out by the bicycle industry. Others may follow.

INSURANCE

The Life Insurance Corporation of India did a record business of Rs. 544.68 crores, assured under about a million policies during 1956. This is the first time in the history of Indian insurance that the business written during one year has exceeded Rs. 500 crores. About Rs. 54 crores of this business was written outside India and the balance of Rs. 390 crores within India, including Rs. 1.60 crores under the Janata Policy Scheme. The number of policies issued during 1956 totalled over 9,80,000 as against 8,00,000 policies issued in 1955.

The Life Insurance Corporation of India was established in September 1956 under a special Act, The Life Insurance Corporation Act, 1956 the Central Government contributing the whole of its capital of Rs. 5 crores. It has the monopoly of conducting life insurance business in India and abroad. It took over all the then existing life insurance business of Indian life offices and Provident Societies and also the Indian business of foreign life offices.

It is managed by an autonomous body consisting of 15 Directors, nominated by the Central Government functioning under the guidance and advice of the Finance Ministry of the Central Government within the scope and limits set down in the Act. This board of 15 members consists of 11 non-officials and 4 Government officials one of whom is designated Chairman of the Corporation, working as the chief whole-time officer.

The board has delegated certain of its functions to an Executive Committee of 5 members selected from among themselves, to facilitate speedy and effective execution of its duties. In addition to this, there is an Investment Committee consisting of 7 members which is a consultative body on all questions concerning the investment of the funds of the Corporation.

The Corporation has a network of offices all over the country to procure new business and for servicing the existing business. There are 5 Zonal Offices, one each in Bombay, Madras, Kanpur, Calcutta and Delhi. There are 38 Divisional Offices, 221 Branch Offices, and 99 Sub-Offices. The Central Office of the Corporation is in Bombay.

The Corporation also transacts business in the following foreign countries with 2 Divisional Offices and 11 Branch Offices: Aden, Fiji, Hong Kong, Federation of Malaya, Kenya, Mauritius, Nyasaland, Uganda and Zanzibar.

In each of the Zonal Offices, there is an Advisory Board to help the Zonal Manager in matters concerning his relations with the public. The Boards consist of leading public men of the place with the local Zonal Manager as secretary. In addition, in each of these Zonal centres, there are committees known as Employees and Agents Relations Committees which, as the name suggests, serve to maintain good relations among agents, employees and the management.

1957 REPORT

The first statutory report of the Corporation was presented to Parliament on 13th March 1959 incorporating the accounts and a report on the activities of the Corporation for the first sixteen months of its existence ended on 31st December 1957.

At the end of 1957, the total business in the books of the Corporation including bonuses, stood at Rs. 1,474 crores under 56.86 lakh policies. Of this, Rs. 1,375 crores under 54.17 lakh policies represented life insurance business in India:

Year	In India		Outside India		Total	
	No. of policies (lakhs)	Sum assured and bonuses (Rs. crores)	No. of policies (lakhs)	Sum assured and bonuses (Rs. crores)	No. of policies (lakhs)	Sum assured and bonuses (Rs. crores)
1952 ..	40.17	925	2.86	70	42.93	995
1953 ..	41.67	970	2.72	77	44.39	1,047
1954 ..	45.05	1,091	2.77	86	47.82	1,177
1955 ..	45.16	1,128	2.76	92	47.92	1,220
1956 ..			Figures not available			
1957 ..	54.17	1,375	2.69	99	56.86	1,474

These figures show that India has a per capita insurance of Rs. 35—an increase of about Rs. 10 in six years.

During the sixteen months the Corporation completed a new business of Rs. 336.67 crores sum assured under 9,41,554 policies. Business completed in 1956 amounted to Rs. 200.28 crores under 5,67,357 policies and in 1957 to Rs. 261.90 crores under 7,94,585 policies.

In addition, 21,208 policies for Rs. 1.17 crores were issued under the Janata Scheme (for industrial workers with a monthly premium collection scheme) which commenced operations in May 1957. 452 Deferred Annuities and 123 Immediate Annuities with a total annual payment of Rs. 6.73 lakhs and Rs. 3.22 lakhs respectively, were also issued.

Year	In India		Outside India	
	No. of policies	Sum Assured Crores of Rs.	No. of policies	Sum Assured Crores of Rs.
1953 ..	5,74,749	156.26	30,441	14.66
1954 ..	7,40,093	237.60	32,692	17.65
1955 ..	7,96,080	240.51	35,461	20.33
1956 ..	5,49,401	187.69	17,956	12.59
1957 ..	7,80,530	276.50	5,055	5.40

Nearly 75% of the business written in India during the first sixteen months was under the Endowment Plan, about 5% under Joint Life Policies and about 10% under Whole Life type of policies. The size of the average policy sold stood at Rs. 3,575 during the first sixteen months as against Rs. 3,208 in 1955 and Rs. 3,365 in 1954.

A marked variation is noticeable in the size of

the average policy sold in the different Zones by the Corporation. The figures are given below (Rs.):

Northern Zone (Delhi): 4,500; Central Zone (Kanpur): 4,130; Western Zone (Bombay): 3,915; Eastern Zone (Calcutta): 3,500; Southern Zone (Madras): 2,783; Foreign: 9,214; All business: 3,575.

ACCOUNTS

The Life Fund stood at Rs. 477 crores on 31st December 1957, registering an increase of about Rs. 41 crores in 16 months. During this period, the Corporation's income from all sources totalled about Rs. 108 crores, made up of Rs. 88 crores from premiums (excluding consideration for annuities amounting to a little over Rs. 1 crore) and over Rs. 19 crores from returns on its invested funds.

The interest income of over Rs. 19 crores represents earnings of 3.74% on the mean life fund after deducting income-tax. The rate of interest from 1952 is given below:

1952: 3.43; 1953: 3.50; 1954: 3.52; 1955: 3.56; 1957 (16 months ended 31st Dec.): 3.74.

On the outgo side Rs. 34 crores represented claims and other benefits to the policy-holders, Rs. 24 crores expenses of management, nearly Rs. 9 crores taxes and transfer to special reserves and the balance of nearly Rs. 41 crores addition to the Life Fund. On the claims side, nearly Rs. 8 crores represented claims by death and nearly Rs. 21 crores by maturity, annuities surrender and bonuses in cash etc., accounting for the balance.

Out of the expenses of management amounting to Rs. 24 crores, Rs. 13 crores or 50.6% were spent in salaries and other benefits to the staff, nearly Rs. 8 crores or 31.9% commission and allowances for procuring business, including Rs. 13 lakhs compensation to special and chief agents, and the remaining 17.5% in miscellaneous items as rent, travelling expenses, Doctors' fees, printing and stationery, postage, Bank charges and the like. The overall expenses of management amounted to 27.4% of the premium income.

Over-all expense ratio: 1954, 29.4; 1955, 31.8; 1956 Jan. to Aug., 33.7 and 1956-57 (16 months), 27.3.

The renewal expense ratio in terms of Rule 25(b) of Insurance Rules 1939 was 15.89% as against 17.3% in 1955.

INVESTMENTS

The Corporation took over, on the appointed day (September 1, 1956), total investments including stock exchange securities, amounting to Rs. 349 crores. This included nearly Rs. 75 crores held as deposits with the Governments of Mysore, Kerala and Bombay. Total investments rose by a little over Rs. 83 crores during the 16 months to stand at Rs. 382 crores at the end of December 1957, which were made up as follows:

Indian and State Government and other approved securities ..	Rs. 261 crores
Debentures and shares of joint stock companies in India ..	Rs. 69 "
Mortgage of properties ..	Rs. 14 "
House property	Rs. 21 "
Other Investments ..	Rs. 17 "
	Rs. 382 crores

On 31st December 1957, the Corporation held stock exchange securities aggregating nearly Rs. 339 crores, of which about Rs. 330 crores were in India and the balance outside India.

A broad classification of investments in India shows that 77.37% was invested in the public sector, and 22.63% in the private sector. Besides the loans issued by the Central and State Governments, investments in the public sector include loans, bonds, shares or debentures of municipalities, Improvement Trusts, Port Trusts, Land Mortgage Banks, State Financial Corporations, and Statutory Corporations. Investments in the private sector take the form of debentures, preference shares and ordinary shares of industrial and commercial undertakings.

Debentures, preference and ordinary shares of joint stock companies held by the Corporation may be classified as under according to the character of the industries (Rs. lakhs):

Chemicals & Pharmaceuticals: 119.94; Shipping & other Transport: 121.39; Plantations: 125.52; Insurance: 125.62; Sugar & Breweries: 145.55; Managing Agents: 168.44;

Coal: 191.93; Banks: 263.12; Paper & Pulp: 300.00; Cement: 365.96; Jute: 414.63; Iron & Steel: 548.40; Cotton: 690.85; Engineering: 714.21; Electricity: 829.21; Others: 1,763.00.

Total: Rs. 6,913.77 lakhs.

"Others" include investment trusts, mining, railways, vegetable oils, Cooperative housing societies and several other industries which cover almost every phase of industrial activity in India.

Apart from investments in Government of India loans, in statutory corporations, in loans issued by the former Hyderabad Government, and foreign investments, stock exchange securities can be sorted State-wise as under:—

State	Percentage	
	To Investment in States	To total investment
Andhra	4.17	1.72
Assam	0.78	0.32
Bihar	6.12	2.53
Bombay	32.17	13.30
Delhi (State) ..	0.66	0.27
Kerala	1.10	0.46
Madhya Pradesh	2.24	0.98
Madras	9.07	3.75
Mysore	3.89	1.61
Orissa	1.45	0.60
Punjab	0.67	0.27
Rajasthan	0.46	0.19
Uttar Pradesh ..	10.26	4.24
West Bengal ..	26.96	11.15
	100.00	41.34

PERSONNEL, PLANS

On its formation, the Corporation took over about 21,000 employees, of whom 16,000 were in the clerical and supervisory cadre and 5,000 subordinate staff. On 31st December 1957, there were 30,768 employees of whom 1,038 were officers, 5,222 field officers, 19,588 supervisory and clerical staff and 4,920 subordinate staff. The total monthly salary bill in December 1957 was Rs. 67.3 lakhs.

Out of over 2 lakh agents on the books on 31st December 1957, less than 90,000 were active.

The average production per active agent in 1957 was Rs. 31,000.

For the first time in the history of life insurance in India, organised attempts have been made to secure business from rural areas. The first attempt was in Rajasthan where in September 1958, the Corporation, in close cooperation with the State Government did intensive propaganda in 24 Community Development Blocks and secured over a crore of rupees business from villages. Other States like Bihar and Kerala have assured similar cooperation.

Permanent training centres have been opened at the headquarters of the five Zones to train development personnel on the professional aspects of sales and servicing. Other training centres at selected Divisional headquarters are to be opened.

Special schemes of insurance like the Salary Savings Scheme and Group and Super-annuation Scheme are being promoted. A number of employers throughout India have agreed to pay premiums on behalf of their employees direct to the Corporation by deduction from salaries.

A tentative Five-Year Plan has been drawn up by the Corporation to raise the level of national savings through life insurance. Under this Plan a new business of Rs. 1,000 crores has been fixed as the target for the fifth year of the Plan.

GENERAL INSURANCE

As at the 31st December 1957 there were 189 companies registered under the Insurance Act, 1938 to transact one or more classes of general insurance business of which 91 were Indian and 98 non-Indian. The number of Indian insurers excludes the Life Insurance Corporation of India (which does only Life Insurance business) but includes its three subsidiaries which conduct general insurance business. It also includes 12 insurers registered for Country Craft (marine) insurance business only and 7 non-tariff offices.

Of the 98 non-Indian offices, 66 have their head-offices in the U.K.

The following tables present a comparative study of the insurance business in India and outside India of Indian insurers and of the business in India of non-Indian insurers.

I. INDIAN INSURERS

(premiums in lakhs of rupees)

Year	Fire Premiums		Marine Premiums		Miscellaneous Premiums		Total

Total ..	17.19
Profits transferred to Profit and Loss Account ..	1.18
Actual increase in Reserves for unexpired risks and Additional Reserves ..	1.21
Excess of Income over Outgo ..	2.39

OFFICIAL LANGUAGE PROBLEM

In accordance with the provisions of Article 344 of the Constitution the President constituted a Commission to make recommendations on the progressive use of Hindi and restriction on the use of English and also on the languages to be used for communication between the Union and a State or between one State and another.

This Commission, called for short Official Language Commission, was constituted by a notification dated 7th June 1955. It submitted its report to the President on 31st July 1956, and was laid on the table of Parliament on August 12, 1957.

A summary of the report was given in the previous edition of the *Directory* as well as the background of the language controversy.

It may be mentioned that the Constitution requires that the recommendations of the Language Commission have to be examined by a Parliamentary Committee consisting of 30 members (20 from the Lok Sabha and 10 from the Rajya Sabha). The President will base his final order on the report of this Committee.

The 20 members to form the Committee from the Lok Sabha were elected on Sept. 12, 1957 and the 10 members from the Rajya Sabha on 11th September.

The Committee held its first meeting on 16th Nov. 1957 at which Pandit Govind Ballabh Pant was elected chairman.

The Committee held in all 26 meetings before finalizing its report, which was presented to Parliament on 22nd April 1959.

The report runs into 55 pages. There are six separate notes and minutes of dissent.

Of these five are by Dr Raghu Vira, Mr. Harish Chandra Sharma, the late Prafulla Chandra Bhanj Deo, Pandit Thakur Das Bhargava, and Mr. Purushottam Das Tandon and Seth Govind Das. They favour a speedy switch-over to Hindi. The sixth by Mr. Frank Anthony enters a note of dissent against the whole report.

The names of the members of the Committee are given below.

The 10 members from the Rajya Sabha were: Mr. Govind Ballabh Pant; Mr. Alluri Satyanarayana Raju; Mr. Bhagratilal Mahapatra; Mr. Budh Singh; Mr. K. P. Madhavan Nair; Mr. P. Narayanan Nair; Mr. Prafulla Chandra Bhanj Deo; Mr. Purushottam Das Tandon; Dr. Raghu Vira; Dr. A. Ramaswami Mudaliar.

The 20 members from the Lok Sabha were:

Mr. Atulya Ghosh; Mr. B. Bhagavati, Mr. Bhakti Darshan; Dr. T. Y. Gohokar; Mr. Frank Anthony; Seth Govind Das; Mr. Gurumukh Singh Musafir; Mr. Harish Chandra Sharma; Mr. M. Hifzur Rahman; Mr. Hirendranath Mukherjee; Mr. Maneklal Varma; Mr. Mathurprasad Mishra; Kumari Maniben Vallabhbhai Patel; Mr. B. S. Murthy; Mr. Pramathanath Banerjee; Mr. Swami Ramananda Tirtha; Mr. Shripad Amrit Dange; Mr. U. S. Mallik, Pandit Thakur Das Bhargava, and Mr. P. T. Thanu Pillai.

SUMMARY

A summary of the Committee's report is given below.

The Committee has expressed the "definite opinion" that adherence to the constitutional settlement, which envisages the replacement of English by Hindi for Union purposes and by the various regional languages for the official requirements of the States, is "the only safe and practicable course to adopt".

The regional languages should have "full scope in their respective States".

The approach to the question of final change-over has to be "flexible and practical". After 1965 when Hindi becomes the principal official language of the Union under the Constitution,

English should continue to be used for such purposes as may be specified by Parliament by law and for as long as necessary.

The Constitutional settlement on official language, is an integrated and comprehensive scheme which was evolved after careful consideration in the Constituent Assembly and adopted without a division as representing the greatest common measure of agreement among the different linguistic groups in the country.

The constitutional settlement provides for the use of Hindi for Union official purposes, and authorises the State legislatures to adopt regional languages for the official purposes of the States. Hindi is to be brought into use by a gradual process, and Parliament is empowered to continue English in use beyond 1965 for purposes to be specified by it. The procedure laid down for bringing about progressive change-over to Hindi as the Union Official Language also provides for a good deal of flexibility. It is specifically provided that due regard shall be paid to the industrial, cultural and scientific advancement of India and the just claims and interests of persons belonging to the non-Hindi speaking areas in regard to the public services. No date-line has been indicated for change over of the linguistic medium in the field of law, and every person is entitled to send a representation for the redress of any grievance to the Union and State authorities in any of the languages in use in the Union or the State as the case may be.

The Committee points out that a democratic government cannot continue to function indefinitely in a language which is understood by only a small fraction of the population.

Hindi is not only the mother-tongue of a substantial part of the population but is also commonly understood over large parts of the country where the regional language is different. The further spread of Hindi is being facilitated by developments in transport, commerce and the media of mass communication such as the radio and the cinema, as also by its study in schools and colleges.

Hindi whether we consider its vocabulary and diction or its alphabetical system of script is more akin to the other Indian languages than English. This is an advantage that no foreign language can claim, and it makes it comparatively easy for people in non-Hindi areas to learn Hindi.

Since Independence, there has been a shift from English to Indian languages as the media of secondary education throughout the country. It follows that the younger generation that is growing up will have much less knowledge of English than was the case until recently.

Seven States have already adopted different regional languages as their official languages in place of English and the trend of public opinion in the country makes it highly probable that the remaining States will follow suit. Some difficulty is already being experienced in finding recruits for the public services who can discharge their duties efficiently through the English medium, and this difficulty will become accentuated in course of time.

As different regional languages progressively replace English in the official work of the States and in schools and colleges, English, which has served as the main link between the different linguistic regions of the country, would no longer be in a position to discharge this function adequately. The replacement of English by Hindi and other Indian languages is thus a practical necessity.

The present deficiencies of Hindi and other Indian languages for the requirements of higher administration are due chiefly to the fact of their disuse for these purposes during the British period. Language grows by usage, and these deficiencies can be removed only by bringing these languages into actual use for purposes of State and Union administration and in other fields of national endeavour.

Gradual Change-Over: The Committee has emphasised that the process of change-over from English to Hindi as the Union Official Language has to be so "developed and regulated" that it may be effected without causing any dislocation and with the minimum of inconvenience. In determining the pace of change-over consideration has to be given among other things to the progress of Hindi in non-Hindi areas and the linguistic capacity of existing government servants. The process of change-over should also not have the effect of placing any linguistic group at a disadvantage in the matter of recruitment to the public services.

In the first phase Hindi has to be used in addition to English, and preparatory measures taken which will set the position for the next phase when the discontinuance of English for different official purposes may be brought about progressively. The date for the final change-over from English to Hindi will mark the point of culmination in this process rather than a new stage.

The Committee concurs in the Official Language Commission's recommendation that no restriction be imposed for the present on the use of English for the official purpose of the Union as the placing of such restriction is likely to cause practical difficulties.

The Committee recommends that the Union Government should prepare and implement a plan of action for the progressive use of Hindi on the basis of the opinions expressed by it on the recommendations of the Official Language Commission.

The gradual introduction of Hindi and other languages, does not mean severance of ties with English.

Advanced students of science and technology have to be familiar with one or more foreign languages. English has not only a rich literature which is intimately connected with the whole body of Western thought and culture but is, at present the most important vehicle of scientific and technical information. It is also the most widespread language in the world today. For us, amongst foreign languages, the choice of English is obvious, both because of its importance and utility and our present knowledge of it.

Hindi: In recent years, the use of difficult expressions has to some extent come in the way of the spread of Hindi and for its increased use for different purposes. The merit of Hindi as the official language of the Union and the language of inter-State communications lies in its easy intelligibility and wide vogue in the country.

The Committee has concurred with the Language Commission's view that "language purism" should be deprecated and the aim should be primarily to achieve clarity, precision and simplicity. The Committee also agrees with the Commission's recommendation that where necessary suitable international terms might be adopted or adapted, and English technical terms may be continued in use in some sectors for so long as necessary.

It would, in the opinion of the Committee, greatly facilitate the task of replacement of English by Hindi and other national languages at different levels, and at the same time strengthen the bonds between the different national languages.

The Committee has suggested that a standing Commission consisting chiefly of scientists and technologists be appointed to co-ordinate and supervise the work done by various agencies in this field, review the work that has already been done and issue authoritative glossaries of scientific and technical terminology for use in all Indian languages.

In view of the importance of ensuring a measure of uniformity in the language used in the translation of rules and other procedural literature contained in the manuals of different

Ministries and Departments of Government of India, the Committee agrees with the recommendation of the Commission that the general responsibility for direction and superintendence over such work should be vested in a single agency of the Central Government.

The importance of the training of administrative personnel in the new linguistic medium, the Committee says, can hardly be emphasised. It, therefore, agrees with the Language Commission's recommendation that if the existing arrangements for teaching Hindi on a voluntary basis do not yield adequate results it would be "legitimate and necessary" for Government to make Hindi training obligatory. The Committee recommends, however, that persons aged 45 and above should be exempted.

In respect of recruitment to subordinate posts in the local offices of Central Government Departments, the Committee has accepted the Language Commission's recommendation that such offices should evolve a measure of permanent bilingualism, that is to say, they will use Hindi for internal working and the respective regional languages in their public dealings. Their staff structures should be reviewed and decentralised to conform to the requirements of such bilingualism, and the recruitment methods and qualifications for recruitment revised suitably.

The Committee has also accepted the Commission's recommendation that the standards of Hindi qualification prescribed for local offices of the Central Government should be somewhat lower than what would be necessary for the headquarters offices. This is intended to ensure that employment opportunities in the different regions are not curtailed during the transitional period. The Committee also accepts the Commission's recommendations that a knowledge of Hindi might be prescribed as a qualification for entry into Union services provided a sufficiently long notice is given, and the measure of linguistic ability prescribed is moderate, any deficit being made good by subsequent in-service training.

Defence Services: In regard to the National Defence Academy and other similar establishments the Committee has taken the view that since instructional manuals and other technical literature are at present not available in Hindi, and many trainees from non-Hindi areas may not have a sufficient knowledge of Hindi, it would be necessary for some time to continue English as the medium of instruction in the training establishments. Suitable steps may, however, be taken to introduce Hindi, in due course, as the medium for all or some purposes of instruction.

As regards the medium of examination, the Committee thinks that candidates should have the option to offer either English or Hindi for any one or all the papers. The Committee is not opposed to the introduction of regional languages as media for the entrance examination, but it is unable to accept the Commission's view that the adoption of a quota system for admissions to these establishments is "less open to objection than the adoption of such a system for recruitment to the All-India Services." It has, therefore, been suggested that an Expert Committee should be appointed "to examine the practicability of the introduction of regional languages as media without bringing in a quota system."

All India Services: The Committee is unable to accept the Official Language Commission's suggestion about the introduction of a qualifying paper in Hindi as an initial step, for this may disqualify some candidates who may succeed in the competition with less than pass marks in the Hindi paper. The Committee also does not agree with the Commission's recommendation that Hindi-speaking candidates need not be required to offer a paper in a regional language other than Hindi. The Committee has accordingly recommended that after due notice, there should be two compulsory papers of equal standard, one in Hindi, and another in a modern Indian language other than Hindi to be selected by the candidate.

The officers of All-India and higher Central Services will need to have adequate knowledge of English for performing their duties efficiently

for a considerable time to come. The Committee is therefore of the opinion that there should be a compulsory English paper even after the medium of examination is changed, and that this should continue until English is completely replaced by Hindi for all official purposes.

With regard to the language medium for the competitive examinations for the higher services, the Committee has recommended that English should continue to be the medium of examination, and Hindi may be admitted as an alternative medium, both Hindi and English being available as alternative media at the option of the candidate for as long as necessary. The Committee has no objection in principle to the admission of regional languages as the media of these examinations, if these are found to be feasible without the introduction of a quota system, and has suggested the appointment of an expert committee to examine this question.

Law: The Committee generally agrees with the view expressed in the Madras Government's Memorandum to the Official Language Commission, that for a long time there was no answer except bilingual legislation, and until 1965 the official text should be English with an authorised translation in Hindi, the position being reversed thereafter.

Arrangements should also be made for making available translations in the official languages of the States for the convenience of the subordinate judiciary and the public.

The Official Language Commission had recommended that when the time comes for the changeover, the language of legislation of the States as well as of Parliament and consequently the language of all statutory orders, rules, etc., issued under any law should be Hindi. Differing with this view, the Committee observes that the State legislature may adopt the official language of the State for the purpose of the State Bills, Acts, etc., but besides a translation in English which has to be published under article 348(3) of the Constitution, a Hindi translation may also be provided.

The Committee says that the changeover in the language of the higher courts will necessarily be a prolonged process and may reach completion after a general change-over has occurred in the language medium for other official purposes.

The Official Language Commission had recommended that when the time comes for the changeover the Supreme Court should function in Hindi, reliable translations of decisions being provided in the State languages and option should be given to individual judges to deliver their judgment in English and to counsel to argue in English even after general change-over in the linguistic medium. The Committee observes that the recommendations of the Commission with regard to the eventual use of Hindi in the Supreme Court are appropriate, and may be accepted.

The Parliamentary Committee does not agree with the recommendation of the Official Language Commission that when the time for the changeover arrives, judgments, decrees and orders of all High Courts should be in a common linguistic medium for the whole country, and, therefore, these should be in the Hindi language in all regions.

The Committee concedes that there are several considerations in favour of the adoption of a common language in the Supreme Court and all High Courts. The Committee has pointed out that the subordinate judiciary will be functioning everywhere through the regional languages, and it will be generally convenient for them as also for litigants if the judgments and orders of High Courts are in the regional language. It adds that not all judgments and orders passed by High Courts are reported as rulings, and appeals are filed before the Supreme Court only in a small percentage of cases. Moreover, in the opinion of the Committee, the regional languages should have full scope in their respective regions also in the field of justice.

The Committee, therefore, recommends that provision should be made optionally for the use of the official language of the States also for

purposes of judgment, decree and orders which is made in a language other than English language. Reportable judgments and orders will be translated also into Hindi.

The Committee hopes that in due course, knowledge of Hindi will become sufficiently widespread among the intelligentsia particularly lawyers, to enable the continuity of the present practice of advocates from one High Court appearing in another High Court.

The Committee agrees with the Commission's view that it is essential for the maintenance of "the juridical and judicial unity of the country" that legal terminology should be identical in all Indian languages and understood in the same sense throughout the country. Where identity cannot be achieved, alternatives should be given in the various regional languages.

Considering the complexity of the work in the legal field, the Committee considers that it would be advisable to constitute a Standing Commission consisting of legal experts representing the different national languages of India for the proper planning and implementation of the entire programme relating to preparation of legal terminology and glossaries, and the translation of statutes in Hindi. It is envisaged that the translations that will thus be made will be authenticated or re-enacted by the appropriate legislative authority.

The Committee suggests further that the State Governments may be advised to take necessary measures in consultation with the Centre for the translation of the State statutes from English into their own official languages utilising for the purpose the terms of the common legal vocabulary that would be prepared by the Standing Commission.

Numerals: The Official Language Commission did not make any recommendation for the use of the Devanagari numerals in addition to the international form of Indian numerals, as they considered that the latter form should be universally adopted by public authorities in the country if there is to be a common series of numerals all over India.

The Commission had, however, recommended that a uniform basic policy should be followed by the Union Government as to the use of Devanagari numerals in addition to the international numerals in the publications of different Ministries depending upon the public to be addressed. The Committee feels that in formulating this policy some consideration may be given also to the subject matter. Thus, where a publication deals with general, administrative or literary subjects, Devanagari numerals may also be used but for scientific, technical and statistical publications the international numerals may be regarded as particularly suited for common use.

DISSENT

Out of six separate notes and minutes of dissent, five argue for a speedy switch-over from English to Hindi, while one recommends the maintenance of the status quo until Parliament has had an opportunity to decide the next step after careful open consideration of the whole question.

In his note of dissent, Dr. Raghu Vira says that the Language Commission and the Parliamentary Committee have not done their duty in the positive way, and that they have not put any restrictions on the use of the English Language.

Dr. Raghu Vira suggests, among other things, that from 1960 onwards 20 per cent of the Central Secretariat should carry on its work in Hindi, and each year 20 per cent more officers be trained so that by the end of 1964, the working of the Central Secretariat would have been changed over from English to Hindi. He also suggests that "the form of numerals in Hindi should be the Devanagiri form".

The recommendation of Mr. Harish Chandra Sharma, who has submitted his note of dissent in Hindi, is that Hindi and other regional languages should be used with immediate effect in the official work. He says that the translations

of statutes and evolution of scientific terminology may take sometime but if sincere efforts are made, even this work should not take more than one year. In India if scientific progress can be made it can only be through the medium of the mother-tongue.

In his note, the late Prafulla Chandra Bhanj Deo says that the deliberations of the Committee 'have not contributed anything positive towards a speedy replacement of English by the universally accepted language of the soil. He considers that the rapid development of the all-India Official Language is the necessary precondition for developing united national thought, attitude and outlook, and criticises the Union Government for not preparing a vigorous plan of action embodying a clear time-limit for the early replacement of English by Hindi.

He characterises the Committee's view that no restriction should be imposed on the use of English for the present as 'unwarranted'. He also differs with the Committee's view that the official languages of States may be used for High Court judgments, orders and decrees, and says that the Commission were correct in saying that there were conclusive reasons for the view that when the time comes for the changeover, the language of judgments etc. should be Hindi in all regions.

The work of propagation of Hindi in non-Hindi areas, Shri Bhanj Deo says, should increasingly and zealously be undertaken by the Central Government itself and, if necessary, suitable legislation should be brought to this effect expeditiously after consultation with the State Governments.

In a joint note, Mr. Purushottam Das Tandon and Seth Govind Das say that since the inception of the Constitution, the Government of India have shown a lack of thought in bringing about conditions for the changeover from English to Hindi in the affairs of the Union.

Disagreeing with the Committee's view that there should be no restrictions on the use of English for the present, the members suggest that communications addressed to Class IV employees and members of the public, except those who write in English, should be in Hindi or the regional language. They also consider that there is no advantage in using English numerals in Hindi publications when these are mere translations or abstracts of the original English matter.

The joint note suggests that a separate Hindi Ministry be created to co-ordinate the work of other Ministries of bringing about necessary linguistic changes by stages and further that if this is not found acceptable, an autonomous Board should be appointed under the Ministry of Home Affairs or the Ministry of Education to carry out the needed reform so that the entire change over from English to Hindi should be effected by 1965 or within a year or two years after 1965.

Mr. Frank Anthony's minute of dissent which runs into 20 pages is directed against the whole report. He considers that there is nothing fundamental about the language provisions of the Constitution, and the time has come when in the light of experience and the growing demand of the people, the language provisions must be reviewed. Mr. Anthony observes that although English is undoubtedly foreign in origin, in fact and legally, it is an Indian language and must be accepted as much as Hindi or the language of any other section of the Indian people. He considers that it is a complete misconception that nationality postulates uniformity in matters such as language, culture and social habits.

Mr. Anthony objects to the use of the expression 'Hindi and other national languages' in the Committee's report which he considers,

among other things, imports the multi-national concept in official thinking and may lead to disintegration of the country. In his view 'every major consideration of national interest is against the imposition of Hindi.' He, therefore, recommends that the status quo be allowed to continue at least until Parliament has had an opportunity to decide the next step or series of steps after careful, open consideration of this whole vital language question.

Pandit Bhargava says that there was no difference of opinion in the Parliamentary Committee in regard to the basic approach that adherence to the constitutional settlement was the only safe and practicable course to adopt. He agrees with Mr. Tandon's view that communications to Class IV employees who do not know English should be in Hindi or in the regional language, but differs from his suggestions as regards the creation of a Hindi Ministry and change-over to Hindi by 1965 or within a year or two after that.

PROMOTION OF HINDI

Below we give a summary of the various steps taken to promote the use of Hindi.

All India Radio broadcasts Hindi lessons from non-Hindi stations. In addition, Hindi lessons through the medium of English are broadcast from Delhi station for persons in Diplomatic Missions and other non-Hindi listeners.

Hindi news bulletins are relayed by non-Hindi stations.

The following grants were paid to certain bodies for specific purposes:

1 Sahitya Ratnamala Karyalaya, Banaras, Rs 5,500, for the compilation of 'Shabda Sadhna'.

2 Akhil Bharatiya Hindi Parishad, Agra, Rs 67,580, for the training of Hindi teachers from non-Hindi speaking States.

A basic Hindi vocabulary has been determined and published in 'Basic Hindi Vocabulary'.

The ten volume Hindi encyclopedia: This is entrusted to the Nagari Pracharini Sabha of Banaras. The total cost would be Rs. 6.5 lakhs. Till March 1959, a sum of Rs. 1,20,000 was paid. Much of the preparatory work is over. The material for the first volume, which was ready, was expected to be sent to the printer at any time.

Technical Terminology: There is a Board of Scientific Terminology under which a number of expert committees are working.

Upto 31st Dec. 1958 about 1,40,000 terms in different subjects were evolved. Out of these 33,600 were finally approved by the Government of India, while 7,298 were awaiting the approval of the Cabinet.

Technical terms in the following subjects have been finalized and are available for sale from the Manager of Publications, Civil Lines, New Delhi:

Agriculture—I, Botany—I, Chemistry—I, Chemistry—II, Defence—I, Defence—II, Diplomacy, Economics—I, Engineering—I (building material), General Administration (designation), Mathematics—I, Physics—I, Posts & Telegraphs, Social Sciences.

Final lists on the following subjects were in the press:

Agriculture—II, Broadcasting—I, Defence V, Economics—II, General Administration (General Terms), Highway Engineering, Mathematics—II, Medicine—I, Medicine—II, Overseas Communication Service, Posts & Telegraphs, Railways (General Traffic terms), Tourism, Zoology.

Revised lists for the following were with the Board for approval:

Botany—II, Defence—III, Defence IV, Diplomacy—II, Economics (Labour Economics), Education (General Terms), Engineering (Irrigation & Hydro-electric Engineering), Posts and Telegraphs (Stamps and Seals), Transport (Shipping).

The following lists were in circulation:

Agriculture—III, Botany—III, Chemistry—III, Chemistry—II, Defence VI, Defence VII, Economics—IV, Education Psychology, Meteorology, Law—I, Law—II, Physics—I, Mathematics—IV, Zoology—II.

An English version of the basic grammar of Hindi has been brought out.

Bilingual editions of 60 Central Acts, including the Code of Civil Procedure have been published.

Diglot editions (texts in English and Hindi in the same volume) of the Indian Code and the General Statutory Rules and Orders are also under preparation.

The report of the Hindi Typewriter and Teleprinter Committee was ready but publication was delayed pending the finalization of the reform of the Devanagari script.

The evolution of Hindi short-hand must await a phonetic analysis of the language. This is expected to be complete in 1960. Then it will go before the Hindi Shorthand Committee.

It has been decided to start training colleges for Hindi teachers for non-Hindi areas. The first of these would be set up in Kerala.

Other measures for the promotion of Hindi include:

The publication of revised and critical editions of standard Hindi works now out-of-print, of omnibus volumes of the works of eminent Hindi writers, visits of debating teams of schools and colleges from non-Hindi areas to Hindi areas, lecture tours of prominent Hindi speakers in non-Hindi areas, prizes for Hindi books of outstanding merit, preparation of histories of sciences, encyclopedia of Hindu mythology, dictionary of Indian phrases and fables.

There is now a committee to investigate the question of the recognition of Hindi examinations conducted by various organisations in the country. The Chairman of the committee is Mr. R. D. Sinha Dinkar, M.P.

More than 17,000 Central Government employees were learning Hindi during office hours at 51 centres in October 1958. The scheme which was initially started by the Ministry of Education in July 1952, was taken over by the Union Ministry of Home Affairs in September 1958.

Employees are offered three courses—Prabodh, Praveen and Pragya—each one lasting for nine months. The medium of instruction is English.

Prabodh, the first or elementary course, is intended for those who speak a south Indian language or English. Praveen, that is the second or middle course, is meant for those whose mother tongue is either Marathi, Gujarati, Bengali, Assamese, or other allied language. Pragya, which is of the standard of Matriculation, is for those whose mother tongue is Punjabi, Urdu, Kashmiri, Sindhi, Pushtu or other allied languages.

Since the aim of the Government's schemes is to enable people to pass the various tests quickly, the Government employees are permitted to take the tests without joining the classes.

To encourage more employees to learn Hindi, Government grants cash awards on the results of each test in the order of merit.

PETROLEUM INDUSTRY

PETROLEUM consists of mixtures of hydrocarbons which are in liquid, solid or gaseous forms. Very frequently these three forms are found together but in completely different proportions in different localities. In addition, all natural crudes contain small quantities of compounds containing sulphur, nitrogen or other elements.

Because of the varying mixtures of hydrocarbons, crude oils from different sources differ widely. Thus, from some crude oils sufficient lubricating oils and waxes may be obtained while others may yield insignificant quantities of wax but huge quantities of asphaltic bitumen.

Crude oil may be divided, very broadly, into three classes:—

(1) **Paraffin Base Crudes**: They usually give substantial yields of paraffin wax and lubricating oils, e.g. Assam Crudes. (2) **Asphaltic Base Crude**: This type of crude contains little or no paraffin but asphaltic matter in large proportions, e.g. crudes from Venezuela. (3) **Mixed Base Crudes**: Contain both paraffin wax and asphaltic matter in quantity, e.g. crudes from the East Indies.

Crude Oil is processed in a unit called a refinery to make it yield its various components. There are hundreds of products manufactured from crude oil. In fact, today, there is hardly an industry which does not use some kind of petroleum product. To list here a few products:—

Kerosene is used as illuminant and cooking fuel. Motor Spirit and Aviation Spirit are used as fuel by automobiles and aeroplanes respectively. High Speed Diesel Oil is used by trucks and buses as fuel as the diesel engines require less volatile fuel. Furnace Oil is used in factories and textile mills as under-boiler fuel and for steam raising. Mineral Turpentine is used as base in paints and varnishes. Wax is used for manufacturing candles. Lubricants are used for lubricating machines. Bitumen is used in road-making, insulation purposes. Chemicals are used for industrial, agricultural purposes.

Demand for petroleum products in India has been steadily growing with the years. Between the years 1948 and 1958, the total demand for petroleum products has increased from approximately 2.2 million tons to about 6.0 million tons, representing an annual average growth rate of 10.5%. By 1960, it is expected that demand will be in the region of 10.5 million tons representing an annual growth rate of 7.4% from 1958 onwards.

Though demand for all products with the notable exception of Motor Spirit is on the increase, there are significant differences in the rate at which this growth is taking place in the consumption of individual products. Most noticeable increases are in kerosene and diesel oils.

With the growth in India's economy and rapid industrialisation, set in motion by the various five-year plans, oil consumption has steadily grown but compared with other countries the per capita consumption is still very low. The figures given below are for 1957 in imperial gallons:

U.S.A. and Canada 594, Scandinavia 214, Australia 203, Argentina, Paraguay, Chile 122, U.K. and Eire 115, Japan 41, Ceylon 14, India and Pakistan 4.

India's current production of crude oil from the Digboi area in Assam is 400,000 tons per year which is just sufficient to meet about 6% of her present requirements of petroleum products. To meet increasing demand, India therefore has to import today about 4 million tons of crude oil annually, and kerosene, diesel oils and other refined products. As against total imports of petroleum products valued at Rs. 63.83 crores in 1949-50, the total imports of crude and products more than doubled in 1957-58 and stood at Rs. 108.08 crores.

The total investment in the petroleum industry is reckoned at Rs. 244 crores out of which Rs. 214 crores is foreign investment.

REFINERIES

The Digboi Refinery of the Assam Oil Company is as yet the only producer of finished products making use of indigenous petroleum crude.

Commissioned in 1899, the Digboi Refinery was the only refinery in India till 1954. A new gasoline plant and a new lubricating oil distillation unit were added to the refinery in 1954, at a total cost of Rs. 585 lakhs. In 1958 the refinery produced a total of 114.5 million gallons of finished products.

As a result of agreements between the Government of India and the oil companies concerned, Burmah-Shell and Stanvac set up refineries at Trombay (near Bombay) while the Caltex Refinery was established at Visakhapatnam. The Stanvac Refinery which has an annual capacity of about 1.3 million tons went into production in July 1954 while the Burmah-Shell Refinery, with a capacity of over 2.0 million tons, went on stream in January 1955. The Caltex Refinery started refining operations in May 1957. Its capacity is 0.675 million tons.

Thus, during the first Five-Year Plan period, with the establishment of the Burmah-Shell and Stanvac Refineries, the installed capacity for the refining of crude increased by 3.2 million tons and during the second Five-Year Plan, by 0.675 million tons, with the coming on stream of the Caltex Refinery.

The three Refineries represent the biggest single foreign private investment in recent times in any one industry in the country. The total fixed capital expenditure in the refining industry up-to-date is estimated at Rs. 70 crores.

BURMAH-SHELL REFINERIES LTD.

Burmah-Shell Refineries Ltd. was incorporated in India on 3rd November 1952, for the purpose of constructing and operating a petroleum oil refinery on a 450-acre plot of land in south-west Trombay—near Bombay.

Site clearance and construction work was first started in April 1953 and the major part of the work was completed by the end of 1954.

The Refinery commenced operations on January 30, 1955.

The crude oil intake of the Refinery is about 2,000,000 tons per annum, the crude oil comes from the Persian Gulf area.

The refinery manufactures motor spirit, kerosene, high speed diesel oil, furnace oil, bitumen and liquid petroleum gas.

The total cost of the refinery was about Rs. 26 crores, and the total labour staff employed in the refinery including all categories is about 2,000.

Residential quarters for key operating staff have been provided at a short distance from the refinery, and in addition, Burmah-Shell Refineries Ltd., have paid Rs. 40 lakhs to the Bombay Government for the provision of houses for Refinery labour employees and their families in the Chembur-Ghatkopar area.

Burmah-Shell Refineries Ltd., have also provided a 10-acre recreation ground for their staff and labour employees. The Burmah-Shell Refineries operation is estimated to save India about Rs. 7.5 crores annually in foreign exchange.

CALTEx OIL REFINERY

The Caltex Oil Refinery, costing Rs. 15 crores, went into full operation in 1957 at Visakhapatnam. The products include petrol, kerosene, diesel oil and fuel oils from the Refinery's flexible two-stage crude oil distillation unit, the fluid catalytic cracking unit with gas recovery facilities, the polymer plant, the propane decarbonisation unit and treating and blending plants.

About 9,000 construction workers were employed at the site during peak period, and in operation the Refinery now has a permanent staff of about 500. It took two years to build.

The Visakhapatnam Refinery, offspring of India's Second Five Year Plan, is one of the most modern and efficient refineries. The Refinery occupies an area as large as 515 acres, and this relaxed setting, a feature unique among Indian Refineries, makes for beauty and work comfort, besides providing scope for future expansion.

The Refinery treats crude oils both from the Middle East and Indonesia, the latter, introduced for the first time to India, having special properties. It helps to realise some of India's technological goals by meeting the specific demands of the market for petroleum products such as low-sulphur fuel, so important to the country's fast-growing steel and other industrial plants.

Extensive technical training in refinery operations were given to all Indian personnel. A number of Indians spent from three to six months' training at the Caltex Refinery, Batangas, in the Philippines. Today, key Indian personnel are sent to the United States on scheduled training programmes.

STANVAC REFINERY

The Standard-Vacuum Refining Co. of India Ltd. started construction of the refinery in December 1952 and production started in July 1954.

The refinery which is situated on Trombay Island near Bombay cost about Rs. 17.5 crores. It employs a staff of about 720, and has a designed output of 33,000 barrels (4,400 long tons) a day—about 421 million gallons (1,606,000 long tons) a year.

Generally speaking, the refinery will meet about 30 per cent of the country's needs.

Initially, the refinery was designed to process 25,000 barrels a day of crude from the Middle East. In the first half of 1959, the work on the planned expansion programme was completed. This programme included steps for increasing refinery crude processing capacity from 25,000 to 33,000 barrels a day as well as for manufacturing new products such as Bitumen and Jute Batching Oil.

The Refinery started production of liquified petroleum gas in 1958 and this is being distributed in bottles for domestic use. Bitumen was to be produced for the first time by Stanvac beginning July 1959. Besides these products, the Refinery has plans to produce other specialty products to meet the growing needs of the country and save additional foreign exchange.

With the expansion of this refinery and production of new products, India will save additional Rs. 2.6 crores in foreign exchange annually.

Negotiations are in progress with the Government for the sale of refinery gases for the manufacture of fertilisers at a projected plant nearby in Trombay.

PUBLIC SECTOR REFINERIES

Two refineries are proposed to be set up in the public sector, one at Gauhati in Assam with a 750,000 ton capacity and the other at Barauni in Bihar with a capacity of about 2 million tons. Both the refineries are being designed for maximum kerosene production.

In October 1958, an agreement was concluded between the Government of India and the Rumanian People's Government for setting up the first refinery in the public sector, in Assam, at an estimated cost of about Rs. 12 crores. A suitable site has been selected near Gauhati, and it is planned to have the refinery in operation early in 1961. It is understood that the Rumanian Government has offered a long-term credit of Rs. 5.24 crores, and technical assistance.

The Rumanian credit will cover the cost of the plants, supplies and technical services. It will bear an interest of 2½ per cent. per annum. Fifteen per cent of the credit will be repayable in six instalments between the signing of the agreement and the commissioning of the refinery.

The balance of 85 per cent. of the credit will be repayable in 10 instalments between December, 1961 and December, 1968.

The Rumanian Government will, as far as possible, buy Indian goods against its credit. The balance of credit not thus utilised will, however, be made convertible after April 1, 1961, but not earlier.

Under the Indo-Rumanian agreement, the Rumanian Government has undertaken to design the refinery, supply equipment and materials, provide the necessary technical assistance in construction and erection, train Indian technicians in designing, erecting and operating the refinery in Rumania, and put the refinery into operation.

The Indian Government, on its part will be

responsible for selecting the refinery site, collecting the necessary data, furnishing all facilities for construction, materials, storage, transportation and drawing up the contract. It will also be responsible for the construction and erection of the refinery with the assistance and under the supervision of Rumanian engineers.

An agreement for the second refinery in the public sector, to be erected at Barauni with the co-operation of the Government of U.S.S.R. is under negotiation (June 1959). The estimated cost of the refinery will be about Rs. 40 crores, of which, it is reported, Rs. 28 crores will represent the foreign exchange content. The refinery is expected to come on stream in 1962.

A Government-owned and Government managed private limited company—Indian

Refineries Limited—was incorporated on August 20, 1958, to control and manage the two proposed refineries. Its total authorised capital is Rs. 30 crores.

These refineries will be fed with crude oil from the Nahorkatiya oil-wells. A 280-mile long pipeline will connect the Gauhati refinery with the oilfields. At a later stage, the pipeline will run for a further 470 miles and will carry crude oil to the Barauni refinery.

Meanwhile, a great deal of preliminary survey has already been made on the route of this pipeline. According to the present programme the first stage of pipeline should be completed by mid-1961 and the second stage by the middle of 1962.

OIL EXPLORATION AND POLICY

At present oil exploration is conducted by four agencies: The Assam Oil Company, The Oil India Ltd., The Stanvac Project, and the Oil and Natural Gas Commission.

Nearly 4,00,000 square miles comprising parts of the Punjab, Ganga Valley, Assam, West Bengal, Gujerat, Kutch, Rajasthan and the East and West Coasts, are considered as areas deserving exploration for petroleum.

The first two agencies operate in Assam, the Stanvac operates primarily in West Bengal and the Oil Commission in the Punjab, H P, Jammu U.P., Rajasthan, Cambay and Kutch.

At the beginning of 1959 there were 98 foreigners helping in drilling surveys all over India.

At Jwalamukhi there is a technical school conducted by Government for training in drilling which trains batches of 20 at a time

Assam Oil Company: India's first oil-well, 102 feet deep, was drilled with a steam-powered drill, near an oil seepage at Nahar Pung in Assam in 1866. It failed to strike oil. But on 28th March 1867, oil was struck at 118 feet at Makum. A few more wells were dug but not much was done for the next twenty years.

Assam Railway and Trading Company were the pioneers in the field of exploration. Between 1890 and 1893 they drilled 4 wells varying in depth from 662 feet to 910 feet. They obtained a concession from the Government to search for oil.

Another company, Assam Oil Syndicate, also obtained a similar concession. Both the companies met with a fair measure of success. By 1898, 15 wells were dug and the crude was refined at Margherita where a small refinery was set up.

The two companies then merged and formed the Assam Oil Company. A refinery was built at Digboi with a capacity of 17,000/20,000 gallons a day.

By 1920, the Assam Oil Company completed about 80 wells. Production reached 14,000 gallons a day. Burmah Oil Company, which had achieved considerable success in Burma, now took over control of the Assam Oil Company and re-equipped Digboi with modern machinery. By 1925, well No. 125, the first large well, was drilled. Production reached 4,500 barrels a day in 1931. Assam Oil Company has drilled nearly 1,000 wells so far out of which nearly 600 are in operation now.

The first gravity survey for sub-alluvial oil prospects in India was carried out by the Assam Oil Company in Nahorkatiya in 1926, long before oilfields had been discovered by such methods anywhere in the world. Seismic survey was carried out in the area in 1938-39, but drilling operations could be undertaken only in 1952. A year later oil was struck at the first well at 11,715 feet. Since then 48 wells have been drilled of which 33 are potential producing wells, and are now shut in pending construction of the pipeline to move the crude to the new refineries to be set up in the public sector.

To advise on the use of natural gas at Nahorkatiya an Italian firm of consultants has been appointed.

Producer wells in Nahorkatiya led to an intensive programme of geophysical surveys over the entire alluvial area of Upper Assam and in March 1959 drilling operations started in Moran. The test well struck oil in September 1956 at 13,739 feet more than 2½ miles.

Wells at Moran are deeper than those at Nahorkatiya. So far 9 wells have been completed and the 10th one has reached a depth of 11,688 feet. Three of these wells have proved to be dry holes.

It is estimated that the Nahorkatiya and Moran oilfields can support a production of 2½ million tons per year and the development of the resources discovered in this area has now been taken over by Oil India Limited, a partnership between the Government of India and the Burmah Oil Company. The reserves of crude oil in Assam are estimated at 42.5 million tons. They will meet about 40 per cent of India's present requirements of about five million tons.

Oil India Private Ltd., a partnership between the Government of India and the Burmah Oil Company, was registered on February 18, 1959, in Shillong, as a Rupee Company. The headquarters of the Company is at Digboi.

Oil India has an authorised capital of Rs 50 crores, divided into 500,000 shares of Rs. 1,000 each. Two-thirds of the share capital will be provided by the Burmah Oil Company and one-third by the Government.

This Rupee Company took over the assets of the Assam Oil Company in the Nahorkatiya, Hooglijan and Moran areas. It will explore and exploit oil resources in the above areas. It will deliver crude oil to the two refineries to be set up in the public sector, one in Assam and the other at Barauni in Bihar. It will undertake the construction of a pipeline in two stages and its operation or such other related facilities as may be considered necessary for the transportation of crude oil up to the two refineries. Burmah Oil Company will advance a sterling loan to the extent of £10 million to meet the foreign exchange content of the cost of the first stage of construction of the pipeline.

Oil India has thus taken over the 48 wells that have already been drilled by Assam Oil Company. Out of these, 8 have proved to be unsuccessful and seven are to be further tested. Thirty-two wells have so far proved successful. The average depth of a well is about 10,614 feet. According to the appraisals made at the end of 1957, the proved possible reserves in this area amount to about 42 million tons.

The Government of India and Standard-Vacuum Oil Company jointly promoted a venture to explore for oil over an area of 10,000 sq. miles in West Bengal and other mutually agreed areas.

The Government has contributed 25% of the expenses. The Government contribution up-to-date stands at Rs. 180,19,882.

Out of 6 wells drilled by Stanvac in Burdwan area, 5 wells proved dry. The results of the 6th well are still awaited.

Oil and Natural Gas Commission: The Oil and Natural Gas Commission, of which the Minister for Oil is chairman, has its headquarters in Dehra Dun and about 1,600 persons on its staff. The Commission has three Directorates—Geology, Geophysics and Engineering.

The Commission has been carrying out deep test drilling at Jwalamukhi, Hosharpur and Cambay and proposes to start operations in Sibsagar.

During 1957-58 field-season, the Oil and Natural Gas Commission had put in 14 geological, 8 gravity-cum-magnetic survey parties, 6 seismic parties, and one electrologging team in different parts of the country. The geological parties mapped 1,818 sq. miles of area and completed 1,147 linear miles of traverses in Punjab, Himachal Pradesh, Jammu, U.P., Rajasthan, Cambay and Kutch.

The total area covered by the gravity-cum-magnetic parties was 13,324 square miles involving observations at 7,108 line miles of traverses levelling. The six seismic parties covered 412 line miles of profiles with the assistance of the Soviet technicians.

For the field season 1958-59, the Commission put in 18 geological parties, 6 gravity-cum-magnetic parties, 3 seismic parties and one electrologging team. The geological parties carried on investigations in Jwalamukhi, Janauri, Mandi, Joginder Nagar, Jaisalmer, Bikaner, Jodhpur, Baroda, Baroch, Choga, etc. and the seismic parties operated at Cambay, Baroda, Mathura, and Baroch. The gravity-cum-magnetic parties operated in Cambay and Jaisalmer and the remaining three in U.P., Kutch and Cambay.

It is proposed to put in 21 field-parties covering 4,200 square miles in north-western, eastern and south-western regions during 1959-60 field season. In regard to geophysical work, the Commission proposes to put 12 field gravity parties and 10 seismic parties. The target for work for the year is to cover 22,500 stations (2,250 square miles) by gravity-cum-magnetic survey, and 2,875 line miles by seismic survey.

The Jwalamukhi Test Well No. 1 reached a depth of 2,678 meters by 15th January 1959. Deep drilling in Hosharpur was started on 5th June 1958 and the well had reached a depth of 3,439.00 meters on 15th January 1959. Drilling was also started in Cambay and Baroda. The well at Baroda had reached a depth of 228.00 meters and the Cambay well 2,191 meters by 15th January 1959.

DISTRIBUTION

Distribution is that stage of the petroleum industry when refined products leave the refinery on their way to the customer. Inland distribution is a very big undertaking in this country. Nearly 6 million tons of petroleum products are now distributed annually.

Up to 1954, the petroleum products obtainable from the only indigenous source Digboi Refinery—were absorbed in Assam and part of North India. The rest of the country's requirements were imported and distributed by Burmah-Shell, Stanvac, Caltex, Indo-Burma Petroleum Company and Western India Oil Distributing Company.

With the commissioning of the two refineries in Bombay in 1954-55 and the one in Visakhapatnam in 1957 the pattern of distribution changed. Large quantities of crude are imported into Bombay and Visakhapatnam and the refined products are distributed throughout the length and breadth of the country.

Currently, refineries in India give the country self-sufficiency in motor spirit, L.D.O., bitumen and furnace oil and meet a large percentage of H.S.D. requirements. In fact, motor spirit and furnace oil production is in excess of demand and some is exported. On the other hand, kerosene, lubricants and H.S.D. are imported to meet the growing demand.

The distribution network consists of a number of large storage points called 'Installations' situated at main ports. Installations receive supplies from the refineries or direct imports from overseas. From the Installations supplies move to the interior by rail to be stored at smaller storage points called 'Depots' scattered all over the country. These Depots in turn feed the surrounding areas.

It was reported at the end of March 1959 that the Government of India was actively considering a proposal to set up an official organisation to undertake the distribution of petroleum products.

The proposed scheme will not mean the displacement of the existing distributing companies, though some diminution of their sphere of activity is inevitable in course of time.

The chief aim of the proposal is to give the Government experience in the organisation of oil distribution in anticipation of the commissioning of the Gauhati and Barauni refineries, whose products will be handled by the Government when the projects are commissioned, beginning with the Gauhati refinery in the first half of 1961.

The oil companies have suggested the establishment of a committee, consisting of officials and representatives of the oil industry, to go into the transportation pattern of the Gauhati and Barauni refineries and to examine such matters as ways and means of removing the imbalance between the production of the oil refineries and the consumption pattern. The general feeling in official circles is that distribution charges constitute an unduly large factor in the final price of petroleum products in this country. On a rough computation, this and the distribution companies' profit works out to 25 per cent. of the consumer cost.

As a result of negotiations with the oil distributing companies, an agreement was reached with them towards the end of May, 1958, resulting in the following:—

(a) With effect from 20th May, 1958, the companies agreed to certain *ad hoc* reductions in their selling prices of major petroleum products. With effect from the same date, these *ad hoc* reductions in the selling prices of the companies were mopped up through the Mineral Oils (Additional Duties of Excise and Customs) Ordinance, 1958 which was later replaced by corresponding Act. As a result, the consumer prices have been maintained at the same level.

(b) Simultaneously, an examination was started by the Chief Cost Accounts Officer of Government, on the quantum and propriety of all charges (from f.o.b. point or points to c.i.f. point) included by the companies in their selling

prices of each product in the past so as to evolve a new price formula to cover all petroleum products marketed in, or from, this country and to arrive at an agreed break up of the items to be included in that new price formula, and the quantum of each such item. The companies agreed to provide all necessary facilities and information for this examination.

The report of the Officer is now under examination.

Despite the growing demand for petroleum products due to rapid industrialisation, supplies were maintained satisfactorily throughout the year. As Kerosene accounts for the bulk of the imports of petroleum products, it was decided, after consulting the distributing companies, in September, 1958 that the total sales during July-December, 1958 would be kept at 5 per cent. below the level of the total sales during the corresponding period in 1957.

As indigenous production during 1958 was in excess of domestic requirements, it was possible to export over 200,000 tons of motor spirit and over 150,000 tons of furnace oil. In addition, over 21,000 tons of paraffin wax, produced from indigenous crude in the Digboi refinery in Assam was also exported.

A committee has been set up under the auspices of the Council of Scientific and Industrial Research to consider ways and means for expanding research and training facilities and setting up an Institute of Petroleum Technology.

With the increase in the consumption of petroleum products, various problems affecting the consumers of petroleum products, have been arising. Therefore, an advisory body, known as the Petroleum Consumers' Advisory Council has been set up in which different Ministries, major consuming industries, and the trade are represented. The first meeting of this Council was held on the 4th November, 1958.

INDEX NUMBERS OF WHOLESALE PRICES—BY GROUPS AND SUB-GROUPS

POSTS AND TELEGRAPHS

At the head of the Department is the Director-General, who is assisted by a Posts and Telegraphs Board of which he is Chairman.

The Department is responsible for the postal, telegraph, telephone and wireless communications of the country.

For purposes of administration, the country has been divided into 13 territorial units, 12 of which are P. & T. Circles, viz., West Bengal, U.P., Punjab, Bombay, Central and Madras Circles, under Postmasters-General; Assam, Orissa, Rajasthan, Andhra and Hyderabad Circles under Directors of Posts and Telegraphs, besides a Postal Circle at Delhi under a Director of Postal Services.

Four Telephone Districts have been set up in the cities of Calcutta, Bombay, Madras and Delhi.

In addition to these, administrative units on a functional basis have also been set up viz. Additional Chief Engineer, P. & T., Jabalpur; General Manager, P. & T. Workshops, Calcutta; Chief Controller of Telegraph Stores, Calcutta; Deputy Director of Postal Life Insurance, Calcutta; Superintendent, Forms Stores and Seals, Aligarh; Superintendent, Forms Stores, Calcutta; and Superintendent, Forms Stores, Nasik.

Though the P. & T. functions as a commercial department its finances are not separate from general revenues.

The revised estimates for 1958-59: gross receipts: Rs. 66.36 crores; working expenses: Rs. 60.98 crores.

1959-60 budget: gross receipts: Rs. 69.24 crores; expenses: Rs. 65.04 crores.

The accumulated surplus on 1st Apr. 1958: Rs. 23.02 crores. The total interest-bearing capital outlay: Rs. 110.64 crores.

Staff: 3,16,617 (on 31st March 1958).

Traffic statistics (1958-59 estimates): total no. of postal articles handled: 350 crores; no. of registered articles handled: 10.3 crores; no. of money orders issued: 6.9 crores; Value of money orders issued: Rs. 275 crores; No. of savings banks transactions: 2.1 crores; No. of telegrams: 3.4 crores; No. of telephone connections: 360,000; No. of trunk calls: 2.5 crores; mileage of wire maintained: 990,000.

The no. of complaints received during 1958 was 4,86,716 and of those finally disposed of was 4,82,378.

Hindi: Efforts continue for the propagation of Hindi: Facilities for booking and transmitting exist in about 1,400 offices. A pocket guide in Hindi has also been brought out. Orders have been issued to publish Telephone Directories in Hindi at certain important places. About 3,000 officials attend classes in Hindi.

Metric System: Accounts have been maintained in the Telephone branch in the decimal system since 1st Apr. 1958. 10 nP, 15 nP and 25 nP revenue stamps were introduced on 1st Oct. 1958. About metric weights and measures, preliminary action connected with the introduction of the first phase in the Engineering Branch with effect from 1st Apr. 1959 was taken. Action to procure the weights and measures has also been taken.

Five Year Plans:

The progress during the First and Second Plans is shown below:

	First Plan	Second Plan (Dec. 31, 1958)
Post Offices	19,712	8,082
Telegraph Offices ..	1,465	839
P.C.O.'s (Long Distance)	916	497
Telephones	109,600	98,000
New Exchanges	847	271
Channel Mileage (Telephones)	44,800	94,600
Channel Mileage (Telegraph)	63,200	70,100

POSTS

No. of post offices (1st Apr. 1958): 61,886 (Rural 54,922; urban 6,964).

New post offices continue to be opened in the rural areas according to the policy laid down in 1953.

The total no. opened from 1st Apr. to 31st Dec. 1958: 1,492 (rural 1,416; urban 76). In 1959 it is proposed to open in all 1,946 (rural 1,804; urban 106).

At the end of 1957 the number of villages (area served by a post-office 20 sq. miles (1951. 35 sq miles)) in which there was a daily delivery was 2,07,499. At the end of 1958 this went up to 2,21,404. The position as in Dec. 1958 for other frequencies was as follows: .

Tri-weekly 1,51,329 villages; twice a week 1,72,267; weekly 1,08,258; over a week 16,655.

The total no. of letter-boxes on 1st Dec. 1958: 1,42,110 (rural 1,08,189; urban 33,921).

About 265 runners covering 2,146 miles were converted to speedier modes of conveyance.

The delivery frequency in rural areas has also increased.

Postal revenue 1957-58: Rs. 34.88 crores.

Postal insurance, total business in force (1957-58): civil Rs. 28.57 crores; military Rs. 5.46 crores. No. of policies: civil 1,36,539; military 8,339.

Postal insurance, new business in 1957-58: civil Rs. 1.52 crores; military Rs. 0.48 crores. No. of new policies: civil 7,843; military 602.

Commemorative stamps: (1958): These were issued on the following occasions: 50th year of steel industry (1st March; 15 nP); birth centenary of Dr. D. K. Karve (18th Apr.; 15 nP); Indian Air Force Silver Jubilee (30th Apr.; 15 nP and 90 nP); birth centenary of Biplin Chandra Pal (7th Nov.; 15 nP); Children's Day (14th Nov.; 15 nP); birth centenary of Jagdish Chandra Bose (30th Nov.; 15 nP); India-1958 Exhibition (30th Dec.; 15 nP).

TELEGRAPHS

By the end of Dec. 1958, only three District towns (in remote NEFA) out of 325 in the whole country, 10 out of 482 sub-divisions, and 168 out of 1,382 *tehsils* remained without telegraph facilities.

The total number of telegraph offices in the country was 5,895 on 31st Dec. 1958. This is exclusive of the licensed telegraphs under the Railways and Canals. The number of offices opened between April and Dec., 1958 was 163.

Mileage of overhead wires (1957-58): 9,53,785.

Mileage of underground cable conductors: 13,65,236.

Telegraph revenue: Rs. 8.2 crores.

The tape relay exchange introduced for the expeditious disposal of traffic functions at present for 23 circuits with a capacity for handling 13,000 messages per day. Similar modernisation of telegraph offices at Calcutta, Delhi and Madras is to be taken up during the Second and Third Plans.

The Printergram service at Bombay is becoming more and more popular. The number of subscribers was 28 at the end of Dec. 1958. It is proposed to have similar boards for Calcutta, Delhi and Madras during the Second Plan.

There were about 1,350 teleprinters in service on 31st Dec. 1958. This is expected to reach about 1,400 by the end of March 1959.

The number of offices where there are facilities for service in Devnagari script was 1,400 on 31st Dec. 1958, including 47 railway telegraph offices. There were 11 classes for training in Hindi telegraph.

The number of telegrams booked in Hindi steadily increases. On an average approximately 7,400 were booked per month during 1958 as against 5,700 during 1957.

TELEPHONES

By the end of Dec. 1958, only 18 out of 325 District towns remained to be provided with telephone exchanges. The number of sub-divisional towns without telephone facility by Dec. 1958 was 48.

The total number of telephones at the end of Dec. 1958 was 3,76,000. The number of new telephones added between 1st Apr. and 31st Dec. 1958 was 29,000.

The total no. of long distance Public Call Offices and local P.C.O.'s was on 31st Dec. 1958, 1,723 and 3,327 respectively. The number added between April and December was 151 and 278 respectively.

The total number of telephone exchanges was 1,082 on 31st Dec. 1958.

Telephone revenue 1957-58: Rs. 18.4 crores.

The Own Your Telephone scheme introduced in Dec. 1949 is in operation in:

New Delhi, Ahmedabad, Calcutta (Barrackpore and Serampore exchanges, and in a relaxed condition at other exchanges), Madras (except Mount Road, Kilpauk and Mylapore areas where it is in operation in a relaxed condition), Bombay (except the 24 and 26 exchange areas where it is in operation in a relaxed condition).

In a relaxed condition it is also in operation in Delhi (Tis Hazari and Karol Bagh exchange areas), Amritsar, Nagpur, Bangalore, Hyderabad, Varanasi.

Where relaxations have been permitted, telephones are also given to non-O.Y.T. applicants.

Upto Oct. 1958 the scheme had 83,475 applicants with a total collection of Rs. 7,59,69,500. The total number of telephone connections provided under the scheme upto that date was 83,147.

The message rate system is in force in 40 towns.

¹ Production started only in 1958.

² Cases of 50 gross boxes of 60 sticks each.

* In addition, vegetable tanning of buffalo and cow hides is also carried on cottage industry basis in almost all villages and on small scale basis by over 500 tanneries mostly in South India. The annual output of tanned buffalo and cow hides by the two sections combined is estimated at 16 to 17 million tanned hides. In addition, this section of the industry also processes about 24 million goat and sheep skins a year for vegetable tanning.

† In addition there are about 250 small chrome tanneries mainly situated in the Calcutta area and owned and run by the Chinese Community. Their annual output is estimated at about 1.5 million hides.

‡ In addition, Western type of leather footwear is also produced on a cottage and small scale industry basis in many parts of the country. Agra is the best known and is the largest Western type footwear producing centre on cottage and small scale industry basis. Annual production by this method is estimated at 12 to 13 million pairs.

§ In addition, indigenous type of leather footwear is also produced on cottage and small scale industry basis in almost all parts of the country. Production from this source is estimated at 65 to 70 million pairs annually.

@ Provisional figures. One unit had given a phased programme which was likely to materialise by the end of 1958, and the production might outstrip the capacity in some cases.

*Provisional figures. One unit had given a phased programme which was likely to materialise by the end of 1958, and the production might outstrip the capacity in some cases.

‡Change in the number of units and installed capacity in respect of Cigarettes, Food, Alcohol industries is due to the revision of different industries after the enforcement of Industrial Act.

@ Capacity for 1957 revised.

† In terms of extracted oils.

‡ In terms of oil cakes.

REFUGEES AND REHABILITATION

BELOW we give a few facts and figures for 1958-59.

Displaced persons from West Pakistan 47.40 lakhs; from East Pakistan 41.17 lakhs (including the post-census migration); total 88.57 lakhs.

Total amount spent on D.P.s upto end of March 1959: Rs. 339.98 crores. Provision for 1959-60: Rs. 84.79 crores.

Total amount spent on D.P.'s from W. Pakistan: Rs. 181.92 crores.

On D.P.'s from E. Pakistan: Rs. 148.06 crores. Dandakaranya: Rs. 6.40 crores.

Total expenditure (1958-59): Rs. 28.47 crores.

The distribution of displaced persons among the various States was as follows as on 31st Dec. 1958:

Andamans 4,000; Andhra 4,000; Assam 487,000; Bihar 87,000; Bombay 415,000; Delhi 501,000; Himachal Pradesh 5,000; Madhya Pradesh 213,000; Madras 9,000; Manipur 2,000; Mysore 7,000; Orissa 12,000; Punjab 2,737,000; Rajasthan 373,000; Tripura 374,000; Uttar Pradesh 496,000; West Bengal 3,161,000.

GRANTS, LOANS

The figures are in Rs. crores and are upto March 31, 1959:

	West Pakistan	East Pakistan	Total
Establishment ..	2.19	0.57	2.76
Grants ..	85.18	69.12	154.30
Loans ..	25.63	38.10	63.73
Housing ..	60.98	34.70	95.68
Miscellaneous ..	0.01	—	0.01
Dandakaranya ..	—	1.30	1.30
Loans by R.F.A. (upto Dec. 31, 1958) ..	7.98	4.27	12.25

Loans advanced to State Governments for rehabilitation upto 31st March 1960 (includes 1959-60 budget):

Total: Rs. 7,213.58 lakhs.

Western Zone: Rs. 2,507.81 lakhs.

Eastern Zone: Rs. 4,133.54 lakhs.

For industrial purposes (total): Rs. 573.23 lakhs.

The total at the top does not include housing loans to States etc. and loans by Rehabilitation Finance Corporation.

Loans to State Governments in 1958-59: Rs. 621.88 lakhs (R.E.).

Loans to State Governments in 1959-60: Rs. 841.27 lakhs (B.E.).

EMPLOYMENT, HOUSING, COMPENSATION

Placements of displaced persons through employment exchanges upto 31st Dec., 1958:

Total: 2,60,000.

Eastern Zone: 58,000; Western Zone: 2,02,000.

Total number of residential units constructed in the eastern zone (31st Dec 1958):

Total: 4,04,000 (by Government 9,000, by D.P.s with State assistance 3,97,000).

The total State-wise (Dec. 1957): Andamans 1,019; Assam 27,313; Bihar 4,035; Manipur 607; Orissa 2,520; Tripura 72,130; Uttar Pradesh 1,173; West Bengal 2,76,639.

Total number of residential units/shops constructed for D.P.'s from W. Pakistan (31st Dec. 1958):

Total of houses/tenements: 1,87,000 (By Government 1,62,000; by D.P.s: 25,000).

Total of shops/stalls: 37,951.

*Some schemes were later cancelled.

The total of houses/tenements State-wise: Andhra 21; Bihar 574; Bombay 43,749; Delhi 50,329; Kashmir 1,700; Kerala 1,324; Madhya Pradesh 5,687; Madras 78; Mysore 55; Punjab 47,525; Rajasthan 2,251; U.P. 18,454. In the townships of Faridabad 5,158; Gandhidham 4,349; Hastinapur 594; Ntikori 983; Prem Nagar 1,900; Rajpura 2,572.

Total number of displaced families from East Pakistan settled on land as in Dec. 1958: 5,78,000.

The total State-wise: Andamans 1,600; Assam 76,300; Bihar 11,700; Manipur 500; Orissa 2,300; Tripura 60,400; U.P. 1,500; W. Bengal 420,500; M.P. 1,500; Rajasthan 200.

Total number of displaced persons from W. Pakistan settled on land: 5,68,000.

The following schemes for the settlement of D.P.'s from East Pakistan in States other than W. Bengal, Tripura and Assam exist (Feb. 1959):

In Bihar: 52 schemes, to cover 4,384 families, area 17,687 acres, expenditure Rs. 165.74 lakhs.

In M.P.: 7 schemes, to cover 2,010 families, total area 13,250 acres, expenditure Rs. 106.55 lakhs.

In Orissa*: 12 schemes, to cover 728 families, total area 3,676 acres, expenditure Rs. 18.85 lakhs.

In Rajasthan: One scheme, to cover 660 families, total area 5,200 acres, expenditure Rs. 35.22 lakhs.

In U.P.: 10 schemes, to cover 1,983 families, total area 11,093 acres, expenditure Rs. 95.18 lakhs.

Total: 82 schemes, to cover 9,765 families, total area 50,908 acres, expenditure Rs. 421.54 lakhs.

Total number of claimants paid compensation as on 31st Jan. 1959: 3,59,667.

Total amount of compensation paid: Rs. 100,56,64,927.

Amount paid in cash: Rs. 51,56,13,812.

Amount paid by transfer of properties: Rs. 32,47,10,875.

Amount paid by adjustment of outstanding dues: Rs. 16,53,40,240.

No. of 1st and 2nd priority categories application received (30th Nov 1958): 1,87,686.

Residual no. of claims: 2,77,447.

No. of allottees (from W. Pakistan) given permanent proprietary rights in land upto 31st Dec. 1958:

In the Punjab 2,60,000

In other States 19,400

Area of land involved:

In Punjab 19,11,000 (stand. acres).

In other States 38,000 stand. acres.

plus 2,45,000 ordinary, plus Rs. 36.5 lakhs worth Groves.

MISCELLANEOUS ITEMS

Relief:
No. of persons in receipt of gratuitous relief from Government: (see top of next column).

Origin of applicants	Applications received	Applications disposed of Net	Applications sanctioned Net	Amount sanctioned	Amount paid

Amount of recoveries made: Principal: Rs. 328.72 lakhs; Interest: Rs. 153.26 lakhs; Total: Rs. 481.98 lakhs.

Temporary liability (E. Pak. D.P.s in camps as on 31st Dec. 1958): 2.07 lakhs.

Permanent and semi-permanent liability (as on 31st Dec. 1958): Total: 58,000.

Maintenance allowance for D.P.'s from W. Pakistan:

No. of recipients (peak figure): 17,000.

Amount released for payment of allowance (upto 31st Dec. 1958): Rs. 140 lakhs.

Industries:

Medium Industries for displaced persons from West Pakistan—

Number of schemes sanctioned upto 31st May, 1958 45

Investment on the part of Government Rs. 192 lakhs

Number of displaced persons expected to be employed 9,400

Small/Cottage Industries for displaced persons from West Pakistan—

Number of schemes sanctioned upto May 1958 50

Expenditure involved Rs. 15 lakhs

Number of displaced persons expected to be employed 1,300

Medium Industries for displaced persons from East Pakistan—

Number of schemes sanctioned upto 31st Oct. 1958 23

Investment on the part of Government Rs. 296 lakhs

Number of displaced persons expected to be employed 12,000

Small/Cottage Industries for displaced persons from East Pakistan—

Number of Schemes sanctioned upto 30th Nov. 1958 123

Expenditure involved Rs. 103.89 lakhs

Number of displaced persons expected to be employed 14,000

Technical and Vocational Training—

Displaced Persons from West Pakistan:

Number trained 92,000

Displaced persons from East Pakistan—

Number trained 36,000

Number under training 6,000

REHABILITATION FINANCE ADMINISTRATION

(Church Road, New Delhi)
Chief Administrator, R. N. Hazari.
Dy. Chief Administrator, N. L. Chatterjee.
Chief Accountant, D. L. Sondhi.
Law Officer, S. Saran Singh.

The relevant statistics are given in the table below. They show the position as at the end of December 1958:

A REVIEW

The year 1958 was a significant milestone in the rehabilitation of displaced persons from Pakistan.

The process of winding up the activities of the Rehabilitation Ministry in the Western region was carried forward, and it was hoped that the task of rehabilitation of D.P.s from West Pakistan would be completed by the end of 1959-60.

In the Eastern region, too steps were taken during the year to rationalise the relief policy and to shift the emphasis from relief to rehabilitation. It was hoped that the rehabilitation problem in the Eastern region also would be substantially resolved by the end of the Second Plan period.

One serious problem is the recovery of rents. All categories were expected to pay a rent for the properties in their occupation. But huge arrears of rent amounting to about Rs. 7-88 crores have accumulated.

A large number of concessions were made, but a majority of the arrears have still not been cleared. Ultimately Government decided that 1. in the case of claimant occupants whose compensation is less than the reserve price of the property, the compensation will be adjusted and the balance if any recovered in much the same way as arrears of land revenue; 2. in the case of non-claimant occupants their cases would be forwarded to collectors for recovery as land revenue; 3. non-displaced persons and displaced non-claimants in occupation of saleable property would be evicted and arrears of rent recovered as land revenue is recovered.

D. Ps. from E. Pakistan

Over 60,000 displaced persons were dispersed from camps during 1958.

It has also been decided that all camps in West Bengal should be closed by the end of July 1959. Of about 45,000 displaced families in these camps, about 10,000 would be rehabilitated in West Bengal and the remaining 35,000 in Dandakaranya and other States of India.

The population in Homes and Infirmarys came down slightly from about 60,000 to 58,000 during 1958. Arrangements are being made to weed out the ineligible from these institutions.

The existing Homes and Infirmarys in West Bengal are proposed to be reorganised into separate institutions for (i) old and infirm persons, (ii) lone women and (iii) women with children. Suitable schemes for providing work, training and education in these institutions will be introduced.

Loans to the extent of Rs. 329.96 lakhs estimated to cover 17,800 families were given for rehabilitation of displaced persons in urban and rural areas during 1958, bringing the total amount of loans advanced till then to Rs. 58.30 crores covering 4.27 lakh families.

Efforts were continued to locate more agricultural land in States outside West Bengal. About 1,100 families were dispersed from Camps in Bihar and 573 families from Orissa for rural rehabilitation in these States. Nine hundred and thirty one families were moved from West Bengal to rehabilitation centres in Madhya Pradesh, 232 families to Rajasthan and 193 to Uttar Pradesh. About 2,959 families were rehabilitated in these three States and 2,705 more families were expected to be rehabilitated under the schemes already sanctioned.

For the rehabilitation of displaced persons in camps in West Bengal, a pilot scheme was sanctioned for the settlement of 200 families on sal-cum-paddy plantation in Midnapore District. A scheme for the rehabilitation of 770 families on 2,750 acres of land in the Hero-bhanga block of Sundarbans was also sanctioned and the possibilities of the development of another 10,000 acres in the same block of the Sundarbans and the Char land of the river Teesta, which could provide rehabilitation facilities to about 2,880 more families was examined.

About rehabilitation in urban areas, Rs. 148.14 lakhs were sanctioned as house-building loans to 6,631 families and Rs. 46.88 lakhs for the grant of business loans to 5,115 families during 1958. Schemes costing Rs. 4.36 lakhs for construction and development of housing colonies in Assam were also sanctioned.

Schemes costing Rs. 50.94 lakhs were sanctioned for providing roads, drains and water supply etc. in 83 urban and rural colonies.

The Contract Division in West Bengal was further expanded by the addition of one more Division. It provides employment to about 1,300 displaced persons daily on an average. A Contract Division at Tripura was also set up on the pattern followed in West Bengal.

About 2,13,000 displaced persons were up till then helped to secure employment in services.

By the end of June 1958, about 34,000 displaced persons were trained in various arts and crafts. About 6,000 were undergoing training in various institutions.

The training schemes for displaced persons are now being integrated with those for the general population i.e. the Polytechnics and the D.G.E.E. training centres.

A Rehabilitation Industries Corporation is also being established under the Chairmanship of Mr. G. D. Birla to set up Industries in the public sector or in partnership with private enterprise and also by giving loans to private entrepreneurs for providing employment to D.P.s from East Pakistan. Funds to the extent of Rs. 5 crores would be made available to the Corporation—with an authorised working capital of Rs. 10 crores—from the allocation of the Ministry of Rehabilitation during the Second Plan period. The Corporation will pay special attention to the setting up of small-scale industries with large employment potential.

The total expenditure on educational facilities to displaced students in the Eastern region, including those in camps and homes, was expected to be about Rs. 194.35 lakhs during the year, while that on medical facilities about Rs. 75 lakhs.

DANDAKARANYA SCHEME

The decision to liquidate the camps in West Bengal by July 1959 has necessitated the speedy development of Dandakaranya so as to provide work and shelter to about 20,000 displaced families who are expected to be moved to that area by the target date.

For the effective and expeditious execution of the scheme a Central Authority, known as the Dandakaranya Development Authority, has been set up. The Authority, which has been vested with wide powers in the matter of appointments, purchase of machinery and equipment, etc., is making arrangements for the reclamation of about 45,000 acres of land, the construction of about 5,000 village houses, the setting up of technical and vocational training centres, establishment of some co-operative societies and two multi-purpose farms during the year 1959-60.

The first batch of settlers in Dandakaranya was moved to that area in February 1959 and the movement will be progressively stepped up so as to achieve the planned target by the end of July 1959.

Dandakaranya of the Ramayana would cover an area of about 80,000 sq. miles embracing parts of Bombay, Madhya Pradesh, Andhra and Orissa. For the present, however a well-defined area of 30,052 sq. miles has been earmarked for development comprising the Bastar District of Madhya Pradesh and the Koraput and Kalahandi districts of Orissa. It is as big as West Bengal State, but has a population of about 30 lakhs. It is rich in forest and mineral wealth.

For administrative convenience it has been divided into five Zones with head-quarters at Pharsgaon, Narainpur, Amraoti, Umakote and Malkangiri.

The Dandakaranya Development Authority consists of a Chairman the Chief Secretaries or

other official nominees of the Governments of Madhya Pradesh and Orissa, the Chief Administrator, three members for Finance, Agriculture and Engineering and a representative of the Ministry of Home Affairs.

The only whole-time Members are the Chief Administrator, and Members, Finance, Agriculture and Engineering. Member Finance is also the Financial Adviser and Chief Accounts Officer of the Authority, while the Chief Administrator is its Chief Executive Officer and Secretary.

The programme will provide employment in the following project activities:— Operation of road transport, Distribution of Consumer Goods, Dairy Units, Manufacture of Bricks and Tiles, Reclamation of land, Construction of Project buildings, Construction of roads, Construction of villages, Irrigation works, Wood Working Centres, Small Scale Industries, Administration of Work Camps.

This scheme also envisages the progressive absorption of displaced officers of the Rehabilitation Department of West Bengal, who are expected to be retrenched as camps in that State are liquidated.

A railway through the area, to connect Bhilai in the north with the port of Visakhapatnam in the South, is considered essential for the proper exploitation of the area's vast mineral and forest resources.

By the end of 1958-59, most of the preliminary work connected with the Scheme would have been completed. About a hundred families have already moved into the area and from March onwards more displaced persons will be moved into the area in progressively large numbers. The following targets are aimed at by the end of 1960:—Reclamation of about 45,000 acres of land; Construction of about 5,000 village houses; Construction of minor and medium irrigation works; Establishment of a technical and vocational training centre; and Establishment of transport, consumer goods and dairy co-operative societies and multi-purpose farms.

Reclamation in Dandakaranya is expected to be on an unprecedented scale as over 2 lakh acres of land are to be reclaimed in the course of 3 to 5 years. A great deal of specialised machinery is required for these operations.

According to the preliminary Project Report prepared by the Chief Administrator, nearly Rs. 37 crores will be required to execute the Project. This report is under consideration. A provision of Rs. 3 crores was made in the budget estimates for 1958-59 against which an expenditure of Rs. 1.13 crores is expected to be incurred. A tentative provision of Rs. 6 crores is made in the budget estimates for 1959-60. The total financial commitments made upto March 1959 exceed Rs. 7 crores.

D. Ps. from W. Pakistan

The task of rehabilitation has nearly been completed, the only outstanding items being the payment of compensation and negotiations with Pakistan. Although not much headway has been made with regard to the latter item, appreciable progress has been made in the payment of compensation to displaced persons.

Out of the total number of 4.68 lakh claimants, about 3.60 lakhs were paid compensation upto January 31, 1959. This figure includes 79,109 claimants who were given first instalment of compensation under the Interim Scheme. 53,711 claimants out of them have since been paid final instalment also. Statements of accounts were issued in 51,159 cases against which the recipients are expected to purchase properties.

The amount of compensation paid upto January 31, 1959, was Rs. 100.58 crores—Rs. 51.56 crores in cash, Rs. 32.47 crores by transfer of properties and Rs. 16.55 crores by way of adjustment of public dues.

Practically all the priority category claimants who numbered about 62,000, have been paid compensation. The few cases which are still pending were expected to be finalised soon.

During the year under review, further concessions were given to displaced persons under the Compensation Scheme. At the same time, steps were taken to speed up the Scheme.

In order to speed up disposal, the work in the Regional Offices at Delhi, Jullundur and Patiala, which was very heavy, was decentralised. Twelve Zonal Offices were established in these regions for processing and finalising compensation cases and also to deal with cases of transfer of allotable properties on the spot. Zonal Officers were given powers to finalise the cases themselves. They were also given powers to recommend hard cases for according priority for payment in cash.

Upto the end of December 1958 about 96,000 evacuee and Government built properties were sold by auction and more than 80,000 transferred by allotment.

In rural areas, evacuee lands in Punjab were allotted on a quasi-permanent basis to 4.77 lakh families. Upto December 31, 1958, permanent rights had been transferred to 2,60,001 allottees covering an area of 19,11,718 standard acres worth Rs. 85.82 crores. Proprietary rights in 82,424 houses allotted along with the lands were also transferred upto that date.

Upto December 31, 1958, 19,420 non-Punjab land claimants were allotted 33,536 standard acres (2,45,451 ordinary acres) of land besides groves worth Rs. 86,50,844 in various States.

Of the 19 townships set up in the Western region for the rehabilitation of displaced persons, the Central Government was directly associated with the construction and administration of four, namely Faridabad, Rajpura, Hastinapur and Nilokheri. Nilokheri and Rajpura townships were transferred to the Punjab Government and Faridabad and Hastinapur were to be transferred to the Punjab and U.P. Governments respectively at any time.

The work relating to health, education, industries, vocational and technical training, homes and infirmaries was also transferred to the Ministries concerned and that relating to housing was expected to be transferred to the Ministry of Works, Housing and Supply at any time.

During the year a sum of Rs. 27.44 lakhs was given as grants to educational, cultural and medical institutions catering mostly to the requirements of the displaced persons. The total

amount given till then to such institution was Rs. 217 lakhs.

There was practically no progress in regard to negotiations with Pakistan about the immovable and movable properties left by the D.P.s in Pakistan. The major problem of immovable property continued to remain unresolved.

The lockers and safe deposits of evacuees left in the two countries, which under the agreement at the Implementation Committee of the two countries were to be exchanged on March 31, 1958, have also not been exchanged because of difficulties created by the Pakistan Government.

However, personal and house-hold effects and trade goods and merchandise lying with the Custodians or Rehabilitation Authorities valued at about Rs. 1.73 lakhs were retrieved, bringing the total value of the property retrieved to Rs. 72.73 lakhs.

Buried treasures valued at Rs. 69 lakhs were recovered from Pakistan upto May 31, 1958, when the agreement for the recovery of such treasures expired. The number of fire-arms received from Pakistan was 1,201.

SPORTS

The sports come within the purview of the Ministry of Education.

The main body for sports is the All India Council of Sports with Dr. P. Subbarayan as President. (For a note on this see under Associations in Delhi).

There are also States Sports Councils in the following States: Andhra, Assam, Bihar, Bombay, Delhi, Himachal Pradesh, Kerala, Madras, Mysore, Orissa, Rajasthan, Tripura, U.P.

A coaching scheme is in existence called the Rajkumari Sports Coaching Scheme. Under the Scheme Coaching Centres have been established where expert Indian and foreign coaches provide guidance.

A national plan is also in operation called the National Plan of Physical Education and Recreation for promoting physical education.

The first national college of physical education—Rani Lakshmi Bai College—was set up at Gwalior in 1957. It offers a three-year degree course in physical education.

PATIALA COMMITTEE REPORT

The Sports Committee appointed by the Government of India in July 1958 with H. H. the Maharaja of Patiala, President of the Indian Olympic Association, as the Chairman, submitted its Report to the Union Minister of Education, Dr. K. L. Shrivallab, on 4th Feb. 1959.

The Committee's Report, which runs into 64 pages and has three Minutes of Dissent, has made recommendations in regard to the promotion of sports in schools and colleges, in rural areas, coaching in sports and games, provision of playgrounds and equipment, the constitution of sports federations and associations, the procedure for grant of assistance to these federations and associations by the Government of India, selection of teams, management of teams, judging, refereeing and umpiring and amateurism in sports. There should be a Central Training Institute to train coaches.

The Committee was appointed by the Union Minister of Education to enquire into the reasons for the poor performance of Indian competitors in international contests and to suggest measures to arrest the decline in the level of performance.

The three Minutes of Dissent are by Rajkumari Amrit Kaur, Mr. Jaipal Singh, M.P., and Prof. Moinul Haq.

Besides the Maharaja of Patiala, the other members of the Committee were: Mr. Naval H. Tata, Rajkumari Amrit Kaur, Mr. Moinul Haq, Dr. P. Subbarayan, Mr. Jaipal Singh,

Gen. K. S. Thimayya, Mr. M. R. Duleepsinhji, Mr. N. N. Wanchoo, Mr. P. N. Kirpal, and Mr. M. N. Masud (Member-Secretary).

The Government accepted the recommendation about the reconstitution of the All India Council of Sports and the State Sports Councils. Other recommendations were under consideration (May, 1959).

The Education Ministry sanctions grants for meeting the actual expenditure or deficit in conducting national tournaments.

During 1958-59 Rs. 9,20,689 were sanctioned under this scheme, including a sum of Rs. 2,10,681 for the third Asian Games held at Tokyo in May 1958.

Two other grants were: The Badminton Association of India—Rs. 5,000 for the National and Inter-State Badminton Championships at Gauhati in Dec. 1958.

The All India Football Federation, Bombay—Rs. 5,000 for the All India Inter-State Football Tournament at Madras.

Stadium at Tellicherry (Kerala)—Rs. 40,000.

Amateur Athletic Federation of India (Patiala)—Rs. 20,000 for holding two coaching camps at Patiala and Trivandrum.

TOURNAMENTS

Below we give the results of the various matches of the year 1958-59.

Badminton

Men's Singles: Nandu Natekar (Bombay); Men's Doubles: N. Natekar and M. Bhoparkikar (Bombay); Mixed Doubles: Amrit Lal Dewan and Miss Meena Shah (Uttar Pradesh); Women's Singles: Mrs. Sushila Kapadia (Bombay); Women's Doubles: Mrs. Sushila Kapadia and Mrs. Prem Prashar (Bombay); Junior Boys' Singles: Suresh Gohel (Uttar Pradesh); Junior Girls' Singles: Miss R. Reddy (Madras); Team Championship: Bombay.

Basketball

Men: Services.
Women: Bengal.
Schools: Bombay.

Billiards

World Championship: Wilson Jones (India); World Snooker: Wilfred Axlax (Malta); National Billiards: Tom Cleary (Australia); National Snooker: Mahomed Ladr (Ceylon).

Boxing

Flyweight: Sammy Khatun (Bombay); Bantamweight: Kuldip Singh (Services); Featherweight: Sarwan Singh (Services); Lightweight: Raghupati (Services); Light-welterweight: Sandy Solomon (Bombay); Welterweight: Ranganathan (Services); Middleweight: Sarkar (Services); Light-heavyweight: A. Ganguly (Railways); Heavyweight: Gur-bachan Singh (Services); Team Championship: Services.

Cricket

West Indies tour of India

West Indies beat India by three Tests; the two others were drawn.

First Test at Bombay: West Indies 227 and 323 for 4 wks. decl. India 162 and 289 for 5 wks. Draw.

Second Test at Kanpur: West Indies 223 and 443 for 7 wks. decl. India 222 and 320. West Indies beat India by 208 runs.

Third Test at Calcutta: West Indies 614. India 124 and 154. West Indies won by an innings and 336 runs.

Fourth Test at Madras: West Indies 500. India 222 and 151. West Indies won by an innings and 127 runs.

Fifth Test at Delhi: India 415 and 275 for 9 wks. West Indies 644. Draw.

Ranji Trophy: Bombay

Rohinton Baria Trophy (Inter-University): Bombay.

Cooch Behar Trophy (Inter-Schools): West Zone.

The members of the Indian cricket team touring England are: Dattaji Rao Gaskwad (Captain), Pankaj Roy (Vice-Captain), P. G. Joshi, P. R. Umrigar, V. L. Manjrekar, S. P. Gupta, B. B. Desai, Surendranath, A. G. Kripal Singh, A. L. Apte, N. J. Contractor, V. Muddiah, B. G. Nadkarni, N. S. Tamhane, J. M. Ghorpade, C. G. Borde and Jayshintha.

Manager: Maharaja Fatehsinh Gaskwar of Baroda.

Cycling

National Cycling

1,000 metres sprint: Paul Pfister (Mysore); 1,000 metres time trial: Paul Pfister (Mysore); 4,000 metres individual pursuit: Amar Singh (Railways); 4,000 metres team pursuit: (Mysore); 95-mile road race: Shaikh Bashir (Maharashtra); 55-mile roadster race: Datta Bahule (Maharashtra).

Women's Events

1,000 metres scratch: Miss Gurdip Kaur (Northern India).
2,000 metres lap race: Miss Prema C. Jerie (Mysore).
2,000 metres team pursuit: Northern India.

Football

Santosh Memorial Trophy: Bengal.
Rover's Cup: Calcutta, Bombay.
I.F.A. Shield: East Bengal.

Golf**All-India Golf**

Men: Ashok Malik.
Women: Mrs. G. W. Ribbons.

Hockey

National: Railways.
Aga Khan: Northern Railway.
Bombay Gold Cup: Punjab Police.
Beighton Cup: Corps of Signal, Kirkee.

Kabaddi

Men: Railway Sports Control Board.
Women: Bombay.

National Athletics**Men**

100 metres: V. Martin (Madras); 200 metres: Milkha Singh (Services); 400 metres: Milkha Singh (Services); 800 metres: Daljit Singh (Services); 1,500 metres: Mukhtiar Singh (Services); 3,000 metres steeplechase: Pan Singh (Services); 5,000 metres: Pan Singh (Services); 10,000 metres: Butta Singh (Services); 110 metres hurdles: Jagmohan Singh (Punjab); 400 metres hurdles: Jagdev Singh (Punjab); 50 kilometres walk: Ajit Singh (Services); 20,000 metres walk: Zora Singh (Services); 4 x 100 metres relay: (Services); 4 x 400 metres relay: (Services); Marathon: Ran Bahadur (Services); Broad Jump: B. Satyanarayana (Madras); High Jump: Ajit Singh (Services); Hop, step and jump: Mohinder Singh (Services); Pole Vault: Lakbir Singh (Punjab); Putting the shot: Parduman Singh (Services); Discus Throw: Parduman Singh (Services); Javelin Throw: Bakshish Singh (Punjab); Hammer Throw: Devidayal (Services); Team Championship: (Services); Decathlon Champion: C. M. Muthiah.

Women's Events

100 metres: Stephanie D'Souza (Bombay); 200 metres: Stephanie D'Souza (Bombay); 4 x 100 metres relay: (Bombay); 80 metres hurdles: Violet Peters (Bombay); Broad Jump:

Marie Brown (Mysore); High Jump: R. M. Vanajaya (Mysore); Putting the Shot: Elisabeth Davenport (Rajasthan); Javelin Throw: Elisabeth Davenport (Rajasthan); Discus Throw: Man Mohini Oberoi (Madras); Team Championship: (Bombay).

Races**Bombay Races**

1,000 Guineas: Mrs. G. Chavan and Mr. T. Godse's "Meherban".
2,000 Guineas: Maharaja of Jammu & Kashmir's "Fair Wood".
The Indian Derby: Maharaja of Jammu & Kashmir's "Fair Wood".
The Oaks: Mrs. G. Chavan and Mr. T. Godse's "Meherban".
The Eclipse Stakes: Mr. R. J. Sigtia's "Exaggerator".
The St. Leger: (Mrs. Ahmedbhai and Mrs. Talib's "Kun Kaan".

Poona Races

Colts and Fillies' Trial: Messrs. Dutia and Kanga's "Temptation".

Calcutta Races

Calcutta Derby: Messrs. H. P. Au and B. N. Shaw's "Mr. Whisman".
Queen Elizabeth II Stakes: Brig. Hill, Mrs. Jeffares and Mrs. Hill's "Radicular".

Madras Races

South India Derby: Mr. M. P. Davis's "Soone Stone".

Rugby

All-India Tournament: Ceylon.

Swimming**Men**

100 metres backstroke: L. Bajaj (Bombay); 100 metres butterfly: Arun Shaw (Bengal); 100 metres freestyle: L. Bajaj (Bombay); 100 metres breaststroke: Ram Deo Singh (Services); 200 metres backstroke: Ram Deo Singh (Services); 200 metres butterfly: S. G. Jathi (Bombay); 200 metres freestyle: Ram Singh (Services); 200 metres breaststroke: Rup Chand (Services); 400 metres freestyle: Ram Singh (Services); 1,500 metres freestyle: Ram Singh (Services); 4 x 100 metres medley relay: (Services); 4 x 100 metres freestyle relay: (Bombay); 4 x 200 metres freestyle relay:

(Services); Spring Board Diving: Rajrang Prasad (Services); High Board Diving: Rajrang Prasad (Services); Water Polo: Bengal; Team Championship: (Services).

Women

100 metres backstroke: Sandhya Chandra (Bengal); 100 metres freestyle: Kalyani Bose (Bengal); 100 metres breaststroke: Anuradha Guha Thakuratha (Bengal); 200 metres freestyle: Kalyani Bose (Bengal).
400 metres freestyle: Kalyani Bose (Bengal); 4 x 100 metres freestyle relay: (Bengal); Team Championship: (Bengal).

Table Tennis

Men's Singles: Gautam Divan (Bombay); Men's Doubles: Gautam Divan and Sudhir Thackersey (Bombay); Mixed Doubles: K. Nagraj and Usha Sunderraj (Mysore); Women's Singles: Meena Parande (Maharashtra); Women's Doubles: Joy D'Souza and Frisca Nunes (Bombay); Junior Boys' Singles: Himansu Vakil (Bombay); Junior Girls' Singles: Indira Iyengar (Delhi); Team Championship (Men): (Bombay); Team Championship (Women): (Bombay).

Tennis

Men's Singles: R. Krishnan; Men's Doubles: R. Krishnan and Nareesh Kumar; Mixed Doubles: Mrs. K. Singh and Nareesh Kumar; Women's Singles: Miss D. Appiah; Women's Doubles: Miss D. Appiah and Mrs. K. Singh; Junior Boys' Singles: J. Mukherjee; Junior Girls' Singles: Miss D. Appiah.

Volleyball

Men: Railways.

Weight-Lifting

Light-heavy weight: Balbir Singh (Delhi); Middle-heavy weight: K. Easwar Rao (Andhra); Heavy weight: C. R. Shetty (Railways); Light weight: N. Das (Railways); Middle weight: B. Guin (Railways); Feather weight: L. K. Das (Railways); Bantam weight: A. K. Das (Railways); Team Championship: (Railways); Best Physique (Bharat Shree): Class I: Satya Paul (West Bengal); Class II: Santi Chakraborty; Class III: Dulal Dutta (West Bengal).

Wrestling

Fly weight: Zilasingsh (Services); Light-weight: Hariram (Services); Welterweight: Lakshmikanth Pandey (Uttar Pradesh); Middle weight: Madhosingh (Services); Bantam weight: T. K. Pandey (Uttar Pradesh); Heavy weight: Suraj Bhan (Delhi); Feather weight: Gyan Prakash (Delhi).

SECOND FIVE YEAR PLAN

TARGETS AND ACHIEVEMENTS UNDER FIRST PLAN

	1950-51	Increase (Plan target)	1955-56 (achievement)	Achieve- ment as percent- age of target
Agricultural Production				
Foodgrains (lakh tons)	540 *	78	649	143
Cotton (lakh bales)	29.7	12.6	40.0	82
Jute (lakh bales)	33.0	20.9	42.0	43
Sugarcane in terms of gur (lakh tons)	56.2	7.0	58.6	25
Oilseeds (lakh tons)	50.8	4.0	56.6	156
Electricity (installed capacity) (lakh KW)	23	13	34	84
Irrigation (lakh acres)	510	197	650	71
Industrial Production				
Finished steel (lakh tons)	9.8	6.7	12.8	45
Pig iron (lakh tons)	15.7	12.6	17.9	17
Cement (lakh tons)	26.9	21.1	45.9	90
Ammonium sulphate (thousand tons)	46.3	404.0	394.0	86
Locomotive (Nos.)	3	170	179	104
Jute manufactures (thousand tons)	824	376	1,054	61
Mill-made cloth (lakh yards)	37,180	9,820	51,020	141
Bicycles (thousand)	97	433	518	96
Transport				
Shipping (lakh GRT)	3.9	2.2	4.8	41
National highways (thousand miles)	12.3	0.6	12.9	100.9
State roads (thousand miles) Surfaced	97.5	—	121.6	—
Unsurfaced	151.0	—	195.1	—
Health				
Hospital beds (thousand)	113	12	136 *	—
Dispensaries and hospitals (rural and urban) (number)	8,600	1,400	9,806 **	—
Education				
Primary schools (number in thousand)	209.7	—	280.0	—
Number of pupils in primary schools/classes (lakhs)	186.8	101.2	246.1	60.6
Percentage of school going children in age- group 6-11	41.2	18.8	51.1	53.0
Basic schools (number)	1,751	—	15,800	—
Number of pupils in basic schools (lakhs)	1.85	—	11.0	—

* Base 1949-50.

** 1954-55 figures (1955-56 figures are not available).

The First Plan was regarded as essentially a preparatory stage. The country carried what-
ever was under construction a step further.

The total outlay was initially fixed at Rs. 2,000
crores but was later raised to Rs. 2,356 crores.
The actual outlay was of the order of Rs. 1,960
crores.

The emphasis was on agriculture, irrigation
and power. Transport and communications also
had priority. But industrial expansion was
left in the main to the private sector to look after.

The percentage of outlay on individual items
was roughly as follows :

Agriculture and community development
14.8, irrigation and power 29.1, industries and
mining 8.0, transport and communications
26.4, social services 21.0, miscellaneous 3.7.

National income is estimated to have increased
by 18.4 per cent during the Plan from about
Rs. 8,850 crores to about Rs. 10,490 crores.
The per capita income also rose by about 10.8
per cent from Rs. 246 to Rs. 274 per annum.
The rate of investment rose by 2 per cent from
5 to 7. All this was higher than what was
planned.

The resources for the Plan were raised in the
following manner (Rs. crores) :

Revenue including Railways 752, public loans
205, small savings and unfunded debt 304,
miscellaneous receipts 91, external assistance
188, deficit financing 420.

Thus the total from domestic budgetary
resources was Rs. 1,352 crores.

REVISED PLAN ALLOCATIONS AND ANTICIPATED OUTLAYS SECOND PLAN

Details are as follows :

(Rs. crores)

Head of Development	Five-Year Plan Allocations (Revised)			Anticipated outlays for 1956-59			Anticipated outlays for 1956-61		
	Total	Centre	States	Total	Centre	States	Total	Centre	States
1. Agricultural Production	94	10	84	40	4	36	90	9	81

GRAND TOTAL	4,800	2,593	2,207	2,456	1,394	1,062	4,500	2,452	2,048

Of the total outlay about Rs. 3,800 crores are devoted to the building up of capital assets and the rest to current development expenditure.

OUTLAY 1956-59

A later estimate showed the position at the centre as follows :

(Rs. crores)

Head	1956-57 (Actual)	1957-58 (Expected)	1958-59 (Expected)	Total (1956-59)
Plan outlay	341.6	500.0	582.0	1,423.6
Domestic budgetary resources	279.1	137.2	319.9	736.2
External assistance	37.8	95.0	325.0	457.8
Total resources including external assistance	316.9	232.2	644.9	1,194.0
Central assistance for State plans	157.1	189.4	221.3	567.8
Resources after allowing for Central assistance	159.8	42.8	423.6	626.2
Budgetary deficit	181.8	457.2	158.4	797.4

In the States

	1956-57 (Actual)	1957-58 (Expected)	1958-59 (Expected)	Total (1956-59)
Plan outlay	297.2	345.9	399.4	1,042.5
States' own normal resources	82.8	118.9	188.6	390.3
Central assistance	157.1	189.4	221.3	567.8
Aggregate resources	239.9	308.3	409.9	958.1
Budgetary gap	57.3	37.6	—10.5	84.4

SECOND PLAN

The objectives of the Second Plan (1956-61) may be summarised as follows :

1. An increase of 25 per cent in the national income, 2. The development of basic industries, 3. Increase in employment opportunity, 4. Reduction in economic inequality, 5. Wider diffusion of economic power.

The total proposed outlay was Rs. 4,800 crores. The total outlay still is Rs. 4,800. But the perspective in 1957-58 changed. This is how it seemed then.

The outlay on the Plan during the first two years (1956-1958) was Rs. 1,496 crores. For 1958-59 the outlay was estimated at Rs. 960 crores, leaving a balance of Rs. 2,344 crores over the last two years of the Plan, which is a little less than one-half of the five year total.

The resources available for the last two years were placed at Rs. 1,804 crores, thus bringing the five year total to Rs. 4,260 crores.

These were the estimates then made.

The National Development Council, while deciding to maintain the Second Plan outlay at Rs. 4,800 crores, suggested that projects and programmes to be undertaken within this ceiling should be divided into two parts.

Part (A) of the Plan involving a total outlay of Rs. 4,500 crores should include, besides projects and programmes directly related to increase in agricultural production, "Core Projects" and projects which have reached an advanced stage and other inescapable schemes.

The remaining schemes should be included in Part (B) of the Plan with a total outlay of Rs. 300 crores.

The 'core' projects are given at the end of the article.

PRIVATE INVESTMENT

Private investment over the Plan period is estimated at Rs. 2,400 crores. The ratio of public to private investment in the First Plan was 50 : 50. In the Second Plan the ratio is estimated at 61 : 39.

The outlay of Rs. 2,400 crores in the private sector are allocated as follows (Rs. crores).

Organized industry and mining 575; Plantations, electric power, transport 125; construction 1,000; agriculture, village and small-scale industries 300; stocks 400.

TARGETS—SECOND PLAN

The principal targets of production and development in the Second Plan period as originally laid down both in the public and private sectors are set forth below :—

	1950-51	1955-56	1960-61	Percentage increase over 1955-56
I. AGRICULTURE				
Food grains (million tons)	54.0*	65.0	75.0	15
Cotton (bales)	2.9	4.2	5.8	21
Sugarcane, raw gur (million tons)	5.6	6.8	7.1	25
Oilseeds	5.1	5.5	7.0	27
Jute (bales)	3.3	4.0	5.0	25
Tea (pounds)	613	644	700	9
National Extension Blocks (Nos.)	NH	500	3,800	680
Community Development Blocks (Nos.)	NH	623	1,150	80
Population served by National Extension & Community Development Programmes (million persons)	NH	80	325	306
Village Panchayats (Thousand Nos.)	83	118	200	70
II. IRRIGATION & POWER				
Area irrigated (million acres)	51	67	88	81
Electricity (Installed capacity, million kW)	2.3	3.4	6.9	103
III. MINERALS				
Iron Ore (million tons)	3.0	4.3**	12.5	191
Coal	32.3†	38.0†	60.0†	58
IV. LARGE-SCALE INDUSTRIES				
Finished steel (million tons)	1.1	1.3	4.2	281
Pig Iron (for sale to foundries) (million tons)	—	0.38	0.75	97
Aluminium (000 tons)	3.7	7.5	25.0	238
Heavy steel forgings for sale (000 tons)	NH	NH	12	—
Heavy steel castings for sale (000 tons)	NH	NH	15	—
Steel structural fabrications (000 tons)	N.A.	180	500	178
Machine Tools (graded) (value in Rs. lakhs)	31.6	75	300	300
Cement Machinery	N.A.	56**	200	257
Sugar Machinery	N.A.	28**	250	779
Textile Machinery : Cotton & Jute (value in Rs. lakhs)	N.A.	413	1,950	373
Paper Machinery (value in Rs. lakhs)	Neg.	Neg.	400	—
Power Driven Pumps Centrifugal (000 Nos.)	34	40	84	115
Diesel Engines (000 H.P.)	N.A.	100	205	105
Automobiles (Nos.)	16,500	25,000	57,000	128
Railway Locomotives (Nos.)	3	175	400	139
Tractors (20-30-75 H.P.) (Nos.)	—	—	300	—
Cement (Million tons)	2.7	4.3	13	203
Fertilisers :				
(a) Nitrogenous (in terms of Ammn. Sulphate) (000 tons)	46	380	1,450	282
(b) Phosphatic (in terms of Superphosphate) (000 tons)	55	120	720	500
Sulphuric Acid (000 tons)	99	170	470	176
Soda Ash	45	80	230	188
Caustic Soda	11	36	150	317
Petroleum Refinery (crude processed) (million tons)	—	3.6	4.3	19
Electric Transformers 33 K.V. and below (000 KVA)	179	540	1,360	151
Electric Cables ACSR conductors (tons)	1,420	9,000	19,000	100
Electric Motors (000 H.P.)	99	240	600	150
Cotton Textiles (million yards)	4,618	6,850	8,500	24
Sugar (million tons)	1.1	1.7	2.3	85
Paper & Paper Board (000 tons)	114	200	350	75
Bicycles (Organised sector only) (000 Nos.)	101	550	1,000	63
Sewing Machines (Organised sector only) (000 Nos.)	33	110	230	100
Electric Fans (000 Nos.)	194	275	600	118
V. TRANSPORT AND COMMUNICATIONS				
(a) Railways				
1) Passenger train miles (millions)	95	108	124	15
2) Freight carried (million tons)	91	120	163	35
(b) Roads :				
1) National Highways (000 miles)	12.3	13.9	13.8	7
2) Surfaced Roads (000 miles)	97.0	107.0	125.0	17
(c) Shipping :				
1) Coastal & Adjacent (Lakh GRT)	2.2	3.2	4.3	34
2) Overseas (Lakh GRT)	1.7	2.8	4.7	687
(d) Ports :				
Handling capacity (million tons)	20	25	32.5	30
(e) Posts & Telegraphs				
1) Post Offices (000 Nos.)	36	55	75	36
2) Telegraph Offices (000 Nos.)	3.6	4.9	6.3	25
3) Number of telephones (000 Nos.)	168	270	450	67
VI. EDUCATION				
School-going children to per cent of children in the respective age group :				
(a) Primary Stage (6-11 age group)	42.0	51.0	63.0	—
(b) Middle Stage (11-13 age group)	14.0	19.0	23.5	—
(c) Higher Secondary Stage (14-17 age group)	6.4	9.4	13.0	—
Elementary/Basic Schools (lakhs)	2.23	3.98	5.50	19
Teachers in Primary/Middle Secondary Schools (lakhs)	7.4	10.3	15.4	30
Teachers Training Institutions (Nos.)	335	1,136	1,412	24
Enrolment in Teachers Training Institutions (000 Nos.)	75.6	103.5	124.2	30

* Relates to the year 1949-50.

** Relates to the calendar year 1954.

† Figures relate to calendar years.

§ Inclusive of tramp tonnage.

TARGETS—Contd.

	1950-51	1955-56	1960-61	Percentage increase over 1955-56
VII. HEALTH				
Medical Institutions (000 Nos.)	8.6	10.0	12.6	26
Hospital beds (000 Nos.)	113	125	155	24
Doctors	50	70	85	18
Nurses	17	22	31	41
Midwives	18	26	32	28
Nurse-Dais & Dais (000 Nos.)	4	6	41	453
Health Assistants and Sanitary Inspectors (000 Nos.)	3.5	4	7	75

The food and raw material targets were later revised as the original targets were found inadequate and the revised targets are as follows:

Food grains 805 lakh tons; cotton 65 lakh bales; jute 55 lakh bales; sugarcane 78 lakh tons in terms of gur; oilseeds 76 lakh tons.

ECONOMY

The changes expected to come from the implementation of the Plan in national income,

investment, savings and consumption are given in the table below.

The point about employment may be mentioned here. Full time additional employment in the non-agricultural sector is estimated at 65 lakhs, and in the agricultural sector at 15 lakhs. The total labour force created during the period will however be 100 lakhs. Total employment will thus fall short by 20 lakhs.

The following table shows the estimated position in regard to income, investment, savings and consumption at various stages:

NATIONAL INCOME, INVESTMENT, SAVINGS AND CONSUMPTION

(Rs. crores at 1952-53 prices)

	1950-51	1955-56	1960-61	Percentage increase during	
				1951-56	1956-61
Net National Product by Industrial Origin.					
Agriculture and Allied Pursuits	4,450	5,220	6,170	18	18
Mining	80	95	150	19	58
Factory Establishments	590	840	1,380	43	64
Small Enterprises	740	840	1,095	14	30
Construction	180	220	295	22	34
Commerce, Transport and Communications	1,650	1,875	2,300	14	23
Professions and Services including Government Administration	1,420	1,700	2,100	20	23
Total National Product (National Income)	9,110	10,900	13,480	18	25
Per Capita Income (rupees)	253	281	331	11	18
Investment, Savings and Consumption.					
Net Investment	448	790	1,440	—	—

RESOURCES

(Rs. crores)

	Estimates in the Plan	Estimates as re-appraised
(A) Domestic Budgetary Resources—		
(a ₁) Surplus from current revenues	800	750
(a ₂) Borrowings from public loans and small savings	1,200	984
(a ₃) Railways' contribution	150	250
(a ₄) Provident Fund and other deposit heads	250	20
Total	2,400	2,023
(B) Resources to be raised externally	800	1,038
(C) Deficit financing	1,200	1,300
(D) Gap to be covered by measures to raise additional resources	400	—
Total Resources	4,800	4,260

Estimates of resources for the private sector are as follows:

(Rs. crores)

	1951-56	1956-61
Loans from Industrial Finance Corporation and State Financial Corporations and Industrial Credit and Investment Corporations	18	40
Direct and indirect loans from Governments, Central and State participation	26	20
Foreign capital, including suppliers' credit	42-45	100
New issues	40	80
Internal resources (from new investment and replacements)	150	300
Other sources such as advances from managing agents, EPT refunds, etc.	61-64	90
Total	340	620

The surplus from current revenue of Rs. 800 crores is made up of Rs. 350 crores at 1955-56 rates of taxation and Rs. 450 crores of additional taxation.

About external resources, there was a balance of about Rs. 100 crores available from the First Plan—only about Rs. 300 crores had been utilized out of an available Rs. 298 crores—and a net amount of Rs. 76 crores credit from the U.S.S.R. and the U.K. was also available to finance the steel projects.

The deficit financing would really amount to Rs. 1,000 crores as Rs. 20 crores would be drawn from the sterling balances.

PLAN RESOURCES (1956-61)

The latest estimates of the resources for the first three and the last two years of the Plan at the Centre and in the States are given below :
(Rs. crores)

Head	Estimates for the first three years (1956-59)			Estimates for the last two years (1959-61)			Total for the five years (1956-61)		
	Centre	States	Total	Centre	States	Total	Centre	States	Total
Domestic budgetary resources									
Balance from current revenue ..	250	178	428	140	182	322	390	360	750
Railways' contribution ..	126	—	126	124	—	124	250	—	250
Loan from the public (net) ..	328	113	441	170	107	277	498	220	718
Small savings ..	96	115	211	59	114	173	155	229	384
Unfunded debt and Misc. capital receipts ..	-64	-16	-80	25	-19	6	-39	-35	-74
Total of domestic resources ..	736	390	1,126	518	384	902	1,234	774	2,028
External assistance ..	458	—	458	642	—	642	1,100	—	1,100
Total of budgetary resources and external assistance ..	1,194	390	1,584	1,160	384	1,544	2,334	774	3,128
Central assistance ..	-568	568	—	-470	470	—	-1,038	1,038	—
Resources after adjusting for Central assistance ..	626	958	1,584	690	854	1,544	1,316	1,812	3,128
Deficit financing ..	798	84	882	200	10	210	998	94	1,092
Total resources—Plan outlay ..	1,424	1,042	2,466	890	864	1,754	2,314	1,906	4,220

Total investments will thus total Rs. 4,220 crores against the proposed outlay of Rs. 4,500 crores. There will thus be a shortfall of Rs. 280 crores—Rs. 196 crores at the Centre and Rs. 82 crores in the States.

It is to meet this gap that the National Development Council decided in November 1958 to take over the wholesale trade in food grains. Other decisions to meet the situation were promotion of village or operatives, drive for economy and a search for additional resources. Deficit financing in the next two years should not rise above Rs. 100 crores.

The balance of payment deficit over the whole Plan period would be Rs. 2,000 crores. About Rs. 1,000 crores would have been incurred by the end of the third year. It may be mentioned here that the foreign assets of the Reserve Bank declined from Rs. 746 crores in April 1956 to Rs. 211 crores in February 1959. To tide over the immediate difficulty foreign assistance of 350 million dollars was arranged for the period October 1958—March 1959. The amount of foreign assistance needed for the rest of the period of the Plan is 650 million dollars.

CORE PROJECTS

As mentioned before it became necessary early in 1957 to define strict priorities among projects requiring foreign exchange so as to ensure the implementation of certain essential projects which could be regarded as constituting the 'core' of the Plan.

The projects included in the 'core' are the steel plants and the coal and lignite programmes both in the public and private sectors, the programmes of the railways and major ports, and certain selected power projects over and above those already covered by foreign aid.

'Core' projects in the public sector entail a total expenditure during the Plan period of about Rs. 1,800 crores, of which it is expected that about Rs. 1,120 crores will have been incurred during the first three years.

The total foreign exchange cost of all the 'core' projects in both the public and the private sectors is about Rs. 962 crores.

The details of this amount, the foreign exchange expenditure already incurred or committed and the further commitments still required to be made are shown in the following table :—
(Rs. crores)

Projects	Total foreign exchange cost in the Second Plan	Expenditure incurred or committed as on 31-3-1958	Fresh commitments necessary for completion
Steel			
(a) Public Sector			
(i) Bhilai Steel Plant ..	85.67	80.68	4.99
(ii) Rourkela Steel Plant ..	120.00	107.35	12.65
(iii) Durgapur Steel Plant ..	95.90	90.90	5.00
(iv) Ferro-silicon plant under the Mysore Iron & Steel expansion programme ..	0.65	0.65	—
(b) Private Sector ..	86.35	74.43	11.92
Coal			
(a) Public Sector			
(i) N. C. D. C. ..	15.0	5.83	9.17
(ii) Singareni collieries ..	8.25	1.85	6.40
(b) Private Sector ..	10.00	3.30	6.70
Washeries ..	7.50	2.50	5.00
Neyveli Lignite Project (Mining part only) ..	10.50	6.70	3.80
Railways (Schemes requiring foreign exchange) ..	431.68*	255.00*	176.68*
Ports (Bombay, Calcutta, Madras and Vishakhapatnam and the Dredger Pool) ..	25.00 60.40	8.89 24.40	26.11 36.00
Power Projects ..			
Total ..	961.85	685.48	276.37

* This is inclusive of Rs. 6.62 crores of P & T requirements in connection with Railway electrification.

It will be seen that of the further commitments still to be made the requirements of the Railways form by far the largest single item.

The figures in respect of Railways and the ports relate to the entire programmes as included in the Plan. These were originally treated as part of the 'core' without any curtailment, as it was believed that assistance would be forthcoming from the World Bank. But this will not be sufficient to meet in full the outstanding foreign exchange requirements.

As a result of a review it is considered that a saving of about Rs. 30-40 crores of foreign exchange might be possible by postponing some of the less essential projects. Similarly, in the case of the ports, it is hoped that the

programmes already undertaken and those which are likely to be taken up with World Bank assistance will enable the tonnage capacity of 23 million tons envisaged in the Plan to be achieved.

The foreign exchange requirements of other 'core' projects, amounting in all to Rs. 80.0 crores, will not admit of any reduction without serious repercussions on the projects themselves.

Projects

PUBLIC SECTOR

1. **Steel**: Rourkela Steel Plant; Bhilai Steel Plant; Durgapur Steel Plant; and Mysore Iron & Steel Works (Ferro-silicon Expansion).

2. Coal and Lignite :

(a) National Coal Development Corporation Scheme. Kathara. Korba (Open cast). Korba (inclines). Gidi. Saunda. Korea. Existing State Collieries.

(b) Singareni Collieries.

(c) Coal Washeries.

(d) Neyveli Lignite Project (mining part).

3. *Railway Development Programme* (including the requirements of the Posts and Telegraphs Department in connection with the railway electrification programme).

4. *Ports Development Programme*: Bombay. Calcutta. Madras. Vishakhapatnam. Dredger Pool.

5. Power Projects :

Korba Thermal Station (Madhya Pradesh). Khaperkheda Akola, Thermal Station Extensions (Bombay).

Hirakud Project (II stage), (Orissa).

Lakkavalli (Bhadra) Project (Mysore).

Bhakra-Nangal H.E. Project (Punjab and Rajasthan).

Chambal Project (first stage) (M.P. State/Rajasthan).

Rihand Project (Uttar Pradesh).

Tungabhadra H.E. Scheme (Mysore).

Narlamangalam H.E. Scheme (Kerala).

Thermal Stations in Saurashtra region (Bombay).

Ganderbal & Mohra Power Stations (Jammu & Kashmir).

Power Transmission, distribution and extension schemes (sub-stations equipment, conductors, switchgears, underground cables, steel for supports, ground water meters, etc.).

PRIVATE SECTOR

1. *Steel*: Tata Iron & Steel Works. Indian Iron & Steel Works.

2. *Coal*.

PLAN INVESTMENTS—STATE-WISE (1)

The following table shows the Plan investments and the investments for 1958-59 and 1959-60. (Rs. in lakhs)

States	1958-59	1959-60 Budget	Plan
Andhra Pradesh	3,600.08		17,575.00
Assam

SMALL SAVINGS

Below we give the figures for 1957-58 for various categories which are together classed as Small Savings. The figures are in Rs. lakhs:

National Savings Certificates :

Five Year Certificates, outstandings: 2.22 (discontinued from July 1, 1953).

Seven Year Certificates, outstandings: 4.73 (discontinued from June 1, 1957).

Twelve Year Certificates, outstandings: 143.45 (discontinued from June 1, 1957).

Twelve Year National Plan Savings Certificates :

Receipts: 71.45; Outstandings: 71.43 (issued from June 1, 1957).

Post Office Savings Bank Deposits :

Receipts: 179.86; Outstandings: 213.91.

Ten Year National Plan Certificates :

Outstandings: 23.11 (issued from May 10, 1954 to May 30, 1957).

Post Office Cash Certificates, Defence Saving Certificates, Defence Savings Bank Deposits :

Outstandings: —39.73 (progressive net repayments at the end of period from Aug. 15, 1947).

Ten Year Treasury Savings Deposit Certificates, 8½% :

Outstandings: 43.58 (net sales from June 1, 1957).

Ten Year Treasury Savings Deposit Certificates, 4% :

Receipts: 588; Outstandings: 547 (issued from June 1, 1957).

Fifteen Year Annuity Certificates :

Receipts: 63; Outstandings: 1.87 (Relates to first series issued from July 1954 to Dec. 1957 and to second series issued from January 1958).

Total :

Receipts: 264.32; Outstandings: 509.77 (outstandings in relation to the item under Post office cash certificates, etc. are not included).

Below we give the net achievements in small savings series for 1957-58 and 1958-59 State-wise. The figures are without counting the interest on the POSSB accounts which accrues to every State. The target set for 1957-58 was Rs. 100 crores.

The achievement is as follows (in Rs.) :—

State	1957-58	1958-59
Andhra	4,41,81,000	3,84,21,000
Assam	1,40,81,000	2,74,35,000
Bihar	4,19,40,000	6,04,28,000
Bombay	14,61,63,000	21,63,09,000
Kerala	1,26,99,000	1,82,99,000
M.P.	2,59,55,000	2,13,48,000
Madras	6,87,30,000	2,66,04,000
Mysore	1,47,56,000	1,81,28,000
Orissa	99,23,000	1,38,76,000
Punjab	4,46,94,000	5,24,02,000
Rajasthan	1,52,59,000	1,64,88,000
U.P.	8,92,79,000	7,77,29,000
West Bengal	7,32,31,000	6,98,51,000
Jammu & Kashmir	32,52,000	80,52,000
Delhi	1,38,64,000	2,39,25,000
Himachal Pradesh	5,72,000	11,85,000
Manipur	5,59,000	2,48,000
Tripura	5,92,000	4,84,000
Andamans		
Nicobars		
India	61,77,87,000	70,08,46,000

J. B. ADVANI & CO. PRIVATE LTD.

ESTABLISHED 1908

HEAD OFFICE : BOMBAY

IN 1908, three intimate friends, Kanwalsing Pohumal, Vasanmal Kishenchand and Jotsing Harising, formed themselves into a Company called J. B. Advani & Company with a view to specializing in the import of Paper and Printing Materials. This Concern was the first of its kind in Sind. The pioneers, who envisaged a great future for this line of business, opened an office in Karachi. In a very short time their confidence was justified and the venture became a huge success. The markets within reach having been tapped to the fullest extent, a Branch was opened in Bombay in 1921. In spite of the very keen competition that usually prevails in Bombay, which is the premier and largest paper market in India, the Company very soon became one of the leading firms in the line with its business growing in volumes from year to year.

In 1925, the proprietors decided to convert their firm into a Private Limited Company—J. B. Advani & Co. Ltd.—with a capital of Rs. 6,00,000.

In 1925, the management began to explore the Punjab market more energetically with a view to developing the business handled by the Head Office at Karachi and a Branch was accordingly opened in Lahore. This was followed by the opening of a Branch in Madras in 1927, which has made steady progress year by year. Three years later, another Branch was opened, this time in Calcutta. Branches have since been opened in Delhi, Jullundur and Cochin.

The Directors of this Company started a new concern under the name and style of J. B. Advani & Co. (Mysore) Private Ltd. at Bangalore.

After partition of India, the Company's interests in Pakistan were converted into a non-resident company—J. B. Advani & Co. (Pakistan) Ltd., with Head Office at Karachi and a branch at Lahore.

With its network of branches in all the important centres in India, J. B. Advani & Co. Private Ltd. today reaches every notable consuming centre in India.

The Company has a Paid-up Capital of Rs. 30,00,000. Besides, it has the substantial backing of its Directors and their relatives, and the Working Capital is actually in the vicinity of Rs. 1,00,00,000. The Company, with its branches and its tradition of 50 years as the largest importers of Paper in India with a turnover of Rs. 1,25,00,000 per annum, have since the last few years entered and specialised in machinery trade, dealing in Refractory Products, Arc & Resistance Welding Machinery & Equipment, Machine Tools, Plate & Sheet Metal Working Machinery, Building Machinery, De-Scaling, De-Rusting Pistols, Graphite, Electrodes, Di-Phase, Metal Cleaners & Equipment, Gas or Oil fire Furnaces, Printing Inks, etc. and is open to take up representation of Indian and foreign manufacturers of Paper and Machinery. The Company also export specially Tea, Textiles and Malabar Hill products.

In 1951 some of the Directors jointly started a modern Printing Ink Factory in collaboration with foreign experts at Bhandup, Bombay and today J. B. A. PRINTING INKS PRIVATE LIMITED have their vast clientele spread all over India and the neighbouring countries.

Another enterprise with which they are associated is the one for the manufacture of Welding Electrodes, probably the first major attempt in this field of industry in India. In partnership with the Oerlikon Machine Tool Works (Messrs. Buehrle & Co.), Zurich, Switzerland, the world famous manufacturers of Welding Electrodes, a new company has been floated under the name of J. B. ADVANI-OERLIKON ELECTRODES PRIVATE LTD. with 80 per cent of the share capital subscribed by J. B. Advani & Co. Private Ltd. With an up-to-date factory and most modern production line, this factory, situated at BHANDUP (Central Rly.), Greater Bombay, is producing now some of the best Welding Electrodes in the world. They have amongst their patrons, Government, Railways, Shipyards, and Great Steel fabricators of India.

A third enterprise with which they are connected is the one for the manufacture of Drinking Straws and Waterproof Kraft Paper. Messrs. IDEAL WRAPPERS PRIVATE LTD. have the leading Aerated Water manufacturers and Textile Mills as their patrons. This factory is also located at Bhandup.

Now they have their own factory at Hay Bunder, Sewri, manufacturing Arc Welding Transformers accepted by users as perhaps some of the best, comparable with similar types manufactured in advanced Western countries.

Managing Directors :

Cornmaizing

A NIL is the ROMANCE OF YOUNG PRESERVANCE—Built initially in 1941 on the remnants of war salvaged German Plant and war-torn India's Indigenous machinery—its Plant ranks today as the biggest single unit in Asia; and has already evoked edifying compliments from eminent authorities:

Say Shri Shanmukham Chetty, President—Tariff Board and Shri C. C. Desai, Member—Tariff Board:

"We were so glad to be taken round the Anil Starch Works, which rank as the best starch works in India, and which are represented to be among the best anywhere in the world. We are impressed not only by the orderly manner in which the whole factory is thought-out and planned but also by the attention that is paid to control and Research. . ."

Says Shri Manubhai Shah, Minister for Heavy Industries, Government of India:

"Anil's Glucose factory is the cleanest chemical factory I have so far seen in the country."

All this excellence is behind every product of ANILS

- ★ MAIZE STARCH
- ★ ANILOSE
- ★ ANILOSIZ
- ★ ANILOTEX
- ★ ANILOFARIN
- ★ ANILOGEL
- ★ DEXTRINS

**PIONEERS IN THE MINING INDUSTRY IN THE
MADHYA PRADESH FOR OVER HALF A CENTURY**

W. H. BRADY &

THE foundations of this famous House were laid in 1895 in Bruce Lane, Bombay, when the late Mr. W. H. Brady in partnership with the late Mr. J. F. Bradbury commenced business as Machinery Agents and Importers, and Advisers on all technical matters relating to the Cotton Textile Industry.

The period was one in which Cotton Mills were on the increase and as Mr. Brady and Mr. Bradbury were two of the best known Mill Managers of the time, their practical experience and expert knowledge of mill management and machinery helped considerably towards the firm's progress.

Within a decade, Bradbury Brady & Co. (as the firm was then styled) had extended its activities far beyond its initial business of machinery importers, for in 1900 the Empire Dye Works was started and in 1901 it took up the agency of the Colaba Land & Mill Company. This was rapidly followed by the agencies of the New City of Bombay Mills, the New Great Eastern Mills, the Sun Mill (now Dhanraj Mills) and the Bradbury Mills.

In 1912 however, a change was made when Mr. Bradbury (in Partnership with Mr. Knowles) restricted his business to the agencies of these Mills under the style of Bradbury & Co., while Mr. Brady started an independent business as a Machinery Agent (with Mr. Kay, Mr. Lakin and Mr. Johnson as junior partners) under the style of W. H. Brady & Co.

In 1913, the latter firm was converted into a private limited liability company under the name and style of W. H. Brady & Co., Ltd., with its Head Office in Bombay. Three years later, on the death of Mr. Bradbury, it took over the agencies of the Empire Dye Works, the New City of Bombay Manufacturing Co., Ltd., the New Great Eastern Spinning and Weaving Co., Ltd., and the Colaba Land & Mill Co., Ltd.

On the retirement of Mr. Brady in 1922, Sir Joseph Kay became Managing Director of the firm and its progress under his management has been considerable. In 1928 the capital was increased and the Company commenced to operate on the joint stock principle without any restrictions on its shares. Today, the operations of the concern cover an extremely wide field, for in addition to its long established textile associations, it has extended its activities over other classes of industry such as Sugar, Engineering, Printing, Insurance, etc.

Sir Joseph Kay's death on 1st October, 1958 left a void which was difficult to fill. However, he had trained many able executives during his lifetime who are now in charge of the Company's affairs. The Company's Board of Directors Mr. Jehangir P. Patel (Chairman), Mr. N. B. Jeejeebhoy, Mr. K. M. Premchand, Mr. V. S. Velinker and Mr. Pratapsinh Mathuradas, is assisted by full time Technical Advisers Mr. J. Symon and Mr. F. Edwards.

From time to time, branches have been established in other parts of India until the Company now has offices in Calcutta, Madras, Kanpur, Ahmedabad, Coimbatore, Delhi and Manchester (England).

TEXTILES.—The Company has a very large Textile Machinery Import Department which carries comprehensive stocks of the manufactures of a number of British and American firms. These firms are recognised everywhere as makers of the highest repute and amongst them may be mentioned—The British Northrop Loom Co., Ltd., Lang Bridge Ltd., Wm. Tatham Ltd. (who have a world-wide reputation for Carding and Spinning machinery for cotton waste and wool), Universal Winding Company (Patentees of the famous Leeson Winding Machines), Hugh Kitchshaw & Sons Ltd., Cocker Machine & Foundry Co., Cook & Co. (Manchester) Ltd., Samuel O'Neill & Sons Ltd., F. E. Rudman & Co., Ltd., Tragasol Products, Ltd., etc., etc.

COMPANY, LIMITED

The Textile Department is also keenly alive to all changes which constantly take place in the manufacture of Cotton and Silk goods. It is always ready to advise on these changes, suggest up-to-date systems, and to supply machinery in conformity with them.

Being closely associated for more than sixty years with the Cotton Textile Trade in India, the Company has undertaken from time to time, many large contracts and in several cases has executed orders for complete Cotton and Woollen Mills to the entire satisfaction of the purchasers.

In addition to the vast textile machinery business the Company is also directly connected with the Textile Trade in its capacity of Managing Agents for the New City of Bombay Mfg. Co., Ltd., the Empire Dyeing & Mfg. Co., Ltd., and the New Great Eastern Spg. & Wvg. Co., Ltd.

ENGINEERING.—The Company has a very large general Engineering Department. It carries comprehensive stocks of the manufactures of a number of British Firms, amongst whom may be mentioned Herbert Morris Ltd., The Renold Chains Ltd., Hopkinsons Ltd., Geo. Kent Ltd., The Andrew Machine Construction Co., Ltd., G. & J. Weir Ltd., Davidson & Co., Ltd., Norris Henty & Gardners Ltd., Dicks Asbestos & Insulating Co., Ltd., Ashworth & Parker Ltd., Hick Hargreaves & Co., Ltd., Thos. Broadbent & Sons Ltd., Hoffmann Sprinkler Co., Ltd., etc., etc.

In keeping with the development of the Engineering Industry in India, a company under the name of The Brady Engineering Co., Ltd., was formed in 1946 with the object of manufacturing wholly or partially, under licence from their various Principals, such goods as have been imported in the past but which could be readily manufactured in this country.

SUGAR.—In their General Department Messrs. W. H. Brady control the management of The Belapur Co., Ltd. This pioneer Company is not only one of the largest of its kind, but has recently erected a new factory which is the most up-to-date in India and is capable of crushing 1,000 tons of cane per day.

It manufactures pure Indian sugar by modern methods from cane which is grown entirely on its own estate.

PRINTING.—Messrs. W. H. Brady control the well-known Caxton Press (G. Claridge & Co., Ltd.) which undertakes all kinds of Printing, Lithography, Die-Stamping, Bookbinding, etc.

INSURANCE.—Insurance is another important line of business with which the Company has been connected for a considerable number of years. The Company acts as Agents of first class British and Indian Insurance Companies, and are always in a position to give advice on, and transact practically all classes of Insurance business with the sole exception of life.

OTHER INTERESTS.—The Company handles several important agencies for goods which are consumed on a very large scale in India, and has built up an extensive connection for its imports of such proprietary articles as Nicholson Files, Nettlefold Screws, Signode Steel Strapping, etc.

CONCLUSION.—In a brief resume of the Company's operations it is impossible to enumerate a complete list of firms for whom they act as representatives, but Messrs. W. H. Brady are well-known to be a live and progressive House, staffed with experts in each branch, and possessing close connections with the Textile Trade, Engineering, the Sugar Industry, Insurance, and manifold other interests.

CIPLA

INDIA'S NATIONAL PHARMACEUTICAL CONCERN

The Chemical, Industrial & Pharmaceutical Laboratories, Ltd., briefly known as CIPLA, is one of the foremost pharmaceutical manufacturing concerns in India. It is India's national concern where scientists and workers from every corner of the country—Bengal, Bihar, Madras, Maharashtra, Gujrat, Punjab and Uttar Pradesh, belonging to every race and creed are working with zeal and have helped to make CIPLA a truly national scientific organization

Under the guidance of highly qualified staff, technical personnel and with constant research, analytical control and strict supervision of manufacturing processes, CIPLA is producing

The dress of the people...

Costumes, whether they are for occasions or for daily wear vary all over the world. Climatic conditions, natural materials available, religious demands and individual ingenuity are some of the factors that determine the dress of a people

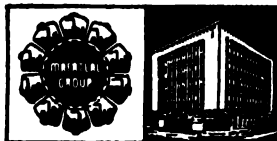

Many varied costumes are worn in India but different costumes need different qualities of cloth. The Mafatlal Group of Mills manufactures a wide range of cloth for everyday use in all parts of the country.

Over her sari and kameez the beautiful Punjabi women very often wear a heavy Pulkari chaddar, a colourful richly embroidered home made garment

CLOTH FOR THE NATION

Mafatlal's other interests include Sugar and Dyestuffs

MAFATLAL HOUSE, BACKBAY RECLAMATION, BOMBAY I

THE MYSORE INDUSTRIAL & TESTING LABORATORY, LTD.,

MALLESWARAM, BANGALORE 3.

(Successors to Mysore Government Industrial & Testing Laboratory).

Authorised Capital	Rs. 30,00,000.
Issued & Subscribed Capital	Rs. 15,00,000.
Called and Paid-up Capital	Rs. 9,37,500.
Share Capital contributed by the Government of Mysore	Rs. 3,75,000.

Chairman : The Director of Medical Services to the Government of Mysore (Ex-officio Government Director.)

Managing Director : Shri K. R. Madhava Rao, B.A., I.L.B. (Government Director).

Secretary : N. Venkatanagappa, M.A., Dip.-In-Com.

General Manager : S. G. Sastry (Jr.), B.A., B.Sc.

In pursuance of their policy to transfer Industrial Concerns started by them to private enterprise, after they had been established on a sound basis, the Government of Mysore sponsored the establishment of THE MYSORE INDUSTRIAL & TESTING LABORATORY, LTD., for the purpose of handing over as a running concern, the Government Industrial & Testing Laboratory—a Concern started by them in 1931 for the manufacture of Pharmaceutical Preparations.

In so doing the Government initiated a new policy of working this Industrial Concern of theirs jointly with the public. The Government of Mysore continue to be interested in the Concern as part owners in that 40 per cent of the shares are held by them. The Government have also the right of nominating three of their representatives as Directors on the Board of Management. One of these Government Directors is also appointed by them as Chairman of the Company. The Director of Medical Services in Mysore and the Superintendent, Bowring and Lady Curzon Hospitals, Bangalore are *ex-officio* representatives of the Government on the Board of Management.

The Laboratory is well equipped for the work it is intended to do, with up-to-date machinery, chemical plants designed for highly specialised work, and a fully equipped Chemical Control Laboratory. Highly qualified chemists and trained skilled workers are in charge of all manufacturing operations.

The Laboratory has made rapid progress within the past few years and expanded the lines of manufacture such as galenicals, medicinal specialties (like Vitoferrin, Gripe Syrup, Sedatin, Iteol-3, etc.), fine chemicals (like Citrates, Acetates, Amyl Alcohol, Amyl Nitrate, Methanol-G.R., etc.), glandular extract (like Reticulin brand Liver Extract) and injectables. THE PLANT FOR MANUFACTURE OF MALT EXTRACT ON A LARGE SCALE HAS GONE INTO PRODUCTION RECENTLY.

The Company enjoys the exclusive privilege of supplying its products to State Hospitals, Medical Stores and other Departments of the Government of Mysore.

The I.T.L. Brand Pharmaceutical preparations are popular with the medical profession all over South India.

With the facilities made available by the Government of Mysore to expand its activities, the Laboratory has been endeavouring to maintain high standards and render greater service in the cause of National Public Health.

Our

MEDICINAL SPECIALITIES:

1. GLUCONATE-D TABLETS— Calcium Gluconate with Vitamin D for Calcium Deficiency.

2. GRIPE SYRUP-I.T.L.— For digestive disorders of children.

3. ITEOL-3.—A Non-poisonous, Non-staining, and Non-corrosive Germicide for Medical, Surgical, and Household use.

4. LINCTUS CODEINE CO.—A combination of Codeine Phosph., Citric Acid, Glycerine and Tolu. Recommended for alleviating unproductive cough in all pulmonary affections.

5. RETICULIN-I. T. L.— Liver Extract for oral and parenteral use.

6. SEDATIN-I.T.L.—(Elixir Hydrastis compound) A reliable utero-ovarian sedative and analgesic.

7. SOMNITOL—A sure remedy for headache, migraine, neuralgia, dysmenorrhoea and all other conditions associated with pains.

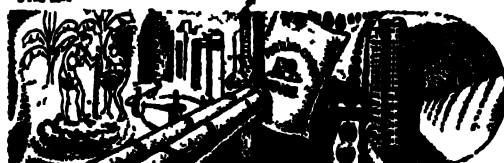

8. VITAMIN-B COMPLEX— (Syrup & Tablets) A combination of essential Vitamins of the B Complex group in physiological proportions—most suitable for quick relief of the deficiency symptoms.

9. VITOFERRIN-I.T.L. — A modern recuperative tonic with Vitamins, Minerals of Infants and Invalids.

10. VITOMALT—(Extract of Malt with Vitamins) Helps children to grow up sturdy and strong, and facilitates rapid recovery from illness and provides expectant and nursing mothers with an energising and recuperative tonic food.
